IDWR Regional Office,

① I purchased this water on the advice of the board of directors of the Mutual canal co. I was told by several of the water users, that when ~~the~~ C J Strike Dam was put in there was supposed to be water for all land under the canal, so in effect I bought my own water back. As it was transferred to some desert Entries Above the Canal by Mr. D. D. Bybee.

② I don't want to lose the right.

③ I made this transaction in good faith. I have used this water every season since Feb. 1977. I have irrigated 12 Acres with this 9 inches of water by using low pressure sprinkler tech. and have summered between 20 and 35 steers and heifers every year. So I feel the water has been used beneficially.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

No lawful appropriation shown.

EXPLANATORY MATERIAL: BASIS OF CLAIM -

No lawful appropriation shown: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is proposed to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is proposed to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.

To: 2-10039  
From: D. Shaff  
Date: 12/15/05  
Subject: Priority Date

The claimant did supply a deed dated in 1945 that described land sold with any water rights that may have been appurtenant to it. The land the Pullens own as well as the Shoofly Ranch larger and to the south and east of Pullens was described in the same deed. Pullens did acquire water and shares in the Mutual canal. The best date Field can establish is 1959. The Pullens, therefore, could have no better than a 1959 date of priority that Field could have conveyed.

Re: Michael and Donna Lee Pullen Water Rights Claim

Dear Don,

Transmitted with this letter is the Exchange Agreement and Quitclaim Deed entered into between William and Barbara Field, Herbert and Teresa Steltung, and my clients, Michael and Donna Pullen wherein the Fields conveyed to the Pullens and Steltungs 15 shares identified only as "water of the Grandview Mutual Irrigation Company[ ]". I would really appreciate your help in matching the water rights conveyed to the original right from which they were split. The description of the land that was exchanged for the water may help you at least identify the area in which the water might have originally been used and then transferred to the Pullens for their use.

In the meantime the Pullens are having copies made of the receipts for assessments that they have paid for the water since 1977, as well as some aerial photographs that demonstrate water was being put on the property at least as early as 1957. Please contact me if you need any additional information, and if you find any information that may help me draft an amended claim for the Pullens. Thanks again for your assistance.

Very truly yours,

**BARKER ROSHOLT & SIMPSON LLP**

Swap land for water

Tield gets land, Pullen gets 15 inches  
Pullen gave partner 6 of 15 inches

Explained to Pullen he needs to find out which water right he bought. We can check to see whether field claimed in full or less, if enough less then OK, if not is an issue. Pullen will talk w/ Howard Tield to see if can determine where water was appurtenant. Apparently Tield went to pivots after sale of water (when exactly uncertain)

---

side note - if Pullen land swapped to Tield is adjacent to land that should have been idled in transfer, then can identify which right is associated w/ 15 inch idling
