To Who It May Concern:

I desire to respond to your March 12, 2012 letter concerning water Right 93-4035. I mistakenly filed a claim under the North Idaho Adjudication that has been assigned identification number 93-7280. The 93-7280 claim includes several, but not all of the Points of Diversion, listed in 93-4035.

I want to amend my existing claim to change the basis of Claim to 93-4035 with a priority date of December 31, 1910 and to include the points of diversion shown on Statutory Claim 93-4035 and on the attached map. I no longer use any of the springs for Irrigation and use them for Domestic and Stock water. ~~All use is now for Stock Water.~~

Signed,

Dale M. Floch
