Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW

6. General Information:

a. Description of diversion system Water will be pumped together with Carey Act water and American Falls water for use in the irrigation of privately owned land which is in the corporate limits of the City of Gooding. Some water will be diverted by gravity, however at this time it is not possible to tell how much water can be diverted by gravity flow.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes X No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

NOT CHANGING PLACE OF USE ONLY POINT OF DIVERSION

d. Remarks:

This water has been used as described in SRBA claims for many years. Although this transfer appears to constitute a change in the place of use, the change actually occurred many years ago. We do not plan to change the place of use from what it is now.
