RE: DATA ENTRY REMARK ERROR IN 43-13071, 43-13073, 43-13063, 43-10087, 43-2084, 43-2180, AND 43-2264.

Dear Tod:

Based on our telephone conversation, I have enclosed for your use two different forms for each right that are used in the SRBA. After reviewing the claims I found that claim groups could categorize the data entry errors. The remark errors are identical in the following groups;

1. 43-2084, 43-2180, and 43-2264. The quantity and the place of use remarks have the error.
2. 43-13071, 43-13063, and 43-10087. (Explanatory remarks are not decreed by the SRBA) Two quantity remarks and one place of use remark have the error
3. 43-13073. Two quantity remarks have the same typo error but one remark was duplicated. The duplicate remark is identified by the strike out feature. One place of use remark had the same typo error and a second remark included 5 rights that should not have been listed. They are identified by the strike out feature

The Standard Form 1 Objection Form (objection form) will alert the court that there is a problem --however small-- in the way IDWR recommended your water right. Please fill out the objection forms (one for each claim), noting item D 3 on page 2 concerning the quantity remark errors and item D 9 concerning the place of use remark errors. The explanatory remark errors are not to be identified. In item E on page 2, the reason(s) should probably be identified as a clerical error.

The objection forms need to be notarized and the originals sent to the SRBA Court before the close of the objection period on February 8, 2002. Please follow the instructions for mailing copies of the forms found on page 4, the Certificate of Mailing.

The Standard Form 5 (sf5) is the standard settlement agreement form used to resolve objections. Please review the enclosed sf5s carefully, especially the description (recommendation) of your water right (page 2 of the sf5). If the information contained in the sf5 forms meets with your approval, please sign the first page and initial the recommendation page. Please return the sf5 forms to IDWR in the envelope provided. After the objection period closes in February, IDWR will file the sf5 with the SRBA Court and send you a signed copy. If no other objections to your water rights are received, your rights will proceed to partial decree based on the corrected recommendations.

Should you have further questions on the recommendation of your rights, please call me at 208-736-3033 or contact me through the e-mail address below. For questions regarding the objection or settlement process, please contact Vicki Kelly, Paralegal, at 208-327-5458. Thank you for your assistance in this matter.

	)	STIPULATED ELEMENTS OF A
_____	)	WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

TRANSFER NO. 5239
WATER RIGHT NO(S). 43-04016D/43-04017B

CONDITIONS OF APPROVAL AND REMARKS

1. Approval of Transfer 5239 does not confirm Claimed Rights 43-04016D and 43-04017B.
2. Use of water under this approval shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.
3. The dairy operation authorized under this approval shall comply with applicable county zoning and use ordinances.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
7. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 8. The total instantaneous diversion of water from all points of diversion under Transfer 5239 shall not exceed 0.27 cfs, nor a total combined annual volume of 116.0 af.
9. After specific notification by the department, the right holder shall measure the diversion or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
10. The remainder of Right 43-04016B is identified as 43-04016C and is limited to a diversion rate of 3.63 cfs and irrigation of 253.0 acres each year.
11. The remainder of Right 43-04017 is identified as 43-04017A and is limited to a diversion rate of 2.98 cfs and irrigation of 253.0 acres each year.
12. Prior to use of water for irrigation purposes under Rights 43-04016C and 43-04017A, the right holder shall install a measuring device to measure the amount of water diverted and shall annually report the diversion to the department. The right holder shall obtain prior approval from the department of the type of measuring device to install.
13. The acres which are no longer authorized for irrigation under Rights 43-04016C and 43-04017A are specifically described as follows: 29.0 acres in the NENW, S25, T10S, R27E.

MEMORANDUM

TO: Files 43-04016B & 43-04017

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5239

DATE: November 30, 1998

Transfer 5239 adds and changes the points of diversion, and changes the nature and season of use under a portion of Rights 43-04016B (C & D) and 43-04017 (A & B), splitting each right.

The transfer changes the nature of use of 29.0 irrigated acres to provide water for stockwater and commercial use at an existing dairy built on-site. Irrigation use has been confirmed by region staff. The dairy requirements were calculated using the IDWR dairy worksheet with information provided by the applicant. The transfer from irrigation to stockwater and commercial use results in a reduction of consumptive use. Further review of the validity of these claimed rights will be done through SRBA evaluation.

Recommended conditions include water quality, county zoning, multiple points of diversion/measuring devices, future annual reporting, remaining irrigation use under Rights 43-04016C and 43-04017A, non-confirmation of claims and standard transfer conditions.
