The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	* ACRES PER SOIL TYPE (field)	* RATE PER ACRE (chart)	= TOTAL DIVERSION RATE
TP4	9.33	14	*	0.11	= 0.07 CFS/Acre

RE: SRBA Claims for 71-00033(Part) & 71-00034(Part)

Dear Mr. Jones:

Thank you for your letter of August 4, 1997. As per your instructions I am enclosing the Notarized modified claim forms along with a check for \$208.00 for claim filing fees.

You requested the name of a contact to arrange a field visit. Here are several. I'm not sure who is the most knowledgeable or available.

Patrick Brady
1585 Richards Avenue
Idaho Falls, ID 83404
(208) 524-4038

(Pat is the President of the Shaw Mesa Property Owners and as such is coordinating the Ditch Easement work us. He lives part-time in Stanley)

Jim Mitchell
10502 Jay Road
Boise, ID 83703
(208) 939-0707 or
774-3385

(Jim is the past President and is familiar with the process. His property adjoins mine and is served by 71-00033. He also is also a part-time resident in Stanley)

Sharlene Stahl
P.O. Box 307
Stanley, ID 83278
(208) 774-2211

(Sharlene is a newer resident, but a full-time one)

If you have any questions, please call and thanks for your help!

Sincerely

Jenny Braniff

Andrew Lawler
Sawtooth Valley Ranch
H.C. 64
Box 9945
Stanley, ID 83278

Dear Mr. Lawler:

Pursuant to your recent request, I have researched the Department's records concerning water rights and claims for water out of Fourth of July Creek. I have included computer printouts that list the old original water right decrees, licenses, and statutory claims with their respective owners and amounts. In addition, I have enclosed computer printouts that list the various Snake River Basin Adjudication claims that have been filed, along with the claimant and the amount of water claimed.

I have attempted to clarify some of the information on the computer printouts regarding the Snake River Basin Adjudication claims. For example, the initial adjudication claims have all been highlighted in pink. These particular claims are the statements filed by the claimants describing their water right.

As part of the Snake River Basin Adjudication, our Department is required to review all of these initial adjudication claims. Upon the Snake River Basin Adjudication court's request, and after reviewing these claims, our Department will make a recommendation to the court on these adjudication claims. If no objections to the recommendation(s) are made, the court will eventually decree the water right(s). However, if objections are made to the recommendation(s) by the claimant or other parties, and the objections can not be resolved, the court will eventually make a decision and then decree the water right.

July 25, 1997
PAGE 2

Representative(s) from our Department have started the review process on the adjudication claims filed on the water out of Fourth of July Creek. Based on the Department's initial review process, enough information has been gathered to create some preliminary recommendations on these adjudication claims. I have highlighted these preliminary recommendations in blue on the enclosed computer printouts. It should be noted that these preliminary recommendations may be subject to additional revision(s) before final Department recommendations are filed with the Snake River Basin Adjudication court.

Final recommendations to the court have been made on some of the claims for water out of Fourth of July Creek. These final recommendations are highlighted in green on the enclosed computer printouts.

Please note that I have written several comments regarding some of the claims and preliminary recommendations on the enclosed computer printouts.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

A handwritten signature in cursive script, appearing to read "Corey Skinner".

OCT 04 1993

Mr. Allen D. Merritt, P.E., Water Rights Supervisor
Department of Water Resources
Southern Region
222 Shoshone Street East
Twin Falls, Idaho 83301

Department of Water Resources
Southern Region Office

Dear Mr. Merritt:

Thank you for the information regarding the waters of Fisher Creek and Fourth of July Creek. I shall address the questions it raises in the order they appear in your letter.

First is the request of Fern Estes and her allegation that she had been without water all year because of the headgate's being locked. You and I examined these headgates on your inspection trip earlier this year and they were not locked then and have not been locked for at least three or four years since the padlocks were broken and never replaced. I have been up there four other times this summer. I have not - nor to the best of my knowledge, my irrigator - placed any locks on these dams. Water may have been shut off by my irrigator, Mr. Bitton's irrigator, or someone else; but I have a standing order with my irrigator to leave a flow down the old creek bed. He doesn't have a telephone, so I haven't discussed it with him since receiving your letter.

Listed in your claims file for Fisher Creek water were two filings of J. Robb Brady that I do not understand since to the best of my knowledge he owns no property on Fisher Creek. I also do not understand the split right and renumbered claim that shows up on the Fisher Creek water.

I readily concur that there are and have been a number of related problems with the distribution and management of Fisher Creek water, and placement of measuring devices would help in controlling the water. Since most of the problems seem to arise from the people who have an interest in the 25 percent of the water, it would be my suggestion that they form a ditch company that would be responsible for the distribution of that water; and inasmuch as most of those rights belong on the Stone filings and those in the subdivision, they could control that themselves.

Your observation as to a flooding is correct, but determining who was a party to this is next to impossible. Putting in new headgates that could be locked either open or closed by the ditchmaster for the Wo-He-Lo Subdivision would entail his being charged with this responsibility.

To date none of the parties on either Fisher Creek water or Fourth of July Creek water have contributed or offered to help cover any of the cost on either one of the two streams except Mr. Brady on the Fourth of July Creek water, and myself. Mr. Furey was helpful.

-2-

September 29, 1993

The map reprint you enclosed was not legible enough for me to determine all the information that was available on it.

I am enclosing a memorandum which pretty well describes my experience of my 27 years in the area.

I am sorry I was not available when your letter arrived so that I could have come up to go over this in person.

Best wishes.

Yours very truly,

Fred C. Humphreys

Enclosure.

OCT 01 1993

M E M O R A N D U M

Department of Water Resources
Southern Region Office

On August 20, 1966, Mr. Fred C. Humphreys and Mr. Ernest E. Day purchased approximately 375 acres from Mr. Jack Furey. The water rights on this property were three quarters of the water coming down Fisher Creek.

Subsequently Mr. Humphreys and Mr. Day, along with six other individuals, purchased 100 acres to the south of this property, which was then plotted into lots, and the road which was constructed into the property was turned over to Custer County. The property was thereafter referred to as the White Cloud Subdivision No. 1.

This property was all irrigated from Fourth of July Creek. The surplus water from Fourth of July Creek ran down the north side of a ridge to supplement the Fisher Creek water for use on the ground not owned by Humphreys - approximately 180 acres under McVey filing. There was no subdivision nor Scenic Easement property at the time. This ground was subdivided and a good share of it sold prior to the ERA being enacted into law.

The Fourth of July Creek water was necessary to irrigate that property along Fisher Creek not owned by Humphreys. The Forest Service raised objection to this open channeling of water down the hillside to this property; and since Humphreys was leasing the 150 acres from Furey and had use for the Fourth of July Creek water, he found the location of an old ditch facilitating transfer of the water from the Fourth of July Creek ditch to the Fisher Creek water and used it on the Furey property.

When the ground along Fisher Creek was subdivided, individuals built dwellings in the flood plain of Fisher Creek. To give better control of the Fisher Creek water, Humphreys constructed and put in diversion dams to divert the flow of the spring runoff water, or to the major user - 150 acres of the Furey property. Controlling the water was made difficult when dwellings were built along Fisher Creek as there was worriment every spring about high water going down the historic channel of Fisher Creek, with the threat of flooding these dwellings. Some people owning these dwellings took to blocking the creek off and letting the water go along the irrigation channel to my property, which washed out some of the irrigation ditches on that property and eroded the entry road on my property.

After this had happened for a number of years, Humphreys put padlocks on these diversions to let the spring runoff go down the historic channel of Fisher Creek. These padlocks were broken and the diversion points consistently tampered with and a certain amount of damage inflicted on them, until Humphreys contacted the Sheriff's Department at Challis and a deputy was sent up who talked to the people having dwellings along the creek. This stopped most of the interference with the water flow, but there is still a problem of people changing the diversion of water during the spring that and during the irrigation season.

Humphreys had continued to allow more than the allocated Fisher Creek water go past his take-out point so they could use the water for whatever.

For the 1993 season, the Stones, who now own the large plot of ground, leased it to the owner of a residence on Fisher Creek.

Considering all these problems for the demands of these many users of Fisher Creek water, the answer appears to lie in their forming a ditch company and having a take-out point that supplies all the users of the one quarter of the Fisher Creek water, and putting in the appropriate weirs so an accurate measurement and control can be maintained, and give up the dependence on the Fourth of July Creek water, despite the fact that there are probably more claims on Fisher Creek than the creek can supply.

To the best of my knowledge, there are no filings by the Fisher Creek users for the Fourth of July Creek water other than my filing on the Fourth of July Creek water to supplement the Fisher Creek water, even though historically this is not true.

There are a number of filings on this water, some of them being new owners since the Humphreys-Day filing was made on the surplus water for the 80 acres, which could be abandoned. This filing could be abandoned because of the change of ownership of the Furey property, and Humphreys receives only modest benefit from this source - i.e., your inspection this spring.

The 100 acres that was irrigated from Fisher Creek - which is now White Cloud Subdivision No. 1 - was never used for irrigation, and the ditches were all unmaintained, resulting in erosion down the steep face that was the western boundary of this property. Since there were water rights on the 100 acres, filing was made to beneficially use this water either on the Stone place or my place.

Since then the lady who bought the surplus property and the last subdivided lot on the property is entitled to the water, but the uncontrolled use of this water could still lead to erosion. The six small property owners on the brink of the hill - Mr. Day and I and four other owners of less than two acres each of this hill frontage property - have little interest in the water for irrigation. They will, however, have an interest in any erosion which transpires.

Fred C. Humphreys

FRED C. HUMPHREYS
PRESIDENT

July 28, 1993

Mr. Jeff Bitton
Mystic Saddle Ranch
Stanley, Idaho 83340

Dear Jeff:

I was in Stanley yesteday for the first time in a month or so and stopped in with the Water Resource representative from Twin Falls.

We were going over the filings on my place, and we came by and looked at the diversion out of Fisher Creek, and went up to look at the amount of water coming down Fourth of July from the diversion. This was pretty minimal.

He had been up the day before on Rob Brady's place and looked at his diversion and use of Fourth of July water and also checked the diversion that comes down from the hill.

I also took him up on the subdivision on the mesa where most of that Fourth of July water had been used. The history of that is that the water came down the hill below about even with and a little below where your house is and was doing that when I bought the place I have. It made a hell of a mess - came down muddy and washing small trees and stuff down the hill, but did make kind of a pleasant roar.

After Day and I bought the property of the subdivision and had it plotted, the water escaped and with no one to control it washed badly several places along the west end of the subdivision. I took a tractor over and filled in so no more water would be used to irrigate the ground of the subdivision.

We had some rather lean times for water over on the Fisher Creek place, and before there was anything built on Fisher Creek or any of the bench ground up there I went over and changed what appeared to be an old access of Fourth of July water down to Fisher Creek.

About that time Rob Brady bought and built on the property he now has, and that pasture wanted water and also some of those little building east of the subdivision wanted water for that pasture.

WEST ONE PLAZA SUITE 170 2 A
P.O. BOX 8242
BOISE IDAHO 83733
(208) 383-7773

July 28, 1993

I do not know what - if any - filings Jack Furey has on Fourth of July water, but Mr. Stone has not filed on that water. By a 1909 decree all of the subdivision on Fisher Creek and the Stone place are entitled to either a quarter or a third of the Fisher Creek water. It is not a half as you have been led to believe. Jack Furey put in the diversion culvert and the one across the road, and they washed out on him two or three times, but those are now Mr. Stone's responsibility, as well as expense of their maintenance.

Enclosed is a map that shows the diversion for the Fourth of July Creek water. We have always had a certain amount of problems with the water - particularly for homes built along the creek like yours is. In early spring there are times, like this year, when Fisher Creek runs a hell of a lot of water; and like this year a whole head of water was running down our lot and we had to stop the run down the road and the High Line ditch. There have been several times we have had to get the backhoe in to take care of all the wash-outs and have the Fisher Creek water run around the hill for our little ditch.

For these reasons I built the diversions of the water where they are now and put them under lock and key, and there have been times the locks were broken. About the second or third year when this happened, I had the deputy sheriff come up from Challis and go to each residence along Fisher Creek to explain matters to them. Since then these interruptions have been modest, but not totally stopped.

Jeff, this is a history of the water. I don't know what Mr. Furey has told Mr. Stone and the other inhabitants of the ground he used to own, or what legal right Stone may have to Fourth of July water, but the diversion that I remember putting in was not a large enough opening to carry much water, and that would have to be changed. Also I suspect that any additional water that comes off it would have to be settled with Brady and the other users of that water.

I will be happy to share with you on the Stone pasture up to what you are legally entitled to, and in most years there has been a surplus which I am also happy to share. I would appreciate it if you do not worry Darrell any further about water as he knows nothing except what I told him about turning a minimal amount down Fisher Creek and what the ratio is of water coming down Fisher Creek to the Stone pasture. If some of these explanations aren't clear, you can call me at Payette at 642-7137.

Sorry I missed you.

Sincerely,

Fred C. Humphreys
President

Dear Fisher Creek Waterusers:

I am writing this letter at the request of Fern Estes of Burley Idaho who is a homeowner in the Wo-He-Lo Subdivision. Fern has contacted our office since she alledges that the subdivision has been without water all year and that the headgate has been locked preventing them from taking water. I have also discovered other related problems with distribution and management of flood waters which have a bearing on the general discontent with the management of the water in the area. Since I am conducting the field review of the Adjudication claims that have been filed for the water rights in the Sawtooth Valley and have reviewed in the field the diversions from Fisher Creek I would like to convey the information thus far gathered to aid in cooperation between the parties involved.

All parties listed above have filed claims in the SRBA for diversion of Fisher Creek water. The Humphreys claims stem from the rights decreed to Marjorie Shaw (71-00028 and 71-00029). The other parties claims stem from those decreed to McVey (71-00030 and 71-00031). Additionally Humphreys claims water from 4th of July Creek under an unrecorded transfer of water off of the White Cloud Subdivision and Stone is going to amend his claim A37-00037 (originally decreed to McVey from 4th of July Creek) to that of 4th of July Creek. Note that these later rights are diverted from 4th of July Creek and then conveyed to Fisher Creek and then re-diverted from Fisher Creek.

The enclosed printout summerizes the amounts decreed, the priorities and the amounts being claimed. At present my review is not fully complete as to all aspects of all the claims involved however I do expect to recommend that Humphreys will retain all of 71-00028 and 71-00029 and the other parties will share in one way or another of 71-00030, 71-00031 and 71-00037. As to the extent of this sharing I am not certain and I am also not certain as to the extent of Humphreys claim on water from 4th of July Creek. I will finalize my recommendations for these claims this fall and you will be able to review these recommendations at the time of the notice of error procedure this winter.

PAGE 2

At present there does not exist measuring devices at any of the points of diversion nor at the point of injection of 4th of July Creek water into Fisher Creek. This makes regulation of the water very difficult.

Regarding the reported problem with delivery of water to the Wo-He-Lo Subdivision I conclude that all listed parties above have a valid interest in the use of Fisher Creek with equal priority during low flows (less than 8.6 cfs) and nobody has the authority to lock a headgate shut unless authorized by IDWR or a duly elected watermaster. Based on my assumption that only 71-00028, 71-00029, 71-00030, and 71-00031 are deliverable during low flows and discounting 4th of July water then Humphreys should get 75% of the water and the other parties should share 25% of the water. If all parties choose to rotate the water then Humphreys should get all the water 75% of the time and the other parties should share all the water 25% of the time. Note that this is subject to IDWR's final recommendation and subsequent court decree. If problems with delivery persist the final remedy is to establish a watermaster district and then you as waterusers would elect and compensate a watermaster to regulate the rights according to the decree in affect. Additionally measuring devices at the all points of diversion and points of injection would need to be installed by the waterusers.

Regarding the problem of flooding during the winter or spring it is my understanding that the Humphreys-Stone headgate has in the past been opened to alleviate flooding down the Fisher Creek channel. This action in itself has caused flood damage down this ditch and to protect from this happening Mr. Humphreys has at times locked his headgate shut. My only comment about this sort of problem is that anyone who would divert flood waters into a ditch without the full knowledge and consent of the owner would be fully responsible for the damage it may cause to the property along the ditch. It is my understanding that the natural Fisher Creek channel is that which flows west along the base of the bluff and crosses the highway just south of the Fisher Creek road and would be the natural channel inwhich flood waters would normally flow.

I have not yet had the opportunity to meet with all parties, however, I have been able to review in the field the diversion points, ect. If any party wished to meet with me I will be in the area again next week so please contact me at my office to schedule such a meeting.

Sincerely,

Allen D. Merritt, P.E.
Water Rights Supervisor

Intake Family

choose base number for intake family from table below based on texture
base number (#'s 1 through 7) = 5

6

6

Intake Family

#	flood	furrow	texture
1	0.3	0.3	heavy clays, silty clay (> 60% clay)
2	0.5	0.35	clays, slit loam (lake laid), sandy clay
3	1	0.4	silty clay loam, clay loam, sandy clay loam, silt loam (stream laid)
4	1.5	0.5	silt loam (wind laid), loam, very fine sandy loam
5	2	0.55	sandy loam, fine sandy loam, gravelly loam
6	3	0.7	very fine sand, loamy sands, gravelly sandy loam
7	4	0.85	sand

If you wish to assign intake family by an alternate method (from
Table A-3 in Hubble Report or other) enter your selection below.
Enter a value for both flood and furrow if known, otherwise enter zero.
If you do not wish to assign intake family by an alternate method
enter zero for both values.
intake family (flood) = 0
intake family (furrow) = 0

FIELD EXAM REQUIRED?
VERIFICATION REQUIRED DUE TO REMARKS?
CLAIM REMARKS: GEN CONFORMED ATTORNEY MAILING ADDRESS DMS
FIELD EXAMINER
Y() N()

CONTACT PERSON: Robb Brads

PHONE NUMBER: () - -

DATE OF FIELD EXAM: 6/30/93

APPOINTMENT MADE: Y() N()

TIME: : A() P()

ACCOMPANIED BY: Robb Brads

PHONE NUMBER: () - -

RELATIONSHIP TO CLAIMANT: _____

DIRECTIONS TO PROPERTY / NOTES:

- A. AU CLAIM: # A71-00034D PRIORITY DATE: 02-27-1919 STAGE: D
- B. WR RECORD: # 71-00034 PRIORITY DATE: 02-27-1919 STAGE: D
- C. CAN THE PRIORITY DATE CLAIMED BE CONFIRMED BY A DECREE OR LICENSE? ☒ Y ☐ N
- D. HAS THERE BEEN A LATER COURT DECREE OF THE WATER RIGHT(S) FROM THIS WATER SOURCE? ☒ Y ☐ N
- E. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE? (IF YES, DESCRIBE BELOW) ☒ Y ☐ N
- F. IF THIS CLAIM IS BASED ON A PERMIT, WHERE IS THE PERMIT IN THE LICENSING PROCESS?
- PROOF OF BENEFICIAL USE SUBMITTED ☒ N ☐ A ☐ C ☐ Y ☐ N
- FIELD EXAM COMPLETED ☒ N ☐ A ☐ C ☐ Y ☐ N
- FIELD EXAM SENT TO STATE OFFICE ☒ N ☐ A ☐ C ☐ Y ☐ N
- LICENSE ISSUED ☒ N ☐ A ☐ C ☐ Y ☐ N
- * IF THE PERMIT WILL NOT BE LICENSED PRIOR TO THE DIRECTOR'S REPORT, USE CONDITION CODE AD1 AND RECOMMEND AS PERMITTED.
- G. IF THIS CLAIM IS BASED ON BENEFICIAL USE, IS ADDITIONAL EVIDENCE OF THE PRIORITY DATE REQUIRED? ☒ N ☐ A ☐ C ☐ Y ☐ N
- * FOR CLAIMS BASED ON BENEFICIAL USE, DESCRIBE THE EVIDENCE OF PRIORITY SUBMITTED, INCLUDING THE ANALYSIS OF THE EVIDENCE.
- H. IS THE STAGE OF THE CLAIM CODED CORRECTLY? ☒ Y ☐ N

PURPOSE OF USE, PERIOD OF USE, DIVERSION RATE AND DIVERSION VOLUME REVIEW SHEET

A. AU CLAIMED USES:

PURPOSE OF USE	PERIOD OF USE (MONTH/DAY)	DIV. RATE FOR EACH USE	DIV. VOL. FOR EACH USE
A71-00034D IRRIGATION	FROM 04-01 TO 11-01	1.500 CFS	
TOTAL DIVERSION RATE/VOLUME		1.500 CFS	

B. WR RECORDED USES:

PURPOSE OF USE	PERIOD OF USE (MONTH/DAY)	DIV. RATE FOR EACH USE	DIV. VOL. FOR EACH USE
71-00034 IRRIGATION	FROM TO	1.500 CFS	
TOTAL DIVERSION RATE/VOLUME		1.500 CFS	

C. DOES THE CLAIMED PURPOSE OF USE CORRECTLY DESCRIBE THE WATER USE?

Y() N()

D. IS THE CLAIMED PURPOSE OF USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, AND IF THE ACTUAL WATER USE IS VERIFIED AS AN ACCOMPLISHED CHANGE IN PURPOSE OF USE, DESCRIBE THE INJURY ANALYSIS PERFORMED AND ENTER FLAG "C" WITH THE APPROPRIATE EXPLANATORY CODE.

E. SHOULD THE CLAIMED PURPOSE OF USE BE VERIFIED BY FIELD EXAM?

Y() N()

F. DOES THE CLAIMED PERIOD OF USE CONFORM TO IDWR STANDARDS?

Y() N()

G. SHOULD THE PERIOD OF USE BE RECOMMENDED TO IDWR STANDARDS?

Y() N()

* IF THE RECOMMENDED PERIOD OF USE IS DIFFERENT THAN IDWR STANDARDS, EXPLAIN IN NOTES BELOW.

H. IS THE CLAIMED DIVERSION RATE FOR EACH USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION RATE FOR EACH USE WAS DETERMINED.

I. SHOULD THE CLAIMED DIVERSION RATE FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A() Y() N()

J. IS THE CLAIMED DIVERSION VOLUME FOR EACH USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION VOLUME FOR EACH USE WAS DETERMINED.

K. SHOULD THE CLAIMED DIVERSION VOLUME FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A() Y() N()

AJ CLAIM TOTAL DIVERSION RATE: 1.500 CFS
WR ROOT RIGHT TOTAL DIVERSION RATE: 1.500 CFS

A. IS THE CLAIMED TOTAL DIVERSION RATE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?
B. CAN THE CLAIMED TOTAL DIVERSION RATE BE VERIFIED USING THE WATER RIGHT FILE?

N/A () Y () N ()
N/A () Y () N ()

* ALL CLAIMS BASED ON BENEFICIAL USE (INCLUDING POSTED NOTICES AND STATUTORY CLAIMS) REQUIRE A FLOW MEASUREMENT.

C. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE OF THIS RIGHT, OR ANY PORTION OF THE DIVERSION RATE?

Y () N ()

* IF AN AMOUNT SMALLER THAN THE ORIGINAL DIVERSION RATE IS CLAIMED AND A FIELD EXAM IS NOT REQUIRED, EXPLAIN IN NOTES.

D. SHOULD THE CLAIMED DIVERSION RATE BE VERIFIED BY FIELD EXAM?

Y () N ()

E. MEASUREMENT METHOD See attached FLOW MEASUREMENT, SEE ATTACHED CALCULATIONS.

F. RATE/VOLUME CALCULATIONS: (IRRIGATION)

1a. IRRIGATION RATE
ACRES x 0.02 CFS/ACRE = CFS
(Taken from pou review)

1b. CALCULATIONS

IS A DIVERSION RATE PER ACRE GREATER THAN 0.02 CFS/ACRE CLAIMED? Y () N ()
IF YES, IS AN ADDITIONAL WATER USE FORM FILED AND ATTACHED? Y () N ()

2. IRRIGATION DIVERSION VOLUME

CLAIMED DIVERSION VOLUME = AF/A

ACRES x DIVERSION VOL. AF/A FOR AREA =

TOTAL DIVERSION VOLUME AF/A

3. IRRIGATION CONSUMPTIVE USE

CLAIMED CONSUMPTIVE USE = 6.0 AF/A

ACRES x CONSUMPTIVE VOL. AF/A FOR AREA =

TOTAL CONSUMPTIVE USE AF/A

4. CALCULATIONS FOR USES OTHER THAN IRRIGATION: SEE BELOW () OR SEE ATTACHMENT ()
