Vic,

First, I apologize for not returning your call earlier today. I was busy scoping our current status so that I could answer your question. When I returned, I discovered that you had already sent the fax. That is probably a good backup, since mail has had a hard time finding me this week.

Second, after reviewing your concern pertaining to water rights 2-7103, 2-7104 and 2-7242D with Don Shaff it looks like that the condition in question can be modified to just include Simplot Trust's water rights, 2-7103 and 2-7104, in the 9 cfs limit. The condition will remain the same as it currently exists on 2-7242D, limiting the combined diversion rate of all three water rights to 9 cfs. The same condition was added to all the water rights as a matter of convenience in the recommendation process.

Note: Changing the condition does not change the fact that 2-7242D was licensed to divert water from the same point of diversion as Simplot Trust's water rights, 2-7103 and 2-7104. This means that for 2-7242D to use water there will have to be some agreement established between you as water users which allows for rotation of irrigation. This agreement is not a formal procedure involving IDWR.

I hope that this addresses your concern. If you have any further questions about this situation, please call or e-mail.

Jennifer

Subject: Recommendations for Water Right Nos. 2-7103, 2-7104 and 2-7242D.

Jennifer,

As I described during our conversation this afternoon, both licenses issued for 2-7103 and 2-7104 contain conditions limiting the total combined flow rate to no more than 9 cfs. There is no reference contained on either license to a third license, 2-7242D which is junior to both 2-7103 and 2-7104. I haven't seen the license issued for 2-7242D. However, the IDWR's preliminary recommendations for both 2-7103 and 2-7104 add a reference to water right 2-7242D including it among the condition limiting the combined flow to no more than 9.0 cfs under all three water rights.

Water right nos. 2-7103 and 2-7104 are both owned by the J. R. Simplot Self-Declaration of Revocable Trust ("Simplot Trust"). Water right no. 2-7242D is not owned by the Simplot Trust, and the Simplot Trust does not claim any interest in water right 2-7242D.

The licensed flow under 2-7103 is 6.2 cfs. The licensed flow under 2-7104 is 5.92 cfs. When used together, the combined use limit contained on these licenses (9.0 cfs combined total) prevents any diversion capacity available for 2-7242D.

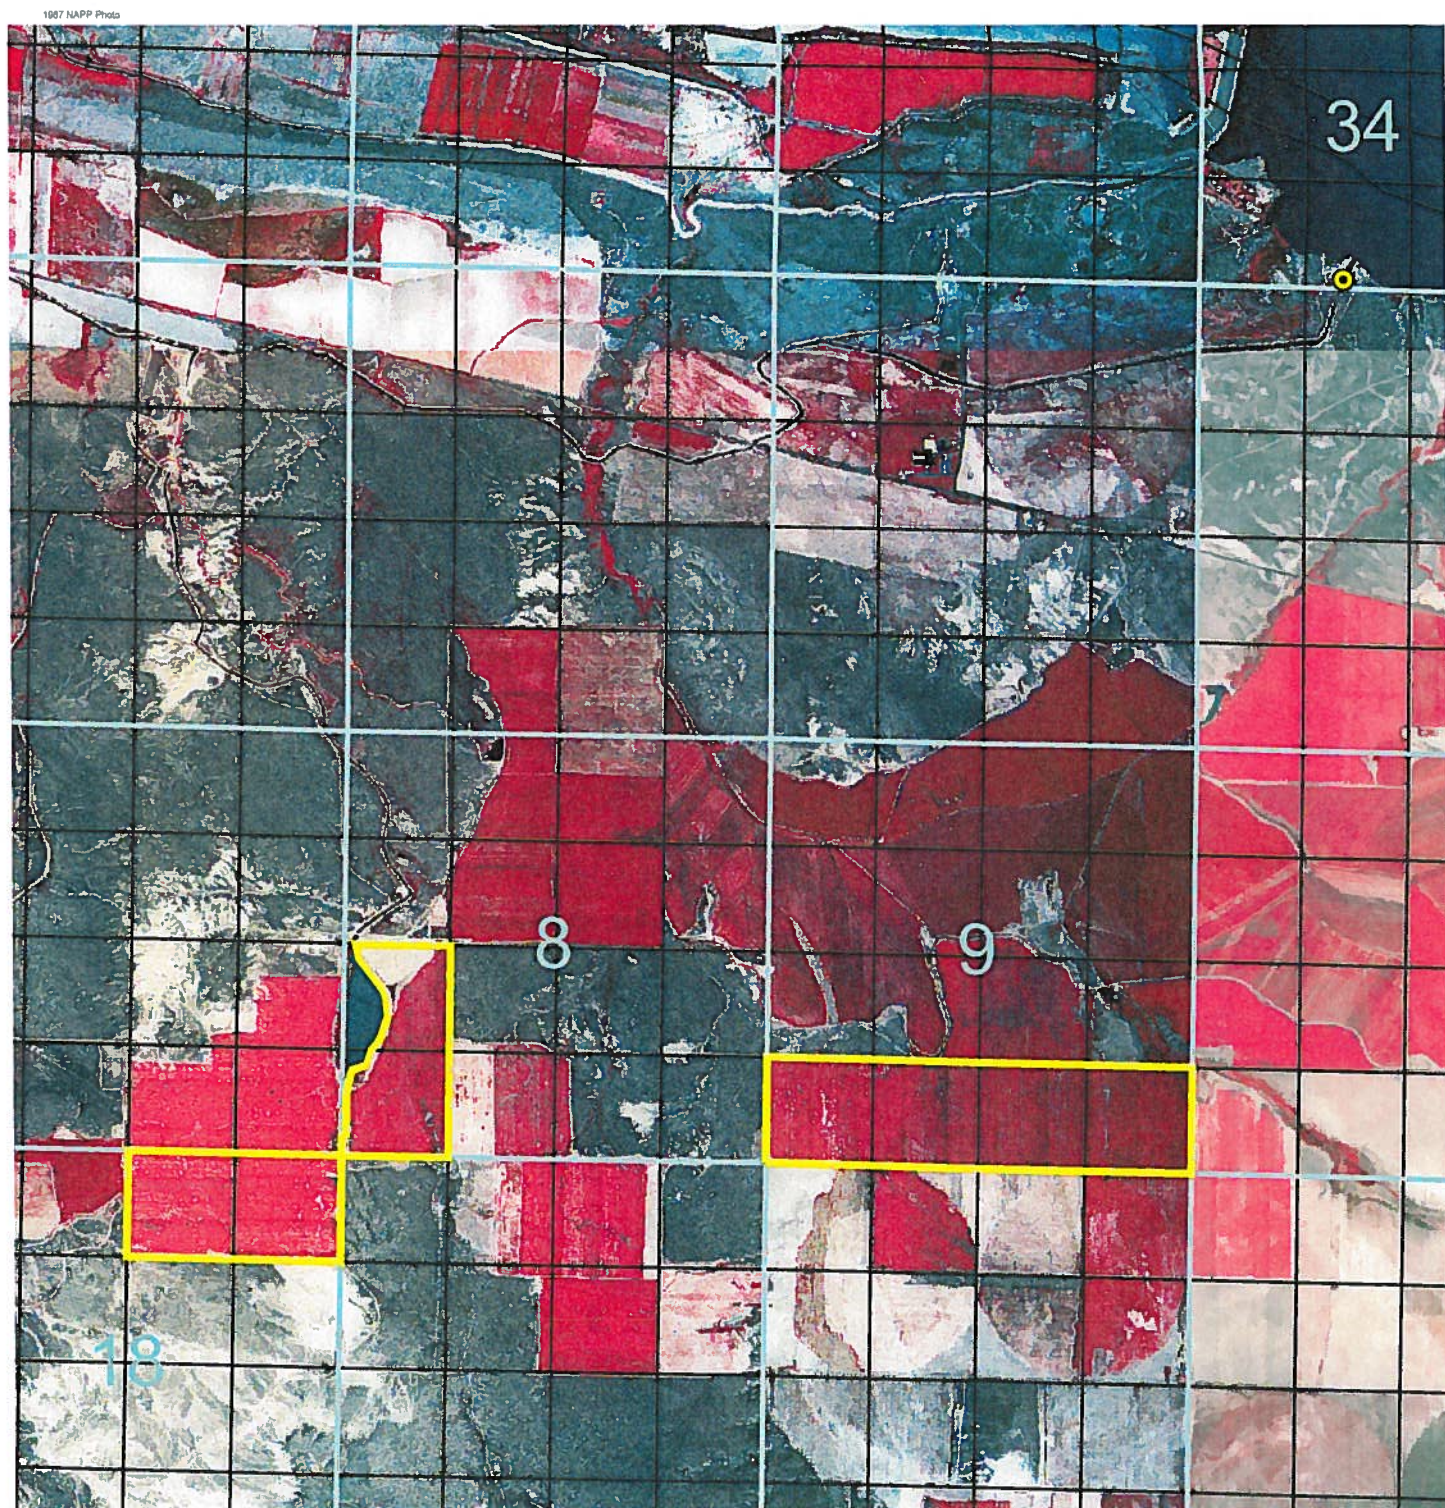

Identifying 2-7242D among the 9.0cfs combined use limit for 2-7103 and 2-7104 may create an erroneous expectation for the owner of water right 2-7242D that capacity is available when the Simplot Trust is diverting water under 2-7103 and 2-7104. Unless there is a reason provided in the water right records to include 2-7242D among the combined use limit for 2-7103 and 2-7104, we prefer removing any reference

2/24/2006

to 2-7242D on the recommendations for the rights owned by the Simplot Trust.

It may be appropriate to add a condition to 2-7242D that identifies 2-7103 and 2-7104 as a condition limiting the use of water under 2-7242D. However, with the information available at this time, we do not think it is appropriate to add a condition to either 2-7103 or 2-7104 that may be interpreted as limiting the water rights held by Simplot Trust's water rights by water use under 2-7242D.

Attached is a notice asking if we have filed a claim to water rights.

In 1988 & prior we received permits on our water except for a small portion. I, along with a lot of help from Steve Lester in your office, filed Notice of Claims on the balance.

If you can identify any water that we are using but have not filed on please let me know.

Dear Mr. Tippet:

Each of the water right numbers listed in your letters of June 16, 1989, referring to the above individuals or companies should now appear in the computer data base viewed via your account. I believe you should find everything in order.

Although these records were data entered and visible through the Agency's computer queries, a programming problem prevented their file transfer in such a way that allowed viewing by the data base access subscribers. I apologize for this delay.

Should you have questions about these claims or need assistance with the data base access, please feel free to contact me.

Claim #A02-07103/#A02-07104 - Owyhee County

Dear Ms. Johnson:

In tandem with a letter from Tippet Land and Mortgage the pieces began to come together to respond to your inquiries earlier this year about these claimed water rights and the associated receipt. Tippet can now find the computer record of your claims through its data base access account reflecting that the claims had been filed and the fees paid as recorded by Receipt #W002630 and #W002631.

I apologize for the delay in responding while the research of the receipted money was linked to the claims that were filed. Tippet has been assured that the claims have been received and were accepted for review.

I have a letter (4/13, second one) from Lone Pine Equip. questioning the whereabouts of their money and claim. I see the \$\$ was receipted 4/28 (W002630) for A02-07103, which surprisingly is on the Temporary file. Is there a problem? More importantly at least to them, has the receipt for their check been mailed? Let me know. I'll send their two letters to you for the file if everything is OK. If "you" have corresponded with them after 4/28, I'll still send the two letters to you. Thanx

Gentleman,

We have received and reviewed your Notice of Claim submitted for the Snake River Basin Adjudication. However, before we can process this claim, some errors in the filing need to be corrected.

On this claim, you have listed several water right numbers for which the claim is being filed on. In checking the water rights listed, only some of the water rights cover the same legal description as that shown on your claim. Also, some of the water rights listed have lapsed or been relinquished by the owner of the water rights. Following is a list of these water rights in the above stages:

Water Right No. 02-7056- This right lapsed on 3\1\75 for failure of the permit holder to submit proof of beneficial use.

Water Right No.'s 02-7105, and 02-7106- relinquished on 10\29\84 by permit holders, Triangle Dairy.

Water Right No. 02-7242- This right has been split and now consists of Water Right No.'s 02-7242B, 02-7242C, and 02-7242D. Water Right No.'s 02-7242C, and 02-7242D do not cover the lands listed in your adjudication claim. Both of these portions cover land in Sec. 4, Twp. 6S, Rge. 4E. Water Rt. 02-7242B is listed below.

Water Right No. 02-7242B- This right covers lands within the NW1\4 NE1\4 and SE1\4 NE1\4, Sec. 4, Twp. 6S, Rge. 4E, Twp. 6S, Rge. 4E which are not shown on your adjudication claim.

Water Right No. 57-7058- This right was re-numbered 02-7389 and it covers the NW1\4 NE1\4 and NE1\4 NW1\4, Sec. 10, Twp. 6S, Rge. 3E, which is not listed on your adjudication claim.

For the legal description of the land being irrigated as shown on your adjudication claim, Water Right No.'s 02-7103 and

MICROFILMED

AUG 07 1992

02-7104 do cover most of these acres, but not all. Our water right records show no existing rights for the following acres:

Twp. 6S, Rge. 4E

- Sec. 7 - NE SE - 5 acres not covered
- SW SE - 5 acres not covered
- Sec. 8 - NW SW - 10 acres not covered
- SE SW - 2 acres not covered
- Sec. 17 - SE NE - 12 acres not covered

Twp. 5S, Rge. 4E

- Sec. 4 - Lot 1, 2 and 3 - 11 acres not covered

Adjudication claims should be filed on Water Right No.'s 02-7103 and 02-7104 to cover 606 acres of the 651 listed on your claim. Enclosed are computer generated copies of these claims for your review. For the remaining 45 acres not covered by existing rights, either an adjudication claim based on beneficial use of the water which has to have been diverted prior to May 20, 1971, or if the water was diverted after May 20, 1971, an application for permit is needed. The May 20, 1971 date, is the date it became mandatory to file a water right for surface water development at the time of development. Enclosed is a blank claim form to use if the water was used prior to the above date along with an application for permit if it was used later than the above date. There is no deadline for filing the application for permit.

The fees for these claims are as follows:

Claim No. A02-07103- \$50.00 flat fee, plus \$1\acre for 310 acres= \$360.00 total

Claim No. A02-07104- \$50.00 flat fee, plus \$1\acre for 296 acres= \$346.00 total

If a claim is filed for the remaining 45 acres, the fee is a \$50.00 flat fee, plus \$1 per acre for a \$95.00 total fee. If an application for permit is filed for 45 acres and 45 inches of water (.90 cfs) the fee is \$45.00 (see last page of the application for permit instructions for the fee schedule).

Please have your signature notarized on the claim forms and return them within 30 days from the date of this letter, along with the above fees. The total fee will depend on which form you decide to file for the 45 acres not covered under an existing water right.

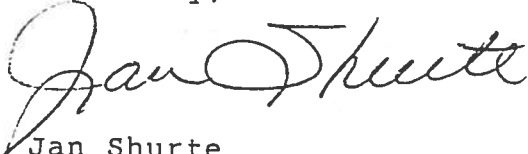

The other water rights listed on your adjudication claim, that are not covered in the legal description shown, may need to be filed on if you also own the land these cover (copies enclosed). These claims can be computer generated for your signature also.
