Addendum to Notice of Change in Water Right Ownership

Section 5. Date you acquired the water rights and/or claims listed above:

The water rights identified in Section 1 are appurtenant to land acquired by the State of Idaho from the United States on January 27, 1983, through the Willow Creek land exchange. Prior to the land exchange, the United States obtained licenses for the water rights. For reasons unknown, the water rights were not updated after the land exchange. Since the water rights are appurtenant to State land, IDL has filed claims for the water rights in the SRBA and is filing this notice to change the ownership record.

Section 6. Required Documentation:

Maps for the water rights identified in Section 1 are attached hereto as Exhibit A.

Ownership of the subject State land is documented by an Exchange Deed, dated January 27, 1983, (attached hereto as Exhibit B) and the State Land Activity Reports (attached hereto as Exhibit C). The Exchange Deed identifies land conveyed to the State of Idaho from the United States. The State Land Activity Reports, obtained from the Idaho Department of Lands, indicates that the land in question is State endowment land managed for public schools.
