REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 9, 12 and 12b., and all allegations of the objection regarding these items IDWR responds as follows: Portions of this water right were claimed by both the United States and the objector thus creating a dispute over the ownership of these portions between the owner of the place of use (the United States) and the holder of a federal grazing permit to these lands (the objector). Generally, in landlord/tenant type disputes over the ownership of a water right based on appropriation, the water right is presumed to be owned by the owner of the place of use unless a mutual intent to the contrary is clearly shown. As to the contested portions of this water right, the objector did not submit evidence to IDWR sufficient to overcome the presumption. IDWR therefore denies the

objection and all allegations of the objection not expressly admitted herein.
