REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 1 and 11 and all allegations of the objection regarding these items, IDWR responds as follows:

IDWR is informed and therefore believes that the lands upon which water is diverted and used pursuant to this right are owned by the United States, and that the claimant uses these lands with the permission of the U.S. The United States did not file a notice of claim for the uses made pursuant to this right; and federal ownership of these lands or agreements with the federal government as to use of these lands are not necessary to define the water right. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

In the space following, you must state the reason(s), by number, for each box checked. You may use additional pages if necessary.

In response to Statement of the Objection, items 1 and 11, and all allegations of the Objection regarding these items, claimant responds as follows:

Pursuant to a duly executed contract between claimant and the United States, the lands upon which the residence is located and water is diverted and used is in the possession of the claimant, with a duty to operate and maintain these facilities for claimant's benefit. Because of the equitable interest in this property, including the well, claimant is entitled to have its right to continue to use said water for domestic uses duly confirmed in the SRBA. The United States did not file a claim to this water right and is not entitled to have the water right decreed to it merely because it has legal title to the land. Claimant has no objections to the inclusion in the

remarks to this right that the interest of the United States in this water right is controlled by Contract No. 14-06-100-2368 between the United States and claimant, and such contract should be confirmed by this court. Sovereign immunity of the United States for the purposes of adjudicating, confirming, validating and decreeing the contractual rights of A & B Irrigation District are provided by 43 U.S.C. 390 uu, Public Law 97-293 - Oct. 12, 1982.
