Dear Mr. Wallin;

I am in the process of correcting an application for a water transfer that has been filed by Peter Grush. Stan Lloyd has recently contacted me regarding 5 inches of his groundwater right that he sold to Mr. Grush prior to selling you 20 acres of irrigated land and 15 inches of this same water right. Stan said that the westerly portion of this property had been converted from irrigated land to buildings and other non-irrigated uses, and that the 5 inches of Grush water should be removed from this land in the transfer. Enclosed is a map showing the portion of your land that will be dried up under the proposed transfer.

Before proceeding, I would like to get your approval to make this change. While you did not buy the 5 inches when you bought the land, it is still recorded as being appurtenant to your property. We are also holding the Change of Ownership form that you recently submitted for this same problem, so your response will help us to properly proceed with both matters.

RE: CHANGE OF OWNERSHIP FOR 43-2580D

Dear Sir or Madam:

I visited with Stanley Lloyd yesterday about the discrepancy between the diversion rate shown on the right (0.40 cfs or 20 inches) and the rate identified in the warranty deed (0.30 cfs or 15 inches).

He indicated that there was a previous agreement where the 5 inches was to be sold to Peter Grush but that has not happened. If that transfer were to be accomplished, then 5 acres within your place of use would have to be dried up.

Stan indicated that he would probably just sign a quit claim deed that conveys that 5 inches to you. If this were done, then it would not be necessary to identify 5 acres that would be dried up. For the short term I will hold the change of ownership request at my desk without completing the process pending a response from you and/or Stan concerning the 5 inches.

If you have any questions please call me at the number listed in the heading.

Sincerely

Kelly K Christensen
Sr Water Resource Agent

RE: SRBA Claim 43-13207, Ralph Wallin Family Trust

Dear Peter;

As you have purchased this land and water from Mr. Wallin, Idaho law requires that a Notice of Change of Water Right Ownership form be filed with IDWR so that are records can be changed accordingly. A Change form and instructions are enclosed for your use, as is a printout of this claim. There is no charge for making this change as long as this claim is still under the SRBA. But the right has been recommended for a partial decree, which will probably occur this summer. Once the partial decree is issued, a processing fee of \$25. must accompany the form.

Although this property is not involved with your pending transfer, your purchase of it has created this "loose end" that needs to be taken care of.
