RE: Water Rights in Reporting Area 4, Basin 71
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in basin 71 (the Stanley basin). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 60 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouse in Challis and Hailey and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed during the first part of next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

A handwritten signature in black ink, appearing to read 'Karl J. Dreher', written over a horizontal line.

NOTICE OF DIRECTOR'S REPORT IDWR REPORTING AREA 4, BASIN 71 FOR IRRIGATION AND OTHER WATER RIGHTS

INTRODUCTION

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court the Director's Report for irrigation and other water rights in IDWR Reporting Area 4, Basin 71. A map of the area covered by this Director's Report is attached to this Notice. This Director's Report contains the Director's recommendation to the SRBA court as to how each of your claimed water rights should be decreed in the SRBA.

This Director's Report includes claims for irrigation and uses other than small domestic and stock uses. The Director's Report for small domestic and stockwater rights for all of IDWR Basin 71 was sent to the SRBA court and individual water users on April 30, 1997. Some small domestic and stockwater claims were withheld from the earlier report. If a claim for small domestic and stockwater was withheld from last year's report, it is reported in this Director's Report.

Included with this Notice is the Director's recommendation for your irrigation and other water rights claimed in the SRBA not previously recommended in the small domestic and stockwater report. IDWR is providing individual reports like this one to all claimants of irrigation and other water rights in your area. A complete copy of the Director's Report, listing all of these irrigation and other rights claimed under state law and "dual based" claims by the federal government, is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR REVIEWING YOUR OWN WATER RIGHT

The description of your right which is enclosed is only the Director's recommendation to the SRBA Court on your water right. The Court will decide how it will decree your water right. You are free to agree or disagree with the Director's recommendation. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THE WATER RIGHTS OF OTHERS

The complete Director's Report contains recommendations to the SRBA Court on your water right and all other irrigation and other rights in your area. The Court will decide how it will decree all water rights. The Director's recommendations in the full report are listed in two sections of the report:

- 1) **List of Recommended Water Rights** -- Water right recommendations are listed alphabetically by source and then chronologically by priority date within each source.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations. (See Note.)

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA.

The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50.

CHANGES OF ADDRESS OR OWNERSHIP DURING THE SRBA COURT CASE

You must contact your regional IDWR office with your address change or if the ownership of your water right changes. Failure to notify IDWR may result in the loss of your water rights.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office. Maps and aerial photography of this reporting area, as well as assistance in using the maps and the photography, are available at the IDWR Southern Region office in Twin Falls. You are also welcome to call IDWR at any of its offices or the SRBA Court. You may also want to consider contacting an attorney to assist you.

NOTICE OF DIRECTOR'S REPORT IDWR REPORTING AREA 4, BASIN 71 FOR IRRIGATION AND OTHER WATER RIGHTS

INTRODUCTION

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court the Director's Report for irrigation and other water rights in IDWR Reporting Area 4, Basin 71. A map of the area covered by this Director's Report is attached to this Notice. This Director's Report contains the Director's recommendation to the SRBA court as to how each of your claimed water rights should be decreed in the SRBA.

This Director's Report includes claims for irrigation and uses other than small domestic and stock uses. The Director's Report for small domestic and stockwater rights for all of IDWR Basin 71 was sent to the SRBA court and individual water users on April 30, 1997. Some small domestic and stockwater claims were withheld from the earlier report. If a claim for small domestic and stockwater was withheld from last year's report, it is reported in this Director's Report.

Included with this Notice is the Director's recommendation for your irrigation and other water rights claimed in the SRBA not previously recommended in the small domestic and stockwater report. IDWR is providing individual reports like this one to all claimants of irrigation and other water rights in your area. A complete copy of the Director's Report, listing all of these irrigation and other rights claimed under state law and "dual based" claims by the federal government, is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR REVIEWING YOUR OWN WATER RIGHT

The description of your right which is enclosed is only the Director's recommendation to the SRBA Court on your water right. The Court will decide how it will decree your water right. You are free to agree or disagree with the Director's recommendation. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THE WATER RIGHTS OF OTHERS

The complete Director's Report contains recommendations to the SRBA Court on your water right and all other irrigation and other rights in your area. The Court will decide how it will decree all water rights. The Director's recommendations in the full report are listed in two sections of the report:

- 1) **List of Recommended Water Rights** -- Water right recommendations are listed alphabetically by source and then chronologically by priority date within each source.

2) **List of Claims Recommended to Be Disallowed --** Water rights recommended to be disallowed are listed numerically by water right number. A short statement of the reason for IDWR's recommendation for disallowance is provided.

Also included in the complete Director's Report are descriptions of the United States' claims under federal law that have also been claimed under a state law basis. These are called "dual based" claims. The Director does not investigate the federal portion of these claims and makes no recommendation whether they should be granted or not.

If you want to review someone else's water right you need to look at the complete Director's Report, which is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR TAKING A WATER RIGHT CLAIM TO COURT

What do I do if I disagree with a recommendation?

If you disagree with any element of the recommendation for your water right or anyone else's water right and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court.

Your objection must be **received** by the SRBA Court on or before **January 14, 1999**.

What do I do if someone else objects to my water right recommendation?

If someone files an objection to your water right, or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court.

Your response must be **received** by the SRBA Court on or before **May 17, 1999**.

What do I do if I want to participate in the court case on someone else's water right?

If you want to be involved in the court case on any water right in the Director's Report, you must file either an objection or a response by the dates listed above.

What happens if there are no objections to a water right?

After the deadline for filing objections, IDWR will file a list of all water right recommendations with no objections. The SRBA Court will hear the uncontested recommendations on **March 18, 1999, at 10:00 A.M.** at the **SRBA Courthouse**. Partial decrees will be issued following this hearing.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations. (See Note.)

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA.

The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50.

CHANGES OF ADDRESS OR OWNERSHIP DURING THE SRBA COURT CASE

You must contact your regional IDWR office with your address change or if the ownership of your water right changes. Failure to notify IDWR may result in the loss of your water rights.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office. Maps and aerial photography of this reporting area, as well as assistance in using the maps and the photography, are available at the IDWR Southern Region office in Twin Falls. You are also welcome to call IDWR at any of its offices or the SRBA Court. You may also want to consider contacting an attorney to assist you.

DEFINITIONS OF THE ELEMENTS OF YOUR WATER RIGHT

RIGHT NUMBER: Your water right is identified by a number assigned by IDWR. The first two digits identify IDWR's administrative basin number; for example, 55 or 56.

NAME AND ADDRESS: Your name and address should appear here. IDWR will use the most recent name and address in their records for the water right.

SOURCE: The name and/or type of the source where you divert your water. For example: "groundwater," "unnamed spring," "Common Creek."

QUANTITY: The amount of water recommended in either cubic feet per second (cfs) and/or the volume of water in acre feet per year (AFY).

PRIORITY DATE: The date used to determine the priority of your right in relation to other rights using water from the same source.

POINT OF DIVERSION: The legal location where you divert water from its source; generally described as 1/4 1/4 sections down to a 40-acre tract, or smaller. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

PURPOSE OF USE: The general category of the type of use you can make of your water. Typical purposes of use include irrigation, domestic, and stock watering.

PERIOD OF USE: The period of time during the year when you can use the water for your right.

PLACE OF USE: The legal location where you use your water right; generally described as 1/4 1/4 sections down to a 40-acre tract. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

BASIS OF CLAIM: The method that was used to establish your claim. Examples include prior decree, posted notice, beneficial use (historical) method, license, permit.

DUAL BASED CLAIMS: In some cases, the federal government has claimed one right under two theories: a state basis and a federal law basis. Both theories will be reported on one form for that single water right. In most cases, the priority dates are different and will be listed separately. The federal law basis is separately indicated in a box such as this:

```
*****
*                                     *
*                                     *
*****
```

IDWR does not investigate or make recommendations regarding federal law based claims.

Excess Flow Evaluation

3/22/94 by ADM

A71-10767 - Furey
A71-02004CA71-10764) Humphrey/Day
A71-02085B)A71-04037) Carstensen
A71-02063)

This evaluation is for the ditch diverting from the Salmon River within the SENESE Sec 8 T8N, R14E, serving the above identified claims as well as A71-02004A (Mudlev) & A71-02004B (Jensen). The latter two do not at this time claim more than the proportionate share of an old license which would require the excess analysis.

On 7/2/93 I met Jack Furey and we measured the ditch @ the fish screen and found 20.51 cfs being diverted.

Evaluation of the Carstensen place finds that 50 acres is solely under this ditch and by using the Hubble Wild flooding ~~procedure~~ **MICROFILMED** this 50 acres justifies $(1.73 + 0.63 + 0.27) \times 2.43$ for irrigation requirement. 2.43 cfs. The lands not solely served by this ditch but which

POOR ORIGINAL

could be served by this ditch were analysed under the ditch which diverts from the Salmon River within SWSENE Sec 5 T8N R14E. These extra 75 acres justify 3.84 IR (See 2/24/94 Evaluation). As a practical matter these acres can be served by this ditch diverted in sec 8 but I am keeping the evaluation of the lands separate then in my recommendation I intend to lump the lands together & list both points of diversion.

The Humphreys/Dry place was similarly analysed using the Hubble Wild Flooding procedure. On 7/27/93 I met Fred Humphreys & his irrigator Darrell Holloway and went over his claims. Darrell described the setting of the water and the rotation period. They indicated that the lower portion of the ranch was solely irrigated from the Salmon River and the upper portion from Fisher CK / 4th of July CK. We discussed the fact that the Salmon River claim was only for 1^{1/2} acre and that the observed diversion rate for the ditch would indicate that they were using more. We

MICROFILMED

661 271334

FOUR ORIGINAL

discussed them filing for more water. This filing finally came to fruition on 3/21/94 by filing of claim A71-10764. I have determined that 47.5 Acres receive water from the Salmon River. These are 200 of 2 common B61 type soil. The Hubble analysis justifies 3.22 cfs for the 47.5 Acres.

On 7/2/93 I met Jack Furey for review of his claims. He indicated that Marilyn Mueller irrigates his "Thousand Springs Ranch" and she could describe how she does it. On 7/23/93 I talked with Marilyn on the phone and she indicated that she turns the water 2 times per day and in 2 seasons irrigates about 7 times. She indicates that sometimes she gets back over the same spot within 14 days. She indicated on her own property she gets back on it within 6 days. She indicated that she uses the ditch from the Salmon River as well as her neighbor uses the same ditch ^{irrigated} of the water from Fisher CK. She indicated that this trade in source occurred about 18 years ago when Morgan Williams

allowed them to use the ditch.
Morgan William's is the predecessor to
Cristensen. This was done since it
was difficult to get the 4th of July
CK water down thru the long ditch
and the ditch from the Salmon River
was so handy.

Based on the information from Mrs
Meuller and from the field investigation
and Hubble analysis for the Furey "Thousand
Springs" place the land that can be irrigated
from the Salmon River consists of
three soil types and in total justify
5.46 cfs for irrigation of 48 acres.
These same acres except for 4 within
the SWNW sec 9 can also be watered from
waters from 4th of July Creek.

Conveyance losses were split between
the various users as documented on
the attached L123 worksheet.

FIELD
EXAMINER

REMARKS:

Water is now diverted from Salmon River instead of
Fourth of July Creek. POD is in T8N, R14E
Sec 8 SENESE is determined from field exam for
A71-02004C. There appears to be no injury since more downstream
as looking streams of no junior rights diverted between.
