I called Steve Hannula of ERO today to discuss this claim. A copy of Sherb's 1/21/1996 letter and the claim were faxed to Steve.

I expect that Steve will contact the company to solicit an amended claim per Sherb's letter.

In the meantime a recommendation was prepared as claimed. Based on the letter, SENW 522 was originated by the company.

RE: South Elmore Irrigation Company

DATE: December 3, 2003

NAME OF PARTY: Steve Hammala, ERO

Believes company backed off from digital boundary  
consideration as it may not have benefitted all  
company holders. Steve will check further and  
can firm.

I suggested he check on 2-7263  
where Sherl Chapman was going to submit  
amended claim. None ever received.

Dec 5, 2003 <sup>8:45am</sup> Returned Steve's call.

Steve couldn't find Sherl's letter for 2-7263; I  
faxed claim and letter to him at 373-7985.

Steve advised that South Elmore I.C. is no  
longer interested in pursuing a digital  
boundary at this time. I advised that  
2-2367 is problematic. The 160 acres

licensed in SE $\frac{1}{4}$  55 6E 24  
does not appear to have ever been  
developed. This land was not  
on the proof of beneficial use, and  
I cannot find any other location  
where it was developed. My  
current recommendation does not  
include this land, so this  
causes a problem for the 18  
acres "moved" from here in  
the amended claim. I stated  
that I could not view as an  
accomplished transfer as I  
could not find that beneficial  
use was ever developed.

Ms. Jan Shurte  
Idaho Department of Water Resources

Boise, Idaho 83705

Dear Jan:

Terry Ketterling, President, of the South Elmore Irrigation Company asked me to contact you relating to the adjudication filing for the company, #02-07263. A part of that adjudication filing is listed as being appurtenant to the SENW, Section 2, T5S, R6E. This property was served for one irrigation season on a temporary basis by water from South Elmore Irrigation Company but there never has been a permanent water supply provided to these lands. For some reason, that 39 acre tract is shown as being included in the adjudication claim and it should not be. My purpose for notifying you at this time is that the present owner is in the process of disposing of the land which could cause some confusion on the water right issue. South Elmore Irrigation Company is in the process of preparing amended adjudication claims for most of its water rights on the project but is not yet able to submit these amended claims for the Department's consideration. It is my hope that this letter will suffice to notify the Department that these lands are not served under 02-07263 and that amended claims will soon be forthcoming.

If you need additional information or a more formal notification process on this issue, could you please let me know as soon as possible and we'll make sure that you receive whatever is necessary to insure clarity with Mr. Reyes, his perspective purchasers and South Elmore Irrigation Company in the future.

Sincerely yours,

Sherl L. Chapman  
President

RE: OVERLAP WITH SOUTH ELMORE IRRIGATION DIST.

\*\*\*\*\*  
\*\*\*\*\*

While conducting my field exam on July 27, 1994, of SRBA Claims filed by Rolling Stone Inc., I asked Mr. Lopez about the overlap of water in the SENW, Sec. 2, Twp. 5S, Rge. 6E. The CVR place of use overlap shows that a claim was filed by South Elmore Irrigation Distict under No. A02-07263 for 39 acres that are covered by Rolling Stone's claims. Mr. Lopez stated that South Elmore Irrig. District had delivered water to him one season only and that he had not received any water from them since that season, which he said was in the late 1980's (1987 or 1989). Therefore, according to Mr. Lopez, there is no overlap with South Elmore Irrigation District.

Re: Snake River Basin Adjudication Claim No. A02-07263

Dear Mr. Wissel:

I am writing to you regarding the above-referenced claim for a Snake River right used by the irrigation company. I am seeking information related to a water right transfer application made by Rolling Stone, Inc. (Reyes Lopez) for irrigated land owned by Rolling Stone, Inc.

Part of the land in the transfer application, which concerns acres served by the Lopez irrigation well, is also listed as receiving Snake River water via your company in claim no. A02-07263 (copy attached). The specific acres I am inquiring about are indicated on the attached copy and are found in SE 1/4 of NW 1/4, Sec. 2, T5S, R6E.

Does your irrigation company provide water to these acres? I am trying to get a complete picture of water used on the Rolling Stone land. Your information will be most helpful in this matter. You can respond by writing to me or, if you prefer, by calling me at 334-2190. Thank you for your help.

Sincerely,

SUBJECT: Certified Water Measurement, Permit #02-7263

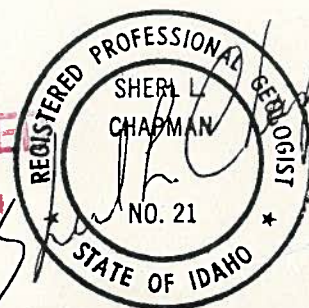

The water produced from irrigation facilities owned and operated by South Elmore Irrigation Company under permit #02-7263 was measured on April 23, 1982 by Sherl L. Chapman, Consultant. The pumping unit consists of a Westinghouse, 800 horsepower, electric motor, a vertical turbine, short coupled pump, and a 36 inch penstock which discharges into an open canal. The water is co-mingled with other waters produced for South Elmore Irrigation Company and delivered through canals of that company to bench lands above the Snake River. Normal operating pressure for the system throughout the irrigation season averages 200 pounds per square inch at the river station regardless of the number of pumps in operation.

The flow was measured at the river station in a 16 inch diameter steel discharge pipe from the 800 horsepower unit with a Collins air/water manometer. This discharge pipe receives flow only from the 800 horsepower unit that is noted under this permit. Laminar flow through the pipe was excellent and very little turbulence was found even along the side walls of the discharge pipe. Average velocity in the pipe was 9.63 feet per second and the produced flow at 200 pounds per square inch delivery pressure was 12.38 cubic feet per second or 5,556 gallons per minute. The access ports for the Collins air/water manometer were equipped with 3/4 inch gate valves which will allow additional measurement in the future if deemed necessary.

If questions arise regarding this measurement, please contact Sherl L. Chapman Consulting, 410 S. Orchard, Suite 144, Boise, Idaho 83705.

Dear Dave:

Enclosed you will find a copy of request for ~~examination~~ for proof of beneficial use in the name of South Elmore Irrigation Company for permit #02-7263. Also enclosed is a certified water measurement that I made on this pumping plant. The amended permit requested 12.0 cfs for the irrigation of 700 acres. Proof of beneficial use ~~had been submitted earlier~~ in the name of Blaine Mechem but because the permit had been assigned to South Elmore Irrigation Company prior to the submission, it apparently is now necessary to resubmit proof of beneficial use in the name of South Elmore Irrigation Company. I've enclosed the proof of beneficial use post card and it is my understanding now that the only action necessary by the Department will be to verify the land irrigated.

~~If you have any questions with respect to the permit or the~~  
certified water measurement enclosed, please don't hesitate to call.

Sincerely yours,

*Sheri L. Chapman*

Dear Mr. Wissel:

During the review of the Adjudication claims (listed above) by Sherl Chapman for the South Elmore County Irrigation Company, an error was noted in the initial payment of fees.

Initial payment of fees should be at least 20% of total payment due with four additional payments due each of the next four consecutive years with a 10% interest charged on the principle and interest balance due. The total acreage indicated in your seven licenses is 9,077, which indicates a balance of \$9,077 in acreage fees and \$350 in claims fees due in the SRBA totaling \$9,427. However, the South Elmore Irrigation Company paid \$70 in the Snake River 2 Adjudication, which is credited towards the SRBA fees for a balance due of \$9,357. Therefore, your initial payment in the SRBA should have been  $\$9,357 \times (.20) = \$1,871.40$ . As you have submitted \$1,813.80, you must submit at least an additional \$57.60.

Please submit these additional fees by January 6, 1990. If you have any questions or concerns please do not hesitate to contact me.

Regards,

Bruce A. Schuld
