RE: Snake River Basin Adjudication (SRBA)
New Claims - C Bar Cattle Company 43-13074 & 43-13075
New Claims - Arimo Corporation 43-13076 & 43-13077

Dear Mr. Robinson,

Enclosed please find copies of the above new claims. I have included the Notice of Claim as filed, as well as my proposed Recommendation of each.

The priority date of Raft River enlargement claim 43-13075, C Bar Cattle Company, was advanced from 1950 to 1976. This was determined by reviewing 1976 aerial photos in our files that showed irrigation on the 88 acres in question. No irrigation was apparent there in 1968 aerial photos. The priority date of enlargement claim 43-13076, Arimo Corporation, was advanced from 1950 to 1978, as that was the earliest documented irrigation use on the 200 acres claimed for that right. Also note the combined limits for diversion rate from Raft River on both recommendations.

The ground water expansion claims, 43-13074 and 43-13076, increased the number of acres within the permissible place of use for both properties, with no increase in diversion rate or volume of water. In the event that it becomes necessary to decrease acres irrigated from ground water in order to achieve a balance in the Raft River aquifer, a permissible place of use gives the land owner flexibility in choosing which acres will not be irrigated to comply with the curtailment of junior rights.

Please review the water right recommendations, as well as the revised GIS maps also included, and contact me if you have any concerns. You will be receiving additional copies of all your recommendations when they are submitted as part of our Director's Report to the Court. Thank you for your cooperation in the SRBA.

Subject: RE: Water Rights

Chris -

I obviously do not do my best at remembering specific claims analysis while on the phone, nor unfortunately do my best thinking and communicating.

You were right in that there was something amiss in my statement that the entire 1,133 acre polygon for Arimo place of use had water rights from Raft River. There are really only 520 acres of irrigation from RR on your place of use, as a tally of those individual rights shows, and my statement in the letter dated June 22, 2000 should have read: ...all 1,133 acres have water rights for irrigation from ground water or Raft River. This is correct because the 40 acre tract in the NWNE Sec 5, while having no historical ground water right, has an old decreed right from RR. The reason for the disparity between 40 and 21 acres of GW deficit occurs on your claims because in some cases more acres were licensed than were found to be irrigated in 1987. Examples are the NWSE Sec 5 (licensed for 35 found 19 irrigated) and the S1/2 SW Sec 8 & NW1/4 Sec 17 (licensed for 235 found 231). Instead of insisting that the original acres were forfeited, the balance was assumed to have been moved to other areas and allowed under the accomplished transfer statutes, if it occurred prior to 1987. In this case, an older aerial photo indicated that some of the NWNE of Section 5 may have possibly been irrigated by both ground water and Raft River at some point prior to 1987. If I had separated the Raft River rights and the GW rights into different polygons, the groundwater polygon could have included about half of the NWNE Sec 5 and been an area of 1112 acres. The Raft River polygon would have included all the NWNE of 5 but nothing in Sec 17 and only 80 acres in Section 8, etc.

As you said, the more important issue is the filing of an expansion claim. If you find evidence of groundwater irrigation in the north as you hoped, the balance of the NWNE Sec 5 may also be indicated, and if so this 21 acres included in the expansion claim.

Subject: Water Rights

Vikie,

I've reviewed your letter of June 22, 2001, indicating the revisions you've made to your recommendations regarding C Bar, Arimo Corp, and Construction Inc.'s water rights. I can appreciate that it took some serious time and effort to produce, for which I thank you.

Now that you've given me the acreage and legal descriptions of the lands for the expansion claims for both Arimo and C Bar, I was wondering how I

go
about actually filing such forms. Do you have some electronic format of the forms that you could email to me or hard copies that you could fax (801-328-1616)? I will be leaving town from July 4th through July 10th, and would like to get this wrapped up before leaving.

I was a little surprised to see that you've eliminated from our "valid" water rights the SE1/4 of Section 32, T. 14 S, R. 27 E, BM. I am planning on going to the aerial photo lab here in SLC on Monday to build the case for getting an expansion claim on that portion of Section 32 and on the NENE of Section 5, T. 15 S, R. 27 E., BM. Where is the 21 acre difference on the Arimo property between what has Raft River rights and what has underground rights (1,133 acres vs. 1,122 acres, respectively)? I would also like to file an expansion claim on those acres as well.

When is the immovable deadline for getting all of this done? Also, what is the best way to get our points of diversion and places of use updated to reflect the Brian Hansen transaction, the pivots, and these expansion claims.

Please give me a call on Monday to discuss. The best number to reach me on is 801-599-4397.

Thanks,

Chris Robinson
