IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

EXPLANATORY MATERIAL: BASIS OF CLAIM - Statutory Claim

The following rights are diverted through point of diversion described above:
02-02083, 02-02084, 02-02176A, 02-02176B, 02-04027, 02-02271,
02-02272, 02-02405A, 02-02405B, 02-07032, & 02-00063.

2-00071

Seems that the agreement doesn't show beneficial use on the land, therefore, unless the agreement (Book 57, page 344, 23 Sept 1964) gives evidence of irrigation the claim must be disallowed due to no lawful appropriation found

Owner: Same as taxlot info

Priority date: agreement of said date as per claim in old 02 adjudication (7/1/1964)

POD: agreement to use pump at said POD

Source: POD on Snake River

POU: as per 1974 orthophoto quad of Grand View

Use: irrigation (as per 1974 photo)

Period: can be recommended as standard

Quantity: as per 1964 agreement for 0.5 cfs

No mention of this water in affidavits for 2-4027 signed in 1978.

Same POD as 2-07344

2-04027

Affidavits from 1978 state that by "personal knowledge" these people know that irrigation on the land began in 1962. Seems reasonable, but the question "how do you know?" is never answered in the statement, are the affidavits sufficient?

As per conversation with Don Shaff 7/11/05 it is sufficient to show priority date, additional evidence needed to verify quantity, POD, POU

Owner: claimant matches taxlot data

Priority date: recommended as claimed due to 3 affidavits in the statutory claim file describing the pou, pod, and quantity

POD: recommended as per 2-2405 field report (supported by affidavits)

Source: recommended as per 2-2405 field report (same as POD)

POU: recommended as per 2-7344 field report (supported by affidavits)

Use: recommended as per 2-7344 field report (supported by affidavits)

Period: recommended as per standard

Quantity: recommended as per agreement for 5 cfs (supported by affidavits), ability to divert shown in 2-2405 field report

2-07344

Recommended as claimed, no volume limit added because license leads to combined use limits rather than volume limit on this water right.

Included minimum stream flow condition WB9, may need to be looked at, additional legal advice pending

FROM: Don Shaff *DS*

SUBJECT: *REVIEW*

The land for Meaker is covered by three water rights from the Snake River. One of the diversions is from the Idaho Power Canal; the other two from the reservoir itself. Other water rights for this land are apparently from Shoofly Creek or tributaries to it.

The irrigated acres for 02-0071, and 02-4027, were determined with the 1974 orthophoto quad of Grand View. The additional irrigated land under 02-7344 was identified in the 1981 field exam utilizing a 1979 ASCS aerial photograph. The period of use for 02-4027 from the Idaho Power Canal is limited in period of use by the Idaho Power Agreement.

Although the diversion rate from the Idaho Power Canal was measured in 1981 and the earlier measurement in 1968 showed a larger diversion, the 1968 measurement is more acceptable because it was a measurement in the canal as opposed to a measurement at the discharge. The latter technique was used in ^{the} 1981 inspection. The 100 horsepower Westinghouse motor with Johnson vertical pump that is used by Meaker is the same pump and motor identified in the Department's April 29, 1969 letter of the 1968 examination. In 1968 this pump and motor had a discharge of 10.1 cfs. Under the existing agreement Meaker is to receive one-half of the discharge from this pump and motor. As such, the amount of 5.0 cfs claimed for 02-4027 is acceptable.

Meaker apparently has an additional agreement still operating for the right of .5 cfs. This amount of water is apparently pumped by another water user in exchange for a right of way through the land Meaker now owns. This amount is also acceptable.

To Meaker Files 02-0071, 02-4027, 02-7344

The additional duty from the Snake River for this land is picked up by 02-7344. Although the system used by Meaker has a diversion capacity of 4.34 cfs, the amount recommended and licensed for this right is 2.86 cfs. To date this would bring Meaker's water rights to 418 acres and 418 miners inches from the Snake River.

DATE: 4/02/82
TO: Files 02-4027, 02-7344, 02-0071
FROM: Don Shaff
SUBJECT:

The claimant has apparently developed the water rights from the Snake River for this land in stages. The predecessor for this land was Owyhee Grazing Association which received a portion of permit 02-2176. An examination was done for this right but proof of beneficial use was never submitted. Consequently the permit was cancelled. The exam did, however, verify that water was used on this land May 1, 1972.

The transfer of the permit 02-2176 carried with it a privilege to operate one of the three pumps in the Idaho Power Canal in Section 33, Twp. 5S, Rge. 4E in the amount of 5.0 cfs. This amount was to have been a 50% share in that pump. A field examination for 02-2176 showed that more than 10.0 was diverted. Therefore, 5.0 cfs is recommended for 02-4027.

The number of acres for 02-4027 was determined by using a field exam for 57-2327. The aerial photo used for that examination showed 323 acres were irrigated at the time of the aerial photo. As a result that number of acres is recommended for 02-4027.

Apparently through another contractual agreement the claimant is the successor to a privilege to have .5 cfs from the Snake River in the same canal. The time of this agreement would be such that the same 323 acres would have been irrigated.

Finally, the third right, 02-7344, brings the present allotment of water to the acreage now irrigated. The earlier rights totalled less than 1 inch~~e~~ per acre. As a result this third right includes water on 95 acres that was not heretofore irrigated and about .1486 inches per acre for the previous 323 acres. A work sheet in file 02-4027 illustrates the recently irrigated 95 acres. The amount of water for 02-7344 will therefore be 2.86 cfs.

The total diversions from the Snake River then for these rights would be 418 inches for 418 acres.

Dear Reg,

Information concerning the pumps in Idaho Power Canal is enclosed that you requested. Although I am skeptical of the total diversion measurement, you can see the 100 horsepower motor and pump did deliver in excess of 500 miners inches. I believe these earlier measurements can be used as a basis for determining the extent of your water right 02-4027.

Thank you for your help and cooperation.

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that Reg Meaker (name of claimant)
of Rt. B, Box 328, Grandview, Idaho, claims a right to the diversion and beneficial use of
(mailing address)
the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Snake River
_____, tributary to, Columbia
- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
- | | | | | | | | | |
|--------|----------------------|-----|-------------------------------|----------------|------|-----------------|----|------------------------|
| Amount | <u>5.0 cfs</u> | Use | <u>Irrigation</u> | Period of Use: | From | <u>March 15</u> | To | <u>November 15</u> |
| Amount | _____ | Use | _____ | Period of Use: | From | _____ | To | _____ |
| Amount | _____ | Use | _____ | Period of Use: | From | _____ | To | _____ |
| | (cfs, gpm
or a/f) | | (dom., irri.,
stock, etc.) | | | | | (both dates inclusive) |

- (3) Total quantity of water claimed: 5.0 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.
- (4) Priority claimed: (the date water was first applied to beneficial use) May 1, 1962

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)
(Lot 5) NE ¼ SE ¼, Sec. 33 Twp. 5S Rge. 4E B. M. County of Owyhee
Additional points of diversion:

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. 100 hp pump, 30 inch penstock 300 feet to ditch then to Bybee Canal to headgate and then irrigation by gravity flow.

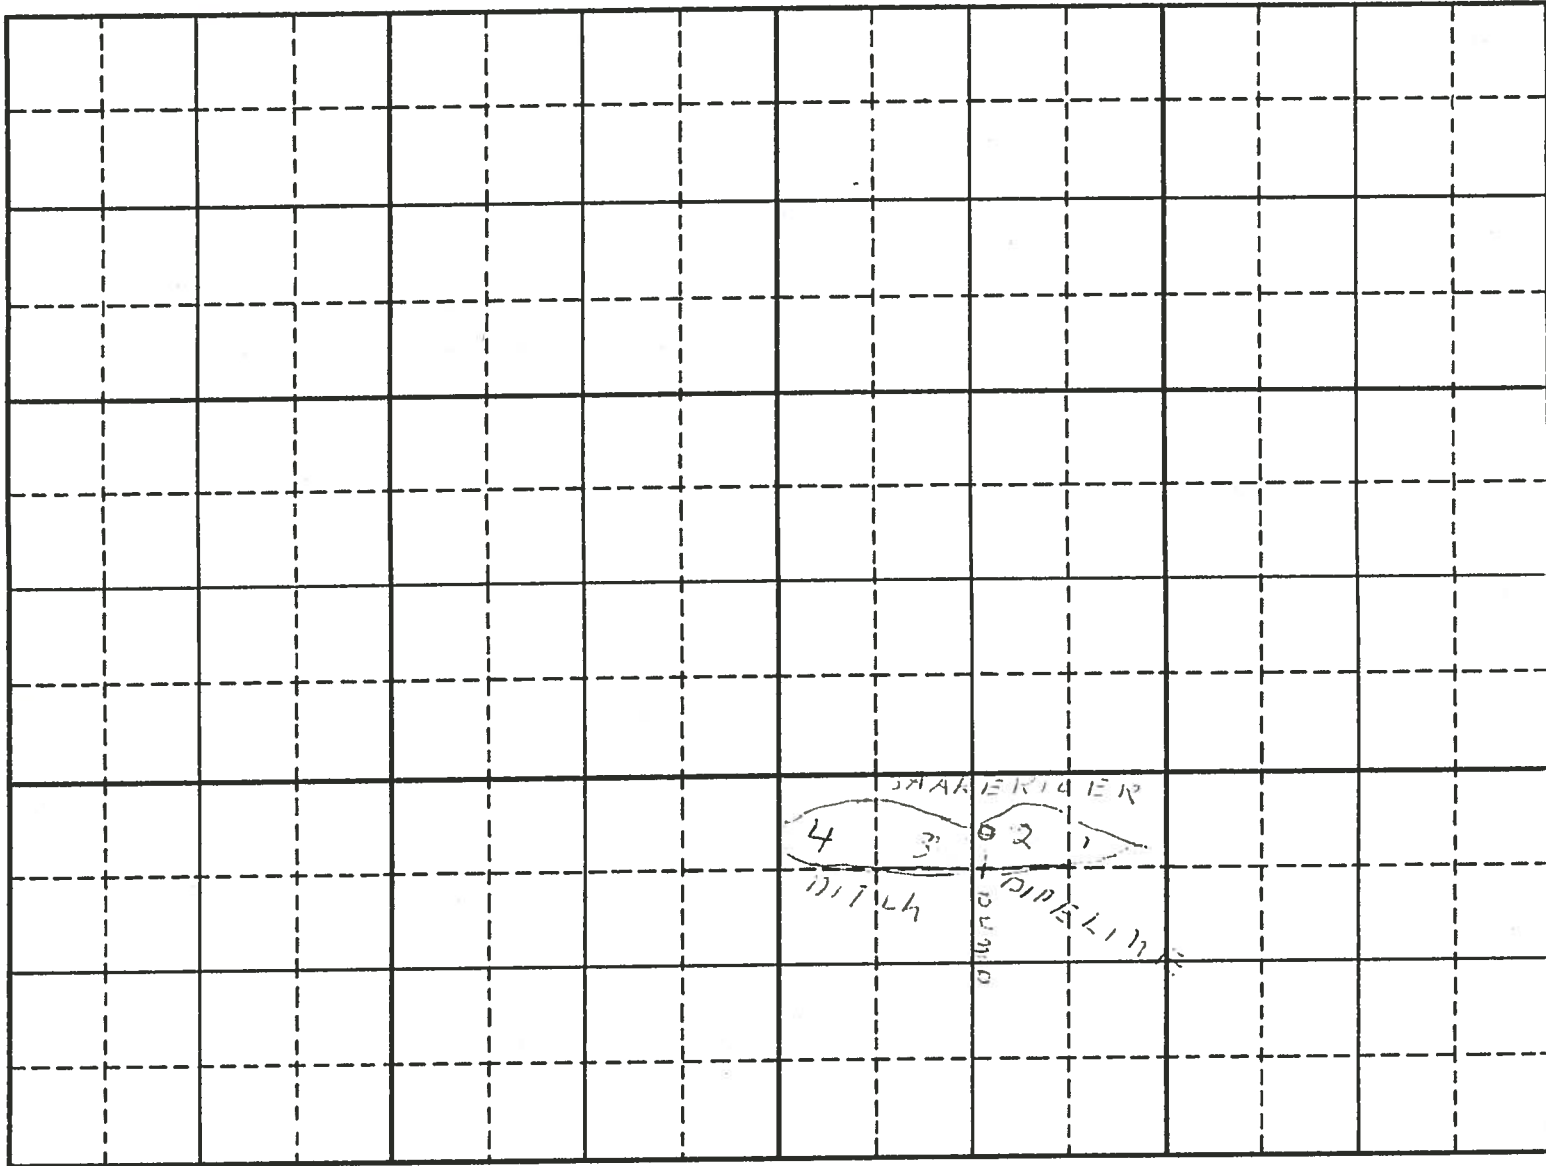

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Dear Mr. Pike:

In reply to your report of information from the Department of Reclamation regarding measurements for Permit No. 30484, D. O. Pybee. Below is the results of the field examination conducted April 16, 1968.

The point of diversion is located in the NE¹/₄SE¹/₄ (lot 5), sec. 33, T. 5 S, R. 4 E, B.M. There are three pumps located on the Idaho Power Canal, also referred to as the D. O. Pybee Canal.

- 2 - 75 hp hollowshaft electric pumps, Peerless vertical turbine pumps Q - 12.18 c.f.s.
- 1 - 100 hp Westinghouse electric motor, Johnson vertical pump Q - 10.10 c.f.s.

Total - 22.28 c.f.s.

Please contact us if we may be of further assistance.

Very truly yours,

Dean R. Reynolds

SUBJECT: Receipt Change on #W001790-Reg & Holly Meaker

This one is a mess, but I finally figured it out. Please change the program, acct., and class code on the attached receipt to Adjudication Claim Fees with Adj. program, acct. and class for the total fee paid of \$1235. Then, remove the claim #A02-04027 from the WR/NO column and put in claim #A57-07449 and a \$50 fee. These changes are a result of a final review of all of Mr. & Mrs. Meaker's claims as follows:

Originally Claim No. A57-07449 came in and the existing water right was an app. for permit at that time. My idea was to return the claim, and refund the \$50 fee paid. Then, Mr. & Mrs. Meaker requested a docket sheet subscription, however, no additional fee had been allotted for the subs. fee. So, I was going to take \$7.50 from the \$50 fee to be refunded for A57-07449, which left a refund of \$43.50, as documented on the original receipt. Then, I didn't get to it and it was lost in the masses. Now, after re-reviewing the claims for field exams I discovered that the app. for permit is now a permit, and called Lynn to see if we could go ahead and accept it. She said ok. Then, I looked in ML3 to see if they were ever data entered for the docket sheet subsc. and lo and behold they weren't. My fault again. They aren't interested in the docket sheet now, especially since it would be the back issues, so my new idea is to accept the claim for A57-07449 and take the \$7.50 for the never entered docket sheet and the \$43.50 overpayment and use them for the \$50 fee on A57-07449. Remarks in A57-07449 explain these events, and I have put an X777777 receipt no. in it to avoid an update error until this receipt can be changed.

The reason that A02-04027 is being removed is because no fee was charged for this claim since the claimant paid a \$125 fee years ago in the smal 02 adjudication, and at the time these claims were taken, we had been advised to go ahead and give credit for those fees when taking the SRBA claims. Therefore, since A02-04027 had a \$50 fee, this meant they had a \$75 credit. I decided (why I'm not sure now) to take this \$75 from another A02 claim - #A02-07344. A02-07344 is for \$418 acres, plus a \$50 fee, minus a \$10 fee paid in the small 02 adj, for a fee of \$458. With the \$75 fee removed, the fee came out to \$383 as shown on the receipt. This memo will be used in our files to document the crazy way I took care of it all. Hopefully, I've learned more since Owyhee Co. claims taking. A02-04027 is designated with an X999999 receipt no. for no fee due and remarks explaining all. Same remarks are in A02-07344.
