Re: 02-7344

Dear Reg,

An analysis of your Snake River water rights has been completed. The enclosed claim form should be signed and notarized to claim the latest water right. The filing fee for this claim is \$10.

You will notice the figures on the claim are different from your permit. This is a result of the analysis of the earlier water rights. The acreage shown is the total number of irrigated acres you and John Noyes apparently agreed upon. When this latest water right is combined with the two earlier rights, the total amount of water is 418 miners inches.

If this arrangement is satisfactory to you, please return the enclosed claim. Otherwise please feel free to contact me.

SUBJECT:

The claimant has apparently developed the water rights from the Snake River for this land in stages. The predecessor for this land was Owyhee Grazing Association which received a portion of permit 02-2176. An examination was done for this right but proof of beneficial use was never submitted. Consequently the permit was cancelled. The exam did, however, verify that water was used on this land May 1, 1972.

The transfer of the permit 02-2176 carried with it a privilege to operate one of the three pumps in the Idaho Power Canal in Section 33, Twp. 5S, Rge. 4E in the amount of 5.0 cfs. This amount was to have been a 50% share in that pump. A field examination for 02-2176 showed that more than 10.0 was diverted. Therefore, 5.0 cfs is recommended for 02-4027.

The number of acres for 02-4027 was determined by using a field exam for 57-2327. The aerial photo used for that examination showed 323 acres were irrigated at the time of the aerial photo. As a result that number of acres is recommended for 02-4027.

Apparently through another contractual agreement the claimant is the successor to a privilege to have .5 cfs from the Snake River in the same canal. The time of this agreement would be such that the same 323 acres would have been irrigated.

Finally, the third right, 02-7344, brings the present allotment of water to the acreage now irrigated. The earlier rights totalled less than 1 ~~inch~~ per acre. As a result this third right includes water on 95 acres that was not heretofore irrigated and about .1486 inches per acre for the previous 323 acres. A work sheet in file 02-4027 illustrates the recently irrigated 95 acres. The amount of water for 02-7344 will therefore be 2.86 cfs.

The total diversions from the Snake River then for these rights would be 418 inches for 418 acres.

FROM: Don Shaff *DS*

SUBJECT: *REVIEW*

The land for Meaker is covered by three water rights from the Snake River. One of the diversions is from the Idaho Power Canal; the other two from the reservoir itself. Other water rights for this land are apparently from Shoofly Creek or tributaries to it.

The irrigated acres for 02-0071, and 02-4027, were determined with the 1974 orthophoto quad of Grand View. The additional irrigated land under 02-7344 was identified in the 1981 field exam utilizing a 1979 ASCS aerial photograph. The period of use for 02-4027 from the Idaho Power Canal is limited in period of use by the Idaho Power Agreement.

Although the diversion rate from the Idaho Power Canal was measured in 1981 and the earlier measurement in 1968 showed a larger diversion, the 1968 measurement is more acceptable because it was a measurement in the canal as opposed to a measurement at the discharge. The latter technique was used in ^{the} 1981 inspection. The 100 horsepower Westinghouse motor with Johnson vertical pump that is used by Meaker is the same pump and motor identified in the Department's April 29, 1969 letter of the 1968 examination. In 1968 this pump and motor had a discharge of 10.1 cfs. Under the existing agreement Meaker is to receive one-half of the discharge from this pump and motor. As such, the amount of 5.0 cfs claimed for 02-4027 is acceptable.

Meaker apparently has an additional agreement still operating for the right of .5 cfs. This amount of water is apparently pumped by another water user in exchange for a right of way through the land Meaker now owns. This amount is also acceptable.

To Meaker Files 02-0071, 02-4027, 02-7344

The additional duty from the Snake River for this land is picked up by 02-7344. Although the system used by Meaker has a diversion capacity of 4.34 cfs, the amount recommended and licensed for this right is 2.86 cfs. To date this would bring Meaker's water rights to 418 acres and 418 miners inches from the Snake River.

SUBJECT: Receipt Change on #W001790-Reg & Holly Meaker

This one is a mess, but I finally figured it out. Please change the program, acct., and class code on the attached receipt to Adjudication Claim Fees with Adj. program, acct. and class for the total fee paid of \$1235. Then, remove the claim #A02-04027 from the WR/NO column and put in claim #A57-07449 and a \$50 fee. These changes are a result of a final review of all of Mr. & Mrs. Meaker's claims as follows:

Originally Claim No. A57-07449 came in and the existing water right was an app. for permit at that time. My idea was to return the claim, and refund the \$50 fee paid. Then, Mr. & Mrs. Meaker requested a docket sheet subscription, however, no additional fee had been allotted for the subs. fee. So, I was going to take \$7.50 from the \$50 fee to be refunded for A57-07449, which left a refund of \$43.50, as documented on the original receipt. Then, I didn't get to it and it was lost in the masses. Now, after re-reviewing the claims for field exams I discovered that the app. for permit is now a permit, and called Lynn to see if we could go ahead and accept it. She said ok. Then, I looked in ML3 to see if they were ever data entered for the docket sheet subsc. and lo and behold they weren't. My fault again. They aren't interested in the docket sheet now, especially since it would be the back issues, so my new idea is to accept the claim for A57-07449 and take the \$7.50 for the never entered docket sheet and the \$43.50 overpayment and use them for the \$50 fee on A57-07449. Remarks in A57-07449 explain these events, and I have put an X777777 receipt no. in it to avoid an update error until this receipt can be changed.

The reason that A02-04027 is being removed is because no fee was charged for this claim since the claimant paid a \$125 fee years ago in the smal 02 adjudication, and at the time these claims were taken, we had been advised to go ahead and give credit for those fees when taking the SRBA claims. Therefore, since A02-04027 had a \$50 fee, this meant they had a \$75 credit. I decided (why I'm not sure now) to take this \$75 from another A02 claim - #A02-07344. A02-07344 is for \$418 acres, plus a \$50 fee, minus a \$10 fee paid in the small 02 adj, for a fee of \$458. With the \$75 fee removed, the fee came out to \$383 as shown on the receipt. This memo will be used in our files to document the crazy way I took care of it all. Hopefully, I've learned more since Owyhee Co. claims taking. A02-04027 is designated with an X999999 receipt no. for no fee due and remarks explaining all. Same remarks are in A02-07344.
