RE: Recommendation of Water Right 47-4519

Dear Diana:

Water right 47-4519 was claimed in the Snake River Basin Adjudication (SRBA) by Pat, Anita and Scott Parrott. The right was recommended in the Director's Report for Irrigation and Other Uses, Reporting Area 12, IDWR Basin 47, filed with the SRBA Court on February 2, 2007. No objections were filed, however the Court notified IDWR in May of 2010 of a possible error in the recommendation. The right was reported with inconsistent quantities, listing 1.150 CFS under the Quantity element, but 0.150 CFS under the Purpose and Period of Use element. The right was originally claimed for 1.000 CFS. The recommendation of the right was not moved forward in the SRBA to allow IDWR time to investigate the discrepancy.

IDWR has now completed its review of the error, and submits a Corrected Director's Report (attached), consistently recommending the quantity at 0.150 CFS. It appears the mistake was the result of a clerical error. Also attached for the Court's convenience are copies of the original claim and 2007 recommendation.

Any questions regarding the quantity correction itself should be directed to Carter Fritschle, Manager Adjudication Section, at 208-287-4917. Should the Court require anything further from IDWR to allow the Corrected Director's Report to move forward, please let me know. I can be reached at 208-287-4816.

Sincerely,

A handwritten signature in cursive script, appearing to read "Vicki Kelly".
