RE: OWNERSHIP CHANGE A43-00171D, A43-00178H, and A43-02562

Dear Claimants,

Pursuant to the notification that you have purchased property from the Schaeffers' to which the above mentioned rights are appurtenant, I have changed our records. I wasn't clear on what the addendum was directing for the splits of the rights, but have made some assumptions based on previous conversations with Jay Harper on what the intentions of the sale were, and by the specific rights you mentioned on your form.

I have split A43-00171D and your portion has been renumbered to **A43-00171F**. I assumed you wanted your part of this right to only be appurtenant to the lands on which it was originally decreed with a proportionate share of the water, and not the 39 acres your dad has purchased. If this is your intention, **please sign in front of a notary the enclosed Amended Claim and return to my attention.**

A43-00178H has been changed to your name, but again **needs to be amended** to put the water on lands on which it was originally decreed with a proportionate share of the water. **Please sign, have notarized and return to me.**

A43-02562 was appurtenant to the entire piece, so I have split it and your portion has been renumbered to A43-02562C.

If you have any questions or if these assumptions were not your intentions, feel free to give me a call at the office.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent

- decreed POU was only appurtenant to 40 Ac.
- diversion rate should be .8 cfs
- land was sold and split three ways
- originally, claimants expressed interest in amending their claims so only "water rights" appurtenant to the part they were buying would be claimed.
- some splits and amended claims were retested and sent out, but never returned
- recommend proportional splits to all
