part agree at their own cost to construct the sump in the Snake River, to cause to be installed therein two turbine pumps with 75 h.p. electric motors and to provide all pipe and enlarge the ditch located on the parties of the first part's property for conveying said irrigation water from the Snake River over the easements provided by the parties of the first part to the pond located on the real property hereinbefore described in this agreement, including the construction of the pond itself. Regarding the ditch, the parties of the first part consent that the parties of the second part and the party of the third part may enlarge the same to a capacity to carry 720 miner's inches of water, if further land development by the parties of the second part and party of the third part require it. Also, the parties of the second part and party of the third part agree to construct therein a weir for the diversion and delivery of the water to the parties of the first part which weir shall be located at such point in the ditch as shall be requested by the parties of the first part.

It is further understood and agreed by and between the parties hereto, that the water being pumped from the Snake River for the parties of the second part will be under Permit No. 02-7178, and the party of the third part will be under Permit No. 02-7179 of the Department of Water Resources of the State of Idaho, and the water being pumped for the parties of the first part will be under a third permit owned by them. 2/5ths by the parties of the second part, and 2/5ths by the party of the third part. In the event in the future the use by the parties of the second part and party of the third party of the system exceeds 160 miner's inches of water for each, that the costs of operation, maintenance, repair and replacement of pumps, motors, other equipment, pipelines and ditch, shall be adjusted to the proportion of such use by each of the parties, if such circumstance occurs.

Re: Water Right Nos. 57-02240 R. KEITH HIGGINSON
A02-07177 DIRECTOR

Dear Ms. Torrey:

Enclosed is the Change of Ownership form and Standard Form 3 for your use in changing the name on the above referenced water rights.

The Change of Ownership form has been partially completed and only the X'd portions need to be completed. Once this form is completed, please return it to this office with proof of ownership of the land. This proof should be a copy of the Warranty Deed or signed Sales Contract, etc. This copy needs to show the legal description of this property now in your name. This form will change the Department's records to show you as the new owner for both Right No. 57-02240 and A02-07177.

The Standard Form 3, also enclosed, is a little more difficult. Water Right No. 57-02240 was submitted to the Snake River Basin Adjudication Court for decree in October, 1992. Water Right No. A02-07177 for the Snake River source has not been verified to submit for court decree, therefore, the Change of Ownership form is all that is needed for this right. Water rights from the Snake River are not scheduled for court decree for several years. In order for the Court to change the name on their record for 57-02240 the Standard Form 3 must be completed and signed by both the original owner and yourself. You should complete the portion entitled Consent to Substitution of Party. The portion entitled Attorney of Record Completing Form is to be used if you have an attorney complete this form. This form does not require that an attorney complete it to be acceptable and it is up to you whether you need one or not. Originally, this water right was submitted to the Court in the name of Charles Young. Since it may be difficult to obtain his signature, the legal staff here have indicated that if the Farm Home Administration would sign this form, along with yourself, and if you submit it to the Court with proof of ownership showing the trail from Young to Farm Home to yourself then the Court may accept the form. Please note that there are copies to be sent to other entities listed on the last page of the form. Once this form is submitted to the Court, they will notify you as to whether it is acceptable or not.

If you have any questions concerning the Change of Ownership form, please feel free to contact this office.

Sincerely,

JAN SHURTE

Re: 02-7177

Dear Mr. and Mrs. Young :

This agency has begun to review the claims for water rights filed for the Snake River Adjudication. A part of that review requires a check of recorded water rights that are not claimed. The enclosed claim form describes a water right that is apparently used on your land although you may be unaware it exists. A claim has not been filed to date for this water right.

If you believe you hold this water right, please return it with a \$10 filing fee after signing the form before a notary public. Should you have any questions about this matter, please contact me.

Thank you for your cooperation and assistance in the adjudication.

Regards,

DONALD V. SHAFF
