POU

Claim map with blue highlighted pou appears to indicate the extent of the use of water at that time. Taxlot shapefile of Canyon county indicates Bunger now owns about 1.1 acres. My POU shape and determination of 0.6 irrigated acres is based on 1987 and 1994 Treasure Valley imagery. DOQQ appears to agree.

PRIORITY

Claimed 1948. Don's 1984 claim review sheet indicates he confirmed irrigation with 1969 photograph. This is the earliest evidence in the file, and thus recommended.

POD

Digitized a point near Bunger property. No maps in file to indicate better location.

QUANTITY

Recommended 0.03 cfs, flow equivalent for 1 acre.

The Land lies for the most part along the
Snake River, it is from there she gets the
water to irrigate the land.
To the best of my knowledge that has been her
only source of water for the land.
There is no other source of water for irrigation

Dear Mrs. Bunger:

Pursuant to our telephone conversation this afternoon, enclosed you will find a computer generated claim form of your water use, for irrigation purposes, from the Snake River. Please check this claim over carefully and make any corrections that you feel are necessary. Also enclosed, for your convenience is a partially completed Request for Extension of Time to File an Adjudication Claim form. If this request is approved, it could save you \$50.00 in filing fees. Please fill out the highlighted portions of the form and return it with your claim.

Once you are sure this form accurately describes your water use, please sign it in the presence of a notary public and return it to my attention. The fee required for this "Notice of Claim to a Water Right" is \$72.00.

Please submit the signed and notarized claim form, along with the \$72.00 filing fee to this office. If you have any questions in regard to this matter, please feel free to contact me.

Sincerely,

KAY WALKER

The investigative findings of the staff made a decision on recommending these water rights difficult. At this date, amount and use of the rights may have been over four years. In each of the ~~inspections~~ inspections or [?] discussions by ~~the agent~~, ^{is} the agencies ^{y/s} ~~inspector~~ inspector, the pump did not have electrical wiring to it. The period for statutory forfeiture has been less than five years. The filing of the claims by the water users nullified the argument of abandonment except for one acre on 02-4007B where corrals and a dairy farm were erected. At this point the staff of the agency must recommend a water right ^{each} for of the claimants. The calculated diversion capacity for this pump appears satisfactory to supply the amounts recommended under each of the rights.

RE: 02-4007B

Dear Mr. and Mrs. Bunger:

Last year an examiner from this office found that the water right you claimed in February, 1983 had not been used for a year or maybe more. To wrap up its work for the court, this Department should measure and examine every water right. The examiner would like to do the measurement this field season.

If the system will not be operated this year, you will be required to submit proof of the amount of water you have diverted. Otherwise, your claim may not be included in the recommended water rights submitted to the court.

Please contact this office about an exam or any questions you may have about this matter.

Re: 02-4007

Ladies and Gentlemen:

Nearly a year ago you should have received a letter encouraging you to file water right claims in the Snake River Adjudication. To date those claims have not been received.

The legal deadline to file the claims was November 23, 1981. This fall John Noyes from this office found the diversion(s) had not been made for a few years. If the claims are not filed, you risk losing this water right.

The filing fees for the claims is \$30 each as they are filled out. If you wish to claim a right for more than the combined .18 cfs (36 miners inches), make the correction on the form(s) and initial the changes. For .20 to 1.0 cfs, the filing fee is \$45 each.

Please return the enclosed claims by February 7th after signing the forms before a notary public. Should you have any questions about this matter, please contact the staff in this office.

Regards,

DONALD V. SHAFF

RE: Field examination - interview with Jerry Dougherty - 5HP motor on platform in river - no ^{electricity} power to motor - applico it said water hasn't been used for thirty months (since June 1980) He has built corral & dairy barn on part of the three acres he applied for. He stated that Lynn Bunger, who is also part of claim 02-4007 hasn't used the water since 1980. Mr. Dougherty would like to hold water it - I informed him of five year statutory date.

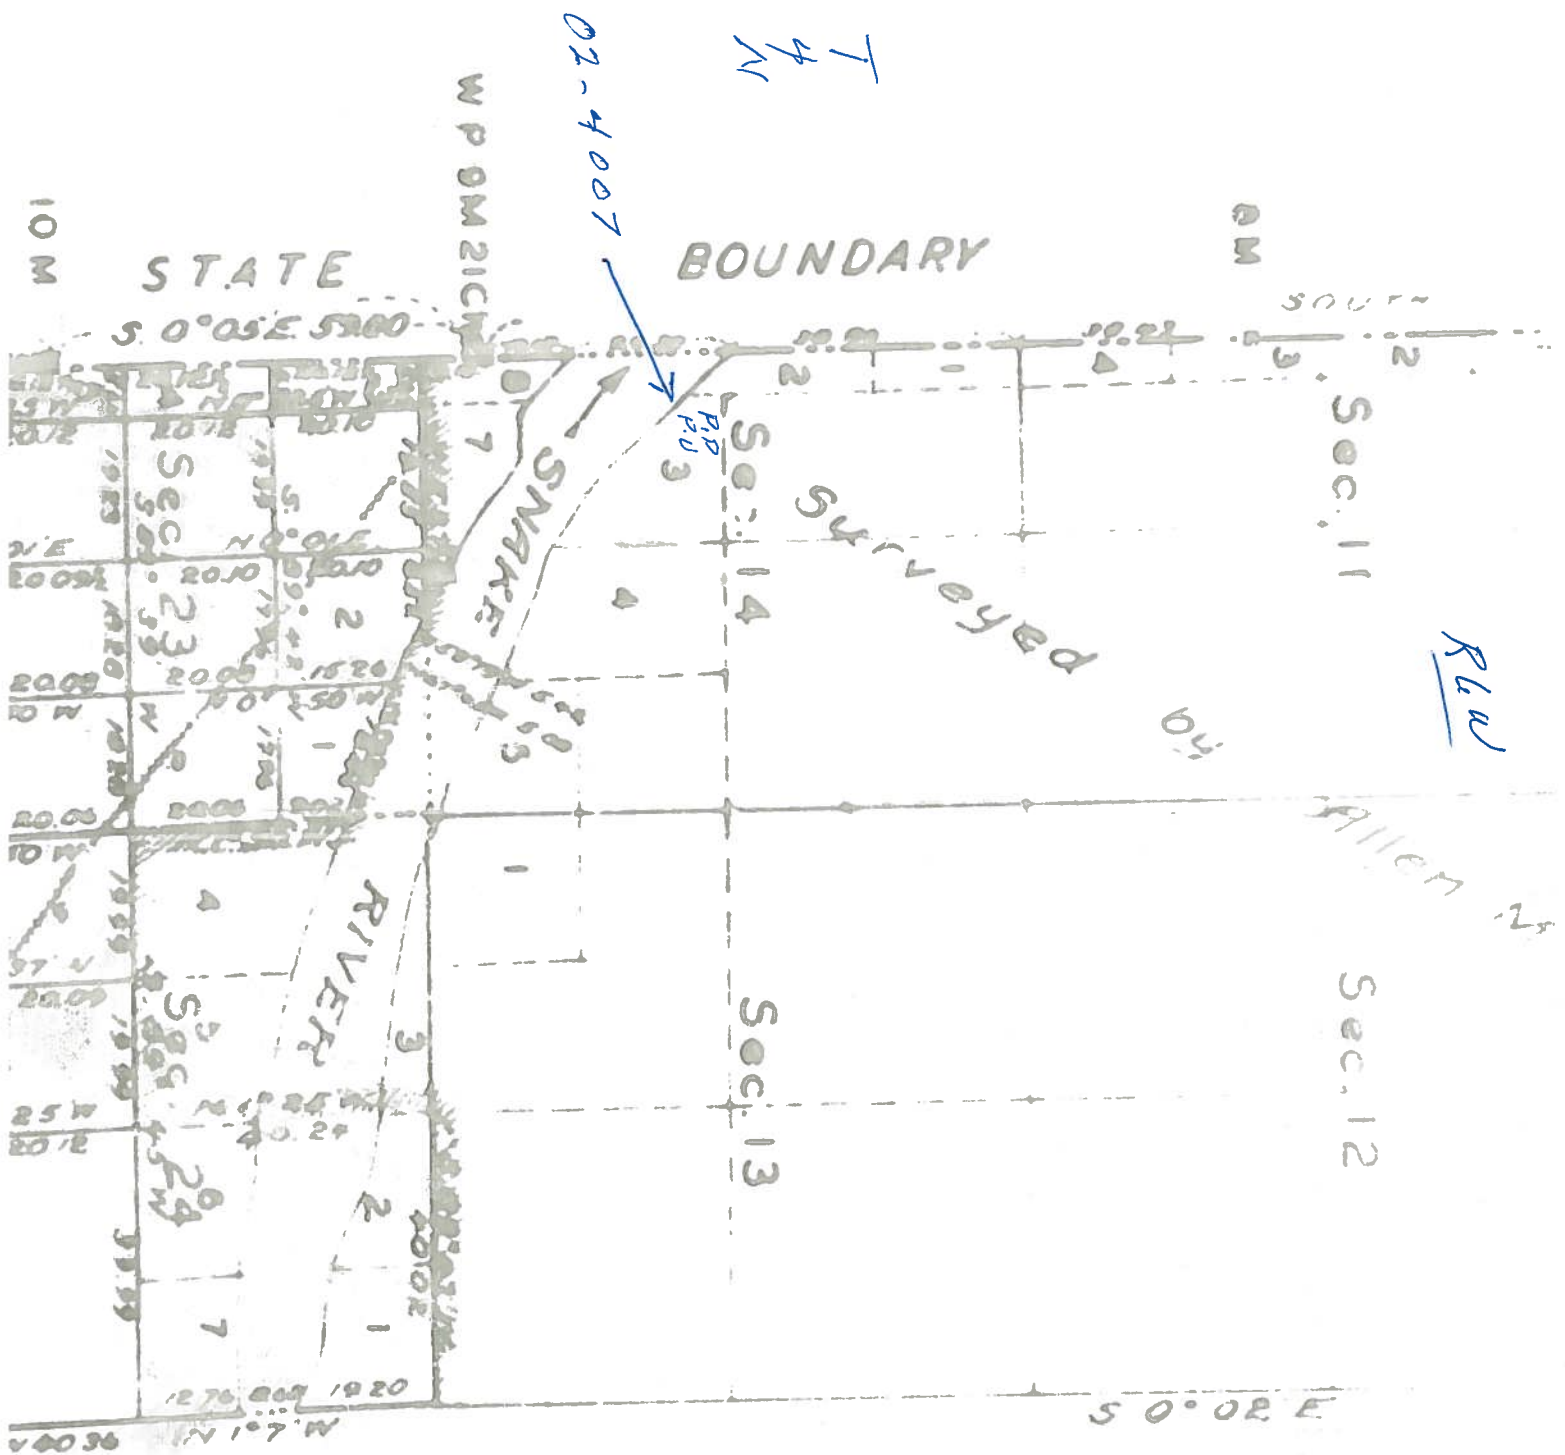

Calculation data for system

$$5 \text{ HP} \times 8.8 \times 50\% \text{ eff} = 22$$

$$20 \text{ ft lift} + .43 \text{ (40PSI)} (93.02) = 113.02 \sqrt{22} = \underline{.19 \text{ cfs}}$$

claims .6 cfs on claim to water it.

Before we can submit evidence of water it we need both parties to file a water it with our office.

Re: 02-4007

Ladies and Gentlemen:

This agency has begun to review the claims for water rights filed for the Snake River Adjudication. A part of that review requires a check of recorded water rights that are not claimed. The enclosed claims describe a water right that may be used on your land although you may be unaware the record exists. A claim has not been filed to date for this water right.

J. F. Johnson described this water right when he filed it in 1970. If you are still using this water right from the Snake River, you will want to file the enclosed claims.

Mr. Johnson filed on .60 cfs for 6 acres which could be considered excessive because this would equal five (5) miners inches per acre. The standard in Idaho is .03 cfs or one and a half (1½) miners inches per acre. If you wish to claim a right for more water than .18 cfs, make the correction on the form and initial the changes.

The filing fee for .18 cfs will be \$30 for each claim. For .20 to 1.0 cfs, the filing fee is \$45 each. By signing the claims with a notary public's seal and signature and returning the claims with the proper filing fees, the processing of your possible Snake River water rights will commence. Should you have any questions about this matter, please contact the staff in this office.

Regards,

DONALD V. SHAFF

Dear Mr. Bunger:

This agency has begun to review the claims for water rights filed for the Snake River Adjudication. A part of that review requires a check of recorded water rights that are not claimed. The enclosed claim describes a water right that may be used on your land although you may be unaware the record exists. A claim has not been filed to date for this water right.

J. F. Johnson described this water right when he filed it in 1970. If you are still using this water right from the Snake River you will want to file the enclosed claim.

Mr. Johnson filed on .60 cfs which could be considered excessive because this would equal five (5) miners inches per acre. The standard in Idaho is .02 cfs or one (1) miners inch per acre. If you wish to claim a right for more water than .12 cfs, make the correction on the form and initial the changes.

The filing fee for .12 cfs will be \$30. For .20 to 1.0 cfs, the filing fee is \$45. By signing the claim with a notary public's seal and signature following and returning the claim with the proper filing fee, the processing of your possible Snake River water right will commence. Should you have any questions about this matter, please contact the staff in this office.

**STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT**

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant J. F. Johnson
post office address Route #2, Wilder, Idaho

2. The point of diversion is in Cor. 3/4 of 1/4 Section 14 Township 4 N
Range 6 W B.M. located on Sage River (name of source)
tributary to Columbia in Canyon County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

April 1, 1948 amount: 0.6 c.f.s. or _____ acre feet
amount: _____ c.f.s. or _____ acre feet
amount: _____ c.f.s. or _____ acre feet
Total claimed _____ c.f.s. or _____ acre feet.

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use irrigation period of use from April 1 to Oct. 15 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of _____
length is _____ feet; height is _____ feet
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity _____

_____, if so, give dates and explain _____

Please explain any change or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible _____

If feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

b. Do you get water through a ditch owned by several users? no If yes, give the name of the ditch _____ The other users and their respective interests in the ditch are (if known) _____

6. When water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any data regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities.

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

water is pumped directly from Snake River through 70' of 6" mainline to ditch which distributes water to creeks.

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with all appurtenant information and certifies that all statements are true and accurate to the best of his knowledge.

SUBJ: Review Analysis

The investigative findings of the staff made a decision on recommending these water rights difficult. At this date, amount and use of the rights may have been over four years. In each of the inspections or discussions by [?]the ~~agent~~, ^{is}the ~~agencies~~ ^{y's}inspector, the pump did not have electrical wiring to it. The period for statutory forfeiture has been less than five years. The filing of the claims by the water users nullified the argument of abandonment except for one acre on 02-4007B where corrals and a dairy farm were erected. At this point the staff of the agency must recommend a water right for ^{each}of the claimants. The calculated diversion capacity for this pump appears satisfactory to supply the amounts recommended under each of the rights.

RE: 02-4007A

Dear Mr. and Mrs. Daughtery:

Last year an examiner from this office found that the water right you claimed in February, 1983 had not been used for a year or maybe more. To wrap up its work for the court, this Department should measure and examine every water right. The examiner would like to do the measurement this field season.

If the system will not be operated this year, you will be required to submit proof of the amount of water you have diverted. Otherwise, your claim may not be included in the recommended water rights submitted to the court.

Please contact this office about an exam or any questions you may have about this matter.

RE: ~~Field examination~~ - interview with Jerry Dougherty - 5HP motor on platform in river - ^{electricity} no power to motor - applico it said water hasn't been used for thirty months (since June 1980) He has built corral & dairy barn on part of the three acres ~~he applied for~~. He stated that Lynn Bunger, who is also part of claim 02-4007 hasn't used the water since 1980. Mrs. Dougherty would like to hold water it. I informed him of five year statutory date.

Calculation data for system

$$5HP \times 8.8 \times 50\% \text{ eff} = 22$$

$$20 \text{ ft lift} + .43 \text{ (40 psi)} (93.02) = 113.02 \sqrt{22} = 1.19 \text{ cfs}$$

claims .6 cfs on claim to water it.

Before we can submit evidence of water, it we need both parties to file a water it with our office.
