WARRANTY DEED

This indenture made this 19th day of February, 1980, between WILLIAM HAMMOND and BESSIE HAMMOND, his wife, as to an undivided 1/2 interest and ALFRED BROOKS and ELEANOR BROOKS, his wife, as to an undivided 1/2 interest, GRANTORS and the UNITED STATES OF AMERICA, GRANTEE.

WITNESSETH: That the said Grantors, for and in consideration of the sum of Four hundred seventy seven thousand and n/100 dollars (\$477,000.00), to the Grantors in hand paid by the said Grantee, the receipt of which is hereby acknowledged, do by these presents grant, bargain, sell, convey and confirm unto the said Grantee, and its assigns, forever, all the certain lots, pieces or parcels of land situate, lying and being in the County of Custer, State of Idaho, and bounded and particularly described as follows, to-wit:

HES No. 133, embracing a portion of Sections 11, 12 and 13, in Township 11 North, Range 12
— — — — — described as follows:

TO HAVE AND TO HOLD all and singular the above-mentioned and described premises, together with the appurtenances, unto the said Grantee and to its successors and assigns forever, and the said Grantors and their heirs, the said premises in the quiet and peaceable possession of the said grantee, and its assigns against the grantors and their heirs and against all and every person and persons whosoever lawfully claimed or to claim the same, shall and will WARRANT and do by these presents forever DEFEND.

And the said Grantors for themselves, their executors and administrators do covenant and agree to and with the said grantee, and its assigns, that they are lawfully seized in fee of the aforegranted premises; that the same are free from all encumbrances; that they have a good right to sell and convey the same to the said grantee, aforesaid; and that they, the grantors warrant and will forever defend the before-granted land and premises against the right, title, interest, or claim of all and every person whomsoever.

ACKNOWLEDGEMENT

STATE OF Idaho)
County of Blaine) ss.

On the 11th day of February, 1980, before me Katherine O. Freeman, personally appeared ELEANOR BROOKS, known to me to be the person whose name is subscribed to the within instrument, and acknowledged to me that she executed the same.

Katherine O. Freeman
Notary Public for the State of Idaho
Residing in Hailey, Idaho
My commission expires: Life

RE: Evidence of Priority

RESPONSE DEADLINE

DECEMBER 1, 1993

Dear Mr. Breamer:

The Notice of Claims identified on the attached Selection File Contents Report have been filed in the Snake River Basin Adjudication (SRBA) in the name of the USFS. The Notices indicate these water uses are based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date that has been claimed.** Please find enclosed a pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. Since time is short we request that the evidence be submitted as soon as possible with a target deadline of December 1, 1993. If additional notices of claims are to be submitted by USFS for rights presently not claimed and the basis of those claims are "Beneficial Use" it is requested that the evidence of priority be submitted at the time the claims are filed.

Please note that the notices highlighted in yellow are associated with water rights that are based on decrees, licenses or permits. I don't know if this is a data entry error or these notices are intended to claim something different than the state law water right. If you could clarify this matter it will be helpful.

If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at this office.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read 'Allen Merritt'.

Allen Merritt, P.E.
Water Rights Supervisor

ATTACHMENT SUBJECT: P/D SYSTEM FOR 11N 12E Sec 4 NE SW NE *

F06::71-00040A, 71-00040B, 71-00042A, 71-00042B, 71-00045,
71-00047, & 71-00050. Related Fish Screen VC-6.

The Forest Service reconstructed the di structure at a location
other than decreed. Date of change unknown at this time.

The ditch leaves the P/D and runs south east along the eastern
border of the Valley. The ditch intercepts Hanna Creek in
11N, 12E Sec 3 NW NE SW with the first major control structure
at this point. The water can be split with one channel rough
using the old Hanna Cr channel to carry water to the north end
of the Mahoney/Kennedy Property that lays west of the cow camp road
and is the northern most P/U between Valley C & the Cow camp road
the other Channel continues southeast along the eastern border
of the Valley to the North end of the northern most P/U east
of the Cow camp road. The ditch again divides with
one main ditch paralleling the Cow Camp road on the east and
the other again forming the eastern Boundary of the irrigated
portion of the Valley. This portion of the ditch intercepts
McGowan Creek in 11N 12E Sec 2 SW SW SE The main ditch
does not actually join with the McGowan Creek ditch but appears
that it may have at one time. The P/U in this general area
running south & east is a series of drainage channels
and this area appears to be naturally swampy. Valley Creek
water flows across this property and into HES 109 all

* Decreed right 71-00043 Co HES 274 is also diverted from the same P/D
 but is physically removed from the common overlapping system of the
 other rights. It is claimed in part under A 71-00043 Forest Service.

DATE: 6-2-94PAGE: 2/3AGENT: KKC

FILES: _____

ATTACHMENT SUBJECT: _____

along the NE $\frac{1}{2}$ of the border. The McGowan Creek Ditch (and Valley Cr from Sec 4 somewhat) forms the eastern boundary for the HES 109 & into HES-133. This ditch system runs to HES 421 where it ends. For the HES's (portions of that lay east of the cow camp road (excluding HES-274) are in general irrigated concurrently in that as one HES is irrigated the tail water is either spread directly onto the next HES or is accumulated into a drain or ditch to be respread. Although this could be considered waste-water no one has claimed it as such. There are also swampy areas that may or may not be created by the Valley Cr, Hanna Cr, and/or McGowan Cr diversions. This interrelationship runs from HES 271 (the eastern $\frac{1}{2}$) thru HES 270, thru HES 109, thru HES 133, thru HES 421, and HES 319. All east of the Cow camp road. Water flows in general east & south from the cow camp road to the center of the irrigated meadows and south & east from the ditch system that forms the eastern boundary of the irrigated ground. This pattern is clearly visible on USDA F 173-13, 173-11 & others of the 8-28-72 flight similar USDA-F aerial photos 677-193 9-9-77 flight 4 ASCS Aerial flight ~~8-22-52~~ 8-22-52 # DRF-3-167. Other Photo U68 to a certain extent also shows this relationship.

Irrigation practices for the fields west of the cow camp road

FIELD EXAM ATTACHMENT

DATE: 6-2-94PAGE: 3/3AGENT: KKC

FILES: _____

ATTACHMENT SUBJECT: _____

and east of Valley Creek is also irrigated in a similar manner. From the SW $\frac{1}{2}$ of HES 271 thru HES 272, thru HES 420 and into HES 577

The channel running South from the Hanna diversion that enters the northern portion of the Mahoney/Keam property west of the cow camp road & part of the HES 274 is either spread across the meadow and/or allowed to stay in a ditch that roughly divides that pasture in half running straight southeast to HES 272 where it is again either spread across the northern portion of the HES or continues in the same ditch straight thru the middle of HES 272 to HES-420. A ditch follows the cow camp road (on the west side) thru HES-271, 272 420 and into 577. These HES's also share the water similar to the system east of the cow camp road.

Control of water diverted from section four ends roughly in the NW $\frac{1}{4}$ of sec. 13. HES 577 & HES 421 receive some water from the Sec 4 diversion but primarily receive water from other diversions and/or sources.

A small acreage west of Valley creek and within HES 272 is irrigated from Elk Creek. The western portion of HES 420 is also irrigated from Elk Creek but from a diff P.P. This P/O is shared with the deeded right that has been split for two parcels in HES 577. The irrigated ground west of Valley Cr in HES 422 is irrigated from back Cr. No other ground west of Valley Cr was found to be currently irrigated (this includes HES 273)

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL / ROTATION (chart)	ACTUAL / ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE
RPI	4.33	10	* 56.8	* .16	= 3.94 CFS
GO1	14.66	10	* 25.9	* .04	= 1.52 CFS
			*	*	= CFS
			*	*	= CFS

5.46 CFS

Acres per soil type estimated as
TOTAL ACRES DECEED RATE = 4.80
this HES was excluded from the CLAIMED DIVERSION RATE =
