RE: Transfer per 43-04016B, -04017

The application for transfer, filed by Todd, Mark, and Scott Webb (brothers), of Webb Bros. Dairy LLC, seeks to modify (convert some irrigation use to stock and commercial use for their dairy) Statutory Claims 43-04016B and 43-04017. There is a expansion claim, A43-10087, that calls to the same irrigated acres as the claims associated with this transfer.

Originally Mr. Allan Webb, the father of the Webb brothers, started the transfer in July 1990. The current application for transfer is to encompass and conclude the attempt from 1990.

The analysis of change in nature of use is included on the dairy worksheet. The total diversion volume is 116.4 acre feet, stockwater 50.7 acre and commercial 65.7 acre feet. The dairy expansion is where the 29 irrigated acres use to be.

There are three wells associated with the dairy. The main well for the commercial use is located in the NENW $\frac{1}{4}$ Section 25, T10S, R27E. If the main well is incapacitated, the two domestic wells can be utilized. The first domestic well is located in the NWNE $\frac{1}{4}$ of Section 25, T10S, R27E, and the second domestic well is in the NESE $\frac{1}{4}$ of Section 24, T10S, R27E. The two domestic wells are claimed in the domestic and stock claims A43-10090 thru A43-10095, and all adjudication claims are limited to 13K gal/day.

-Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing SRBA.

-Right holder shall obtain a measuring device on each point of diversion associated with the dairy.
