RE: Snake River Pump

Dear Mr. Batt:

On 8/12/92 I conducted a field inspection regarding your pump located on the Snake River. The pump was found just southwest of your home and at the end of the access road leading to the house. A Deutz diesel engine and Cornell pump with an eight-inch mainline were found. It appears that the system irrigated land in the NE 1/4 of Sec. 32, although I am not sure of this.

We discussed the pump and a number of water right questions and issues during the visit. You asked me to contact you if any problems were found. I can only locate one water right that appears to be related to the pumping system, right no. 02-02436 (see attached copy). The right is a license for three pumping sites to irrigate 114 acres in Sec. 32. The pump noted on 8/12/92 is located in Lot 1 NWNWNE Sec. 32, although it is possible to interpret the map (also enclosed) location as a single point on/near line of Lot 4 SWSWSE Sec. 29 and Lot 1 NWNWNE Sec. 32.

You referred to adjudication claim nos. A02-02435A and A02-20611 during our discussion. The former is for a different diversion point to irrigate 37 acres in NWSE Sec. 29 (Mr. Dewey). I cannot find any record of no. A02-20611.

Here are my questions for you.

- 1) Is license 02-02436 the water right related to the pump that I found?
- 2) If the answer to no. 1 is yes, an adjudication claim must be filed to protect the right. The enclosed form and instructions can be used to record a claim. A claim for 02-02436 is not found in department records.
- 3) If the answer to no. 1 is no, what right is linked to the pump? Department records do not show another river pump for this location except for a small pump (3 HP) for one acre, which is your claim no. A02-00072.
- 4) If no valid right for the pump can be identified, an application for permit is required to establish a new right. I can provide an application if needed.

The use of the pump in question must be covered by a valid water right and/or adjudication claim. If not, the department must prohibit continued pumping from the river at the point in question. Please respond as soon as possible. I will be glad to provide additional help at your request.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Lester".
