Re: information to supplement Notice of Claim for Water Right

Dear Sir or Madam,

This letter provides supplementary information to assist you with the enclosed Notice of Claim for a Water Right at my residence in Stanley, Idaho, with specific references to other related water rights.

History: I purchased the subject property for this claim (Block 1, lots 1 and 2, Stanley Gov't Townsite) in 1975, and have irrigated it every year under existing water rights. The original water right claimed was #71-4011 (copy attached). Later, I also purchased an adjacent property, the Redwood Motel & Cabins (Block 1, lots 3-7, Stanley Gov't Townsite), and operated that business under provisions of claim #71-4012. During the Snake River Basin Adjudication, these two separate claims (71-4011 and 4012) were combined into one (#A71-4012). I questioned the wisdom of combining the two claims at the time, because of my view that the two properties would eventually be separated, with different owners, different uses, and a need for separate water rights. The two properties are now separated.

The Redwood Motel & Cabins was sold in late 2005 to Mr. Greg Hogan of Ketchum, Idaho, who now operates that business and continues using claim #A71-4012 on that property (Block 1, lots 3-7). Expect further correspondence from him, noting the change of ownership and amending the lots where that water right is now used.

Please update your records for my claim of a domestic water right at my Stanley residence, as filed. Note that the priority date of 1963 for my domestic right is appropriate for that property (per original claim #71-4011), rather than the 1940 priority date appropriate for the Redwood Cabins property, per claim #A71-4012.

Thank you for your assistance; feel free to contact me if I can provide any further information.

Regards,

Thomas R. Stuart
