Ownership Change Fees

Dear Ted,

I told you last week I would let you know the ownership change fees that follow:

Partnership	\$225
Corporation	375
Trust	75
Ted	<u>50</u>
	<u>\$725</u>

The fees are lower for the Trust and your part because the fees for the splits (\$100 each) of the water rights were pushed to the Partnership and the Corporation. Four of the rights extended to three properties. Not all the rights on the list I supplied and you attached to the forms were for the four properties. You will likely see this reflected on the owner change when Permit 2-7388 is licensed.

I have some help with the processing, and you should see some paperwork from us in a couple of weeks.

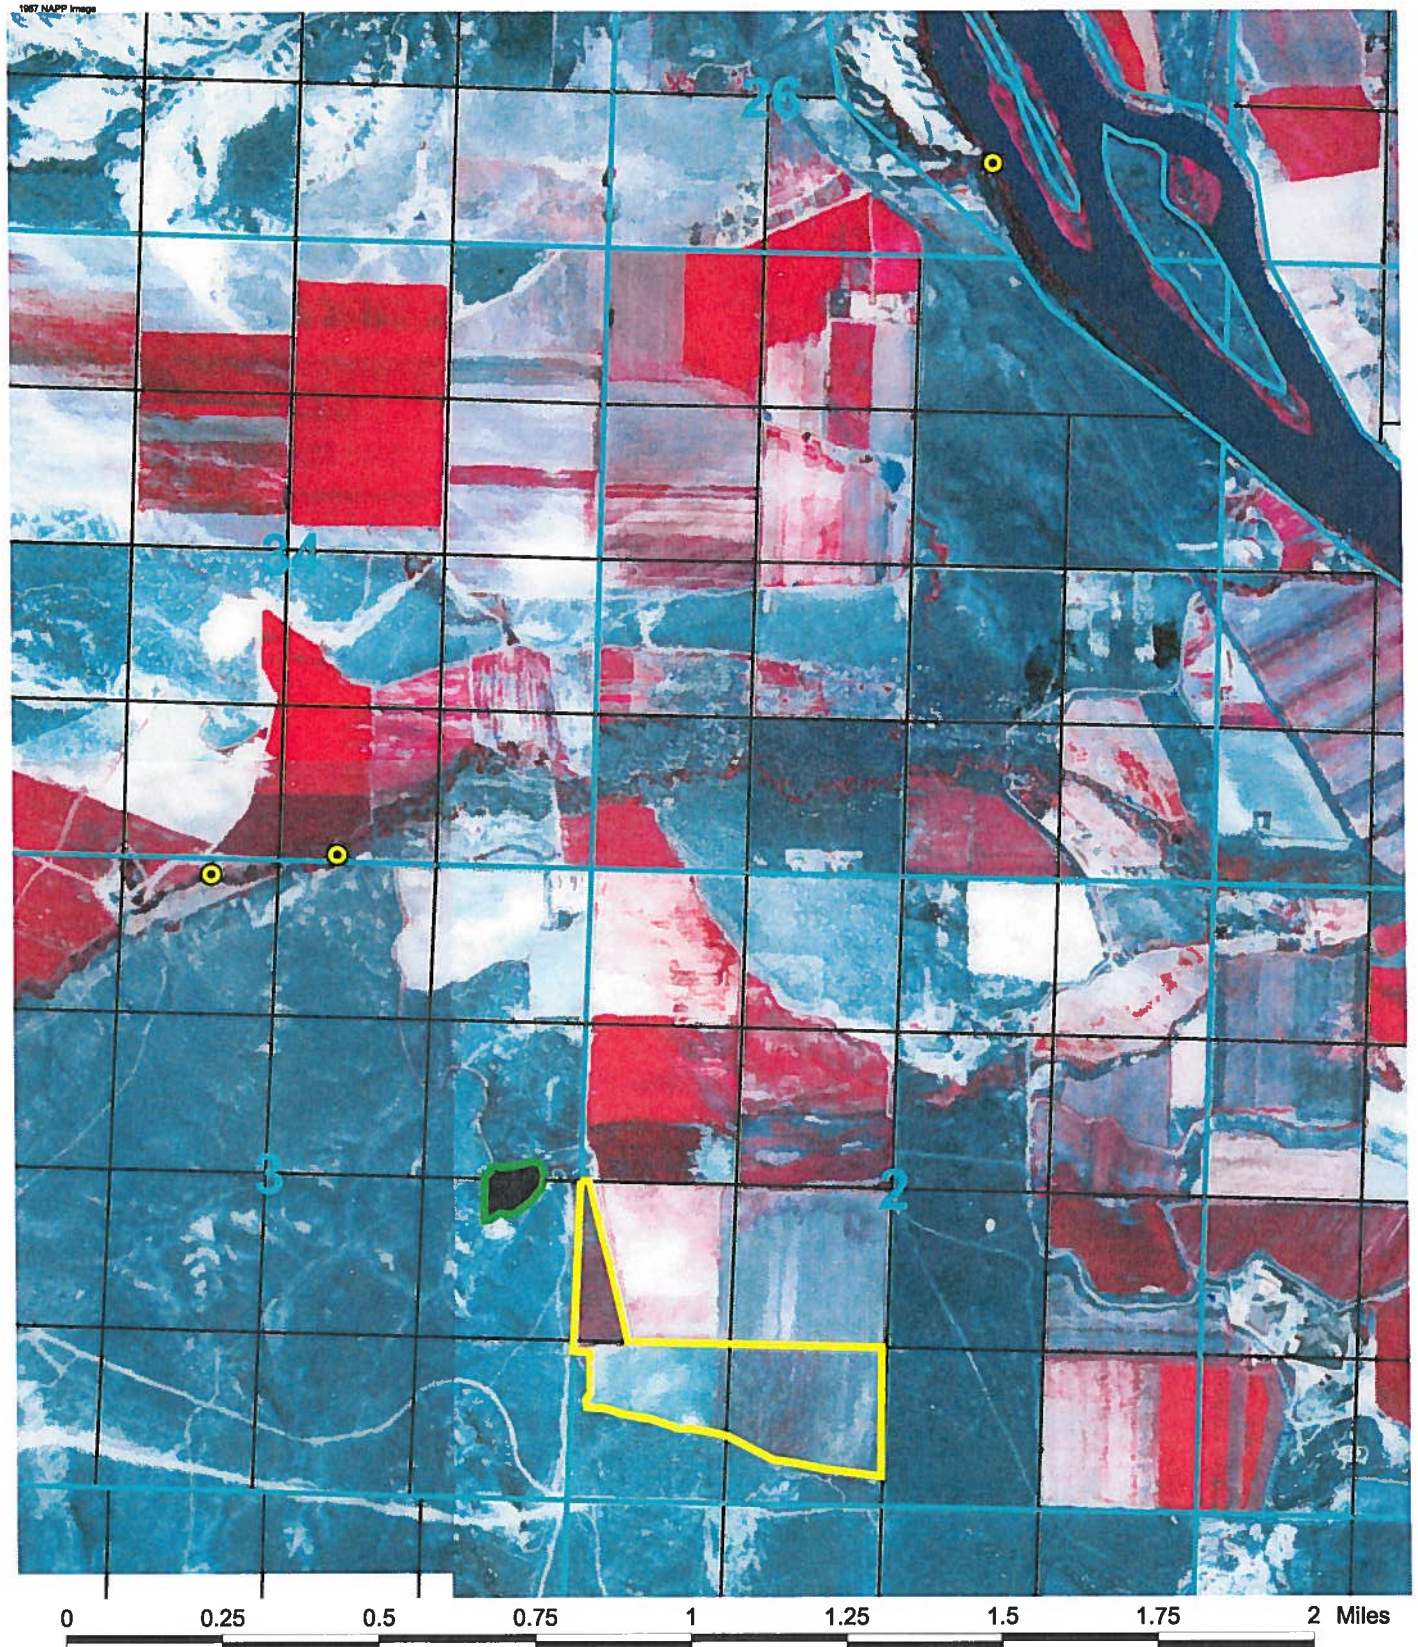

Please give me a call at 208/287-4921 if you have any questions.

Sincerely,

Donald V. Shaff, MPA

Re: use of water for irrigation and stock water from Squaw Creek, Basin 57=E
Rights 57-00282, 57-2205, 57-2207

The Blackstock family has owned and operated this property for 100 years this year -- first Adam Blackstock, then Adam H. Blackstock, then Ted K. Blackstock and at present Ted S. Blackstock. We have always started irrigating in the late winter -- at least by the first of February. This is due to the early spring and short season of stream flow of the Owyhee Front Streams. Irrigation flow rarely last past July 15th except on wet years. By filling the profile of our deep soils we are able to raise good crops. This would be impossible without the use of large quantities of water in late winter and early spring.

The 57-2205 right also has supplemental water from Snake River rights but the early water utilized from Squaw Creek reduces the pumping and electrical costs of later irrigation.

I personally certify that I have continued the irrigation season as stated.
