RE: SRBA CLAIM A71-00034F (LAUDER)

DEAR MR & MS ULRICH:

I HAVE RECENTLY RECEIVED YOUR CHANGE OF OWNERSHIP. I APPRECIATE YOUR PROMPTNESS. THERE IS A PROBLEM, THOUGH.

I NEVER RECEIVED THE WARRANTY DEED THAT WAS TO ACCOMPANY THIS FORM. I ALSO NOTICED THAT THE LEGAL DESCRIPTION YOU PUT WAS 1S, 19E, SECTION 10, NE, NE. THE LEGAL DESCRIPTION WE HAVE ON RECORD IS 1S, 19E, SECTION 9, NE, NE. IF YOU COULD REVIEW THIS, THIS WOULD BE APPRECIATED.

I AM SENDING YOU BACK COPIES OF WHAT WAS SENT FOR YOU REVIEW. I JUST NEED YOU TO SEND ME THE DOCUMENTATION THAT IS NEEDED. I WILL FINISH THE PROCESS AND MAIL BACK YOUR COPIES.

IF YOU HAVE ANY QUESTIONS, PLEASE CALL ME AT THIS OFFICE. I APOLOGIZE FOR THE INCONVENIENCE.

SINCERELY,

Dear Mr. Lauder:

As we discussed in our phone conversation today it appears your original claim A71-00033D may be in error since the decreed right which is in the area of your property was 71-00034. I have drafted an amendment to correct the base right and also make the corrections in place of use and change the use to include irrigation of your 2 acres.

Please look this draft over carefully and make any changes you wish in pen and initial. Once you get it how you want it please sign it before a notary and return it with the amendment fee of \$27.00.

If you have questions please feel free to contact me at my office.

Sincerely,

DIRECTOR

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Thursday, August 6th at 7:00 p.m. at the Community Center in Stanley, Idaho.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant,

To help you with your water right claim(s) in the Snake River Basin Adjudication, this information is sent to you by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. Preliminary Recommendation. This is IDWR's *initial* conclusion about your water right and how it should be reported to the SRBA Court. It is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you filed.

Please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. Error Correction/Settlement Process. This is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the recommendations are filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Daniel C. Hurlbutt, Jr.", is written over the typed name.

INSTRUCTIONS FOR COMPLETING THE NOTICE OF ERROR REPLY FORM

- Please review the preliminary recommendation carefully. Your name, water right number and address have been pre-printed on this reply for your convenience. Check to be sure the pre-printed information on this form is accurate.

- If you are a new owner and need to change the name on the enclosed preliminary recommendation, please use the form entitled "*Notice of Change of Water Right Ownership*". Please follow the instructions on that form carefully and provide the Department with the necessary documents as identified on that form.

- Please fill in your daytime and evening telephone numbers.

- If there is any portion of the preliminary recommendation which is inaccurate or you disagree, please complete item number 1, 2 and 3 on the reply, sign where indicated, attach a stamp to the envelope provided and return the reply to the Southern Region. This reply must be mailed before August 14, 1998. If IDWR has questions about the information included in your reply, a staff member will be in contact with you to set up an appointment. You may also return the reply in person at the public meeting on August 6, 1998 at 7:00 p.m. at the Community Center, Stanley, Idaho.

- If you do **not** provide a reply, IDWR will submit the information contained in the enclosed preliminary recommendation as a Director's Report to the District Court. At that stage, making changes will require you to file court papers and attend court hearings.

- If you have questions or do not understand this process, please feel free to call the adjudication hotline toll free number: **1-800-451-4129** or contact the IDWR Southern Regional Office, located at 1341 Fillmore Street, Suite 200, Twin Falls, ID 83301-3380, telephone number: **208-736-3033**.

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made of the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and redirection. Points of injection and redirection are indicated where water is diverted from one source, injected into another source, and then redirected, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).

Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign this form.

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If no claims for the rights are required, and have not been filed, IDWR will so advise you.

The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.

Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.

The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.

At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.

There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

(Pat is the President of the Shaw Mesa Property Owners and as such is coordinating the Ditch Easement work us. He lives part-time in Stanley)

Jim Mitchell
10502 Jay Road
Boise, ID 83703
(208) 939-0707 or
774-3385

(Jim is the past President and is familiar with the process. His property adjoins mine and is served by 71-00033. He also is also a part-time resident in Stanley)

Sharlene Stahl
P.O. Box 307
Stanley, ID 83278
(208) 774-2211

(Sharlene is a newer resident, but a full-time one)

If you have any questions, please call and thanks for your help!

Sincerely

Dear Mr. Lawler:

Pursuant to your recent request, I have researched the Department's records concerning water rights and claims for water out of Fourth of July Creek. I have included computer printouts that list the old original water right decrees, licenses, and statutory claims with their respective owners and amounts. In addition, I have enclosed computer printouts that list the various Snake River Basin Adjudication claims that have been filed, along with the claimant and the amount of water claimed.

I have attempted to clarify some of the information on the computer printouts regarding the Snake River Basin Adjudication claims. For example, the initial adjudication claims have all been highlighted in pink. These particular claims are the statements filed by the claimants describing their water right.

As part of the Snake River Basin Adjudication, our Department is required to review all of these initial adjudication claims. Upon the Snake River Basin Adjudication court's request, and after reviewing these claims, our Department will make a recommendation to the court on these adjudication claims. If no objections to the recommendation(s) are made, the court will eventually decree the water right(s). However, if objections are made to the recommendation(s) by the claimant or other parties, and the objections can not be resolved, the court will eventually make a decision and then decree the water right.

July 25, 1997
PAGE 2

Representative(s) from our Department have started the review process on the adjudication claims filed on the water out of Fourth of July Creek. Based on the Department's initial review process, enough information has been gathered to create some preliminary recommendations on these adjudication claims. I have highlighted these preliminary recommendations in blue on the enclosed computer printouts. It should be noted that these preliminary recommendations may be subject to additional revision(s) before final Department recommendations are filed with the Snake River Basin Adjudication court.

Final recommendations to the court have been made on some of the claims for water out of Fourth of July Creek. These final recommendations are highlighted in green on the enclosed computer printouts.

Please note that I have written several comments regarding some of the claims and preliminary recommendations on the enclosed computer printouts.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

A handwritten signature in cursive script, appearing to read "Corey Skinner".
