RE: SNAKE RIVER BASIN ADJUDICATION CLAIMS A71-00042A & A71-00043A

Dear Ms Sadler

Enclosed is your change of ownership form and the two updated rights. Please review the copies to confirm that the data entry is correct. The claims represent the original filings and may not necessarily represent the final recommendation for these rights. The department will be mailing the proposed recommendation of these rights later this month and the data on that proposal will reflect my recommendation. Additional instructions will accompany the proposed director's report.

Dear Kelly:

Please find enclosed the Change of Ownership form dealing with HES 271 and HES 274 which has been executed by Martha Mahoney Sadler. I've also attached copies of the recorded Deed from the Atlanta Mahoney Trust to the three children of Daniel J. Mahoney, Jr. (0213300) and the Deeds to Martha Mahoney Sadler from her sister and brother (0213301 and 0213302).

I have sent the Change of Ownership to Martha with the attachments, and therefore the mailing to you will be direct from her in order to speed the process.

I also refer you to your letter to me dated May 21, 1998 and to our subsequent telephone calls.

Call if there are questions. Thanks.

RE: SNAKE RIVER BASIN ADJUDICATION CLAIM A71-00042A

Dear Mr Ward

The department has tentatively scheduled the first of July 1998 as the date that we will submit a director's report to the SRBA court for irrigation rights in basin 71.

After reviewing warranty deed 182401 and the original Kennedy claim, it appears to me that the intent of that claim was to claim all water appurtenant to the two portions of the HESs that Kennedy owned. Because A71-00043A has a 1915 priority date I cannot recommend both portions under one claim with a 1914 priority date. Based upon that documentation, I have split a portion of A71-00042A off the original claim and have identified it as A71-00043A. I did not renumber the base claim.

I have attached a summary of my tentative recommendation of claims held by Atlanta Mahoney Trust which are appurtenant to HES 271 and HES 274. If the claims are acceptable as they stand (see attached recommended rights) then you need to do nothing, however, if there is an element or elements that you disagree with then please contact me to discuss what needs to be done.

As previously communicated, the ownership of this particular claim is still in the name of Atlanta Mahoney Trust. As this claim was not included in an earlier change of ownership submitted, the department was unable to change this right. If you want this ownership changed, please submit a completed change of ownership form and the necessary documentation to identify the current owner.

Sincerely

A71-00042B is recommended as claimed on the found irrigated and owned portion of HES-271 and A71-00043B is recommended as claimed on the found irrigated and owned portion of HES-274 (to the USDA-F). No ground outside the HES boundaries is included in the recommended place of use.

A71-00042A and A71-00043A are recommended on a permissible place of use covering parts of both HES 271 and HES-274 as found irrigated and claimed by Kennedy. No ground outside the HES boundaries is included in the recommended place of use.

SOURCE (for all 4 claims) P/D LEGAL DESCRIPTION

Valley Creek TNS 11N; RNG 12E; SEC 4; NE $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$

(above is the recommended legal for all claims as the decree describes only Valley creek as the source and only that P/D from Valley Cr can deliver water to the HESSs. Hanna Creek is decreed to a different HES under a different right.)

BASIS FOR A71-00042A & A71-00042B RECOMMENDATIONS DIVERSION RATE ANALYSIS

The warranty deed submitted by USDA-F indicates that their portion of 71-00042 is 1.59 cfs and their portion of 71-00043 is 2.60 cfs. The rate expressed in the warranty deed is the diversion rate recommendation for A71-00042B.

As that warranty deed specifically identifies a portion of the diversion rate for each right as being appurtenant to the USDA-F property the balance is therefore considered appurtenant to the property claimed by Kennedy.

The balance of 3.21 cfs from 71-00042 is the recognized rate for Kennedy under A71-00042A.

BASIS FOR A71-00043A & A71-00043B RECOMMENDATIONS

Again, the specified 2.60 cfs in the warranty deed is the diversion rate recommendation for A71-00042B.

Because the priority dates are different for each right and to recognize all of the appurtenant water for the Kennedy place of use under one claim would require the priority date to be advanced to the later date (5-1-1915), I split 0.60 cfs from A71-00042A. The 0.60 cfs represents the balance of the rate specified for 71-00043 as identified in the USDA-F warranty deed. That rate is recognized under A71-00043A with the 1915 priority date.
