STANDARD FORM 4

MOTION TO FILE:

☒ LATE NOTICE OF CLAIM

☐ AMENDED NOTICE OF CLAIM

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a **separate form for each** late or amended Notice of Claim.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

✓ I have read *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996).

My name is Larry Cooper and
Barbara Jean Cooper

My address is 227 West, 20 South Knox Drive
Burley, Idaho 83318

My phone number is: Work: Home: (208) 678-8015

I am an attorney representing Larry Cooper and Barbara Jean Cooper,
Husband and Wife

My name is Roger D. Ling
LING, ROBINSON & WALKER

My address is P. O. Box 396
Rupert, Idaho 83350

My phone number is (208) 436-4717

MOTION TO FILE A LATE NOTICE OF CLAIM

A Motion to File a Late Notice of Claim will require a hearing before the Presiding Judge.

✓ I did not file a Notice of Claim to the use of water in the SRBA because:

Claims were filed and Objections to Claims 43-13110 and 43-13112 were filed. It was determined that these were duplicate licenses. Accordingly, a beneficial use claim is being filed for the water actually used that is inconsistent with the license. A recommendation for allowance of this beneficial use claim will resolve the objections to the above water rights.

☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.

✓ I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you **must** attach a copy of your Notice of Claim.)

- Affidavit of Clair Robinson;
- Records of the Idaho Department of Water Resources in regard to the licensing of Water Rights 43-13110 and 43-13112;
- Affidavit of Larry Cooper

I have attached:

- ✓ A fully completed Notice of Claim (available from IDWR).
- A claim filing fee for a domestic and stock watering use. IDWR may charge this fee pursuant to I.C. §42-1414. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.
- ✓ A claim filing fee and a late claim fee for those claims other than a domestic or stock watering use for which a notice of claim was not filed. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$100.00.

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information:

This motion will be heard on Tuesday, September 16, 2003 at 1:30 p.m.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A Motion to File an Amended Notice of Claim may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

- I must amend my Notice of Claim to the use of water in the SRBA because:

- ☐ I am providing legal and factual documentation to support my amended Notice of Claim. You must describe these documents and attach a readable copy.

I have attached:

- ☐ An amended Notice of Claim (available from IDWR).
- ☐ Payment of the following additional fees required by IDWR:

Statement
From
Clair Robinson

Subject
Wells on Sections, Three, Ten, & Eleven

I Clair Robinson was the manager of the property owned by O.A Power & Joe Wells in Idahome, Idaho. When I first went to work for Mr. Power, we were developing Sections Three, Ten, Eleven, Range 26 E.B.M. the ground was still in Brush, we were clearing, and Leveling Ground, putting in ditches and drilling Wells.

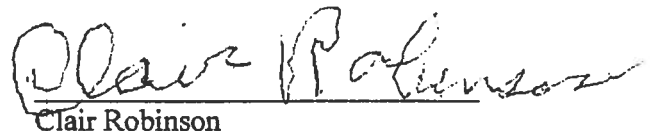

We drilled three Wells; I do not know there permit numbers so I will refer to them as Well's number One, Two, and Three. The first Well drilled was in the Southwest corner of Section 11, this well was disappointing.

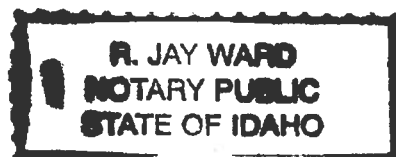

We tested the well it only pumped about 90 to 100" it was later decided to drill deeper, we ended up with about 150" but the amount didn't hold during the season. Well #2 was drilled east of Well#1. It is located about one half the ways between Hwy 81 and Well #1 on the N. Side of the road. It was a consistent well pumped around 160-165". This well was tested a couple different times.

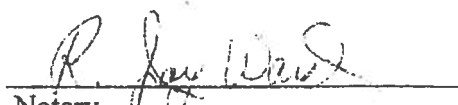

Well #3 is located next to Hwy 81 and is about ½ mile north of well #2. The driller was hitting good signs from about 40ft to the bottom of the hole and mentioned he was in washed gravel a lot of the way.

The well was tested at over 300" with no draw down. It was by far the best well of the three and was very consistent through out the year. When the well wasn't running you could hear the water gushing from the perforations.

I'm told you can still do that today. I understand the number three well is in question as to the amount it pumped. I will say it was by far the best well on the property, we could always set about twice as many tubes off that ~~than~~^{than} Well number Two, and in fact you could set more tubes off the number three well than both the number one and the number two together.

In Re SRBA
Case No. 39576

Subcase No. _____

A F F I D A V I T

STATE OF IDAHO)
County of Minidoka) ss.

Larry Cooper, being first duly sworn on oath, deposes and
states:

1. That your affiant is an adult resident of Burley,
Idaho, and makes this Affidavit on his own personal knowledge, is
competent to testify to the matters stated herein, and this
Affidavit sets forth facts as would be admissible in evidence.

2. That your affiant is the claimant of a water right
in the Snake River Basin Adjudication as shown by the Notice of
Claim attached to the Motion to File a Late Claim. I am presently
the owner of the land described as the place of use in the claim

AFFIDAVIT

2
3 sought to be filed, and am familiar with the property described
4 therein. I was the owner of this property for several years prior
5 to 1977 and was familiar with the wells located on the property and
6 the lands irrigated. The lands described in the Notice of Claim
7 were irrigated prior to 1977 with the three wells located on the
8 property. Prior to 1977 when I owned this property, the well
9 described in the Notice of Claim pumped 300 inches at all times,
10 and was used to irrigate the lands described in the Notice of
11 Claim. It was believed by this affiant that when the claims were
12 made in the SRBA for this and other water rights for this farm by
13 purchasers subsequent to this affiant, they had relied upon
14 licenses that had been issued to justify the diversion from this
15 well. The property was reacquired by me in 1991^{4.96}, and in reviewing
16 the claims, I also felt that the licensed water rights covered the
17 diversion of water from this well. During the investigation of the
18 claims, it was determined that two licenses were duplicate
19 licenses, and did not provide water from this well. It is clear
20 that since the wells were drilled, the water from the well covered
21 by this claim has always been used, although it was not licensed,
22 and that the well was drilled and the water used by 1960, probably
23 several years prior to that time. Full water rights for this farm,
24 a portion of which has been conveyed by this affiant, cannot be
25 obtained without establishing this beneficial use claim, and the
26 recommendation of this claim will satisfy our Objections filed to
27 other claims on this property.

Comments:

1. jroberts 2/13/2004 Basis of Recommendation

Comment: Recommended only the 109 acres retained by Cooper in the sale to Jones. This right is limited to 59 acres within because that is the proportionate share of pre-62 irrigated acres from the 368 acre place of use sold to Jones. (There were two PPUs recommended originally, one for 494 acres [Allen Bros. property] and one for 306 acres [Bartschi Bros. property]. Both were recommended to Cooper in the Directors Report and Jones bought both, then sold 126 acres to Harper from the 494 ac PPU, leaving 368 acres. Of the 368 ac recommended PPU, 282 acres were considered pre 1962 development and 77 acres from this PPU was retained by Cooper, so 59 is the proportionate share and the other 18 acres are expansion [43-13355], split from former expansion claim 43-13116, 43-10150B before that split. Cooper also retained 32 acres from the other 306 acre PPU but that is all considered expansion [43-13353], split from 43-12953.) The additional diversion rate was developed pre-62 but is limited to 1.13 cfs, the amount needed to bring the original 219 acres in the south half of Section 11 and recognized as irrigated by 1962 up to an inch per acre. (219 ac X .02 cfs/ac = 4.42 cfs, minus 3.25 cfs licensed under 43-2402 and 43-2478, leaves 1.13 cfs) All of the licensed flow rate was sold with the property. Transfers are needed by both Cooper and Jones to get the surface water to Cooper, add a new point of diversion for this right, and to tie the Jones properties together with groundwater only.
