REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 1, and all allegations of the objection regarding this item, IDWR responds as follows:

After the director's report was filed a notice of change in ownership was filed with IDWR. The name and address of the claimant should be changed as shown in the attachment entitled "Recommended Water Rights Acquired Under State Law."

In response to Statement of the Objection item 11 and all allegations of the objection regarding this item, IDWR responds

as follows:

Idaho Code section 42-1411(2) provides that the director's report shall include "such other matters as are necessary to define the right." The facility volume correctly describes the current use of water diverted for fish propagation purposes. Description of the current use is necessary to define the right and to prevent future expansions in use of the right. The recommendation of the director to the SRBA court as to how the right should be decreed does not constitute a taking, because it is simply a recommendation and not a final determination by the court; the eventual decree by the SRBA Court of the water right based on the actual beneficial use of the water diverted does not constitute a taking, because a water right is limited to the actual beneficial uses of the water diverted.

IDWR further responds that right nos. 36-07083 and 36-07568 are diverted through the same diversion system for use in the same facility. The total combined diversion rate recommended in the remarks for this right is based on measurement data provided by the claimant which shows that the maximum total flow diverted through the system pursuant to these rights is 269.96 cfs.

In response to Statement of the Objection item 14 and all allegations of the objection regarding this item, IDWR responds as follows:

See attached "IDWR's Response to Answer, Affirmative Defenses and Prayer for Relief of Claimant."

In response to the sentence listed in Changes to the Director's Report, whereby the claimant attempts to "reserve the right to claim all purposes of use and quantities of use as shown by the evidence at trial", IDWR responds as follows:

Insofar as this purported reservation of rights may constitute an attempt to reserve the right to amend at trial the claimant's notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim just as a party must obtain leave of court to file a late claim after the director's report is filed.

IDWR'S RESPONSE TO ANSWER, AFFIRMATIVE DEFENSES AND PRAYER FOR
RELIEF OF CLAIMANT

This portion of the response addresses the multi-page attachment to the objection (hereinafter "the attachment"), wherein the claimant admits or denies all sections of Parts I, II, and III of the director's report, asserts 27 affirmative defenses, and alleges a prayer for relief. The attachment contains the following sections, corresponding to the various sections of the director's report:

- (1) I. GENERAL RESPONSE
- (2) II. DESCRIPTIVE SUMMARY, (first unnumbered page of Part I of the director's report)
- (3) III. TABLE OF CONTENTS (second and third unnumbered pages of Part I of the director's report)
- (4) IV. 1. INSTRUCTIONS FOR USING THIS REPORT PART I (page 1 of Part I of the director's report)
- (5) IV. 2. SCOPE OF THE ADJUDICATION (pages 1-3 of Part I of the director's report)
- (6) IV. 3. PURPOSE OF THIS REPORT PART I (pages 3-4 of Part I of the director's report)
- (7) V. 1. BOUNDARIES OF BASIN (pages 4-6 of Part I of the director's report)
- (8) V. 2. WATER SOURCES (page 6 of Part I of the director's report)
- (9) V. 3. DEVELOPMENT OF WATER USE (pages 6-9 of Part I of the director's report)
- (10) VI. GENERAL PROVISIONS 1-8 APPLY TO ALL WATER RIGHTS IN BASIN 36 (page 9 of Part I of the director's report)
- (11) VI. General Provision 1. EFFECT OF ADJUDICATION (page 9 of Part I of the director's report)
- (12) VI. General Provision 2. GENERAL ADMINISTRATIVE PROVISIONS (pages 9-10 of Part I of the director's report)
- (13) VI. General Provision 3. CONJUNCTIVE ADMINISTRATION (page 10 of Part I of the director's report)
- (13) VI. General Provision 4. ADMINISTRATION OF GROUND WATER RIGHTS (page 10 of Part I of the director's report)
- (14) VI. General Provision 5. ADMINISTRATION OF BASIN 36 RELATIVE TO THE SNAKE RIVER (page 10 of Part I of the director's report)
- (15) VI. General Provision 6. ADMINISTRATION OF SMALL DOMESTIC AND STOCK WATER RIGHTS (page 11 of Part I of the director's report)
- (16) VI. General Provision 7. MEASURING DEVICES AND CONTROL

In response to each of the items enumerated above IDWR responds that pursuant to Section 4 a.(2)(c) of SRBA Administrative Order 1, Rules of Procedure, IDWR generally denies each and every allegation, if any, contained in each enumerated portion of the attachment. IDWR affirmatively responds that neither SRBA Administrative Order 1, Rules of Procedure, nor Title 42, Chapter 14, Idaho Code, make provision for IDWR to affirm, amplify, or otherwise respond to the claimant's admissions, or to deny the claimant's denials, and that IDWR therefore does not believe that it is required to do so. Title 42, Chapter 14, Idaho Code solely defines the content and scope of the director's report. It is to contain a description of the water system and is to provide a recommendation as to each water right claimed and as to those matters necessary for administration of those water rights. Therefore, the content and scope of the objection is limited to those same matters. The attachment to the present objection asserts or otherwise raises matters not directly addressing the elements of the water right as recommended, the description of the water system, or the general provisions. Rather, the attachment raises broad issues as to the constitutional, statutory and administrative efficacy of the entire adjudication process. All such issues should be raised by means of motions to designate basinwide issues and similar procedural vehicles specifically designed to provide for basinwide notice and participation. They should not be permitted to divert the focus of any individual subcase away from the issues directly connected to the elements of the water right and the administration thereof. Therefore, because the attachment to the present objection is not within the scope of the statutory purpose of an objection it should be stricken.

However, in the event that the court should determine that all or part of the attachment is properly within the scope of the objection, IDWR further responds as follows:

IDWR affirmatively responds that all statements within the director's report are properly included therein pursuant to Title 42, Chapter 14, Idaho Code, and in particular pursuant to Idaho Code §§ 42-1411 and 42-1412(8); and that the provisions of the Idaho Rules of Civil Procedure regarding pleadings are inapplicable to the extent that they are in conflict with the statutory requirements. Therefore IDWR denies all allegations directed at the contents of the director's report.

As to the enumerated portions of the attachment addressing the listings of recommended water rights, abstracts of federal reserved water right claims, or negotiated agreements, other than the individual recommendation that is the subject of this objection, IDWR responds that such claims or agreements are not brought before this court by this objection.
