II. STATEMENT OF THE RESPONSE

3. ☒ Quantity: I respond to the objection concerning:

3a. ☒ The total quantity of water used in cubic feet per second.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 3 and 3.a, and all allegations of the objection regarding these items, IDWR responds as follows: Water for irrigation use was neither claimed nor recommended for this right; the portion of the objection asserting a need for water for irrigation appears to be in error. To the extent that the objector is now asserting a claim to water for irrigation as part of this right, the objector improperly seeks to use the objection process to amend the notice of claim. A claimant must obtain leave of court to amend a notice of claim after the director's report is filed just as a party must obtain leave of court to file a late claim after the director's report is filed. Once leave of court is granted, IDWR can investigate the amended claim and make an appropriate recommendation to the court.

This right was claimed based on beneficial use. The amount

recommended for non-irrigation uses is the amount which IDWR was able to confirm was beneficially used. IDWR lacks sufficient information to support a finding of beneficial use of water for non-irrigation uses greater than the amount recommended.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.
