RE: CLAIMS SUBMITTED DURING REPORTING AREA 6

During the claims filing for Reporting Area 6 the BLM submitted claims for the above claim numbers, however, they submitted them under the old claim numbers before the number change was made.

When I told Walt Kerpa at BLM that ~~there~~ we would not be recommending these in Reporting Area 6 because they are Snake River sources and will be recommended in the Basin 02 report he responded by sending DROP claims on these numbers. The BLM DROP claims were actually claims they wished to withdraw.

After talking with Walt it became apparent that the BLM did not want to withdraw these claims, only to acknowledge that they would not be reported in the Reporting Area 6 claim recommendations. Therefore, I am placing the DROP claim in each file with a copy of this memo to explain why these are not claims BLM wished to withdraw.

Gentlemen:

It is with pleasure that I send you copies of the completed cooperative agreement covering the management and use of public lands recently withdrawn for use in conjunction with the C. J. Strike Wildlife Management Area. Other data important to the withdrawal are also attached: (1) copies of the Public Land Order 4153 establishing the withdrawal and (2) copies of two memorandums relating to stipulations and conditions of the withdrawal. We have attached these items to the copies of the cooperative agreement because they are of significance to it and to the withdrawal.

When Public Land Order 4153 was published on February 15, 1967, in the Federal Register, there was a mistake in the land description. This is noted on the copy of the Public Land Order. A request for land description correction has been made, but correction has not been accomplished as of this date. You will be notified when the correction has been made.

I hope that the development and management of these lands having been made possible by the withdrawal will provide many public benefits over the coming years. We will be pleased to provide whatever cooperation and assistance we can to help you achieve this objective.

Sincerely yours,

Joe T. Fallini

Subj: BASIN 02 CLAIMS & 1 MORE CLAIM QUESTION

Here are the ones that are Snake River Basin 02 claims and will not be reported in this Reporting Area #6:

Old number	New number
A51-12222 (5101780335)	- A02-10076
A51-12233 (5101780345)	- A02-10083
A51-12234 (5101780346)	- A02-10084
A51-12242 (5101780354)	- A02-10087
A51-12243 (5101780355)	- A02-10088
A51-12244 (5101780356)	- A02-10089 - this one was not listed on your fax message, however, a claim with the number 02-10089 was sent with the wildlife ones?
A51-12246 (5101780358)	- A02-10091

So that's those.

A55-11730 (5501581496) - this one was returned by Roxanne with the question asked - Should claim include SWSE? You returned the claim on 7-9-97 with a fax that said Yes it should include that location. However, the claim doesn't have that 1/41/4 on it. Could you fax over another amended claim with that 1/41/4?

Just one reminder concerning the two wildlife ones that need the acre foot reduced to de minimus. Those two are:

A51-12237 (5101780349)
A51-12238 (5101780350)

The ones for 1986 that will likely be disallowed because the statute for instream stockwater exemption from the mandatory permit statute does not pertain to instream wildlife are:

A51-12698 (5101780804)
A51-12701 (5101780807)
A51-12702 (5101780808)
A51-12705 (5101780811)

Just thought you might want to know those.

One last question concerns the ones you added stockwater to. I took that to mean that they were not set aside for wildlife, so they will be recommended for stockwater only? If this isn't correct please let me know. Thanks again for all your hard work! Jan

Subject: CLAIMS

COMMENTS: Jan, good morning. Well, today is the day, and here are the claims. I'm going to start with the wildlife claims first. They will be broken into two sections. First there are the claims along CJ Strike Wildlife Management Area that were assigned from a Public Land Order. They involve a joint partnership with the State Fish and Game. They range in date from 1967 to 1986. Second are wildlife claims that are based on specific Sikes Act tracts of land that were withdrawn from stock for the protection of wildlife. These are also joint ventures with the BLM, Fish and Game, and in some cases private individuals. We will have to send you the specific Sikes Act information dealing with each section of land. These are currently being compiled through our records division and will be available shortly. So, the wildlife claims everyone has been waiting for are:

Then there are two claims that looked like wildlife only but should have stockwater added to them because cattle have access to them. They are:

A51-12222(5101780335) Stock added - SNAKE RIVER - NEW # 02-10076
 A51-11943(5101780092) " " - KAY HAS - WILL RECOMMEND STOCKWATER ONLY.

The other two weird claims I have out there will come later, along with the three copies of the PWR's that you need, I promise. I hope this settles these somewhat. If they don't make sense let me know. I put later dates on those Sikes Act Tracts because some of them were there due to runoff. Let me know if that is correct or not.

RE: CLAIMS SUBMITTED DURING REPORTING AREA 6

During the claims filing for Reporting Area 6 the BLM submitted claims for the above claim numbers, however, they submitted them under the old claim numbers before the number change was made.

When I told Walt Kerpa at BLM that ~~there~~ we would not be recommending these in Reporting Area 6 because they are Snake River sources and will be recommended in the Basin 02 report he responded by sending DROP claims on these numbers. The BLM DROP claims were actually claims they wished to withdraw.

After talking with Walt it became apparent that the BLM did not want to withdraw these claims, only to acknowledge that they would not be reported in the Reporting Area 6 claim recommendations. Therefore, I am placing the DROP claim in each file with a copy of this memo to explain why these are not claims BLM wished to withdraw.

Gentlemen:

It is with pleasure that I send you copies of the completed cooperative agreement covering the management and use of public lands recently withdrawn for use in conjunction with the C. J. Strike Wildlife Management Area. Other data important to the withdrawal are also attached: (1) copies of the Public Land Order 4153 establishing the withdrawal and (2) copies of two memorandums relating to stipulations and conditions of the withdrawal. We have attached these items to the copies of the cooperative agreement because they are of significance to it and to the withdrawal.

When Public Land Order 4153 was published on February 15, 1967, in the Federal Register, there was a mistake in the land description. This is noted on the copy of the Public Land Order. A request for land description correction has been made, but correction has not been accomplished as of this date. You will be notified when the correction has been made.

I hope that the development and management of these lands having been made possible by the withdrawal will provide many public benefits over the coming years. We will be pleased to provide whatever cooperation and assistance we can to help you achieve this objective.

Sincerely yours,

Subj: BASIN 02 CLAIMS & 1 MORE CLAIM QUESTION

Here are the ones that are Snake River Basin 02 claims and will not be reported in this Reporting Area #6:

Old number	New number
A51-12222 (5101780335)	- A02-10076
A51-12233 (5101780345)	- A02-10083
A51-12234 (5101780346)	- A02-10084
A51-12242 (5101780354)	- A02-10087
A51-12243 (5101780355)	- A02-10088
A51-12244 (5101780356)	- A02-10089 - this one was not listed on your fax message, however, a claim with the number 02-10089 was sent with the wildlife ones?
A51-12246 (5101780358)	- A02-10091

So that's those.

A55-11730 (5501581496) - this one was returned by Roxanne with the question asked - Should claim include SWSE? You returned the claim on 7-9-97 with a fax that said Yes it should include that location. However, the claim doesn't have that 1/41/4 on it. Could you fax over another amended claim with that 1/41/4?

Just one reminder concerning the two wildlife ones that need the acre foot reduced to de minimus. Those two are:

A51-12237 (5101780349)
A51-12238 (5101780350)

The ones for 1986 that will likely be disallowed because the statute for instream stockwater exemption from the mandatory permit statute does not pertain to instream wildlife are:

A51-12698 (5101780804)
A51-12701 (5101780807)
A51-12702 (5101780808)
A51-12705 (5101780811)

Just thought you might want to know those.

One last question concerns the ones you added stockwater to. I took that to mean that they were not set aside for wildlife, so they will be recommended for stockwater only? If this isn't correct please let me know. Thanks again for all your hard work! Jan

Subject: CLAIMS

COMMENTS: Jan, good morning. Well, today is the day, and here are the claims. I'm going to start with the wildlife claims first. They will be broken into two sections. First there are the claims along CJ Strike Wildlife Management Area that were assigned from a Public Land Order. They involve a joint partnership with the State Fish and Game. They range in date from 1967 to 1986. Second are wildlife claims that are based on specific Sikes Act tracts of land that were withdrawn from stock for the protection of wildlife. These are also joint ventures with the BLM, Fish and Game, and in some cases private individuals. We will have to send you the specific Sikes Act information dealing with each section of land. These are currently being compiled through our records division and will be available shortly. So, the wildlife claims everyone has been waiting for are:

CJ Strike Wildlife Management Area Claims:

A51-12233(5101780345)	had a date of 1967, based on PLO #4153 - SNAKE RIVER	NEW # 02-1008
A51-12234(5101780346)	"	" - SNAKE RIVER - NEW # 02-1008
A51-12235(5101780347)	"	" - WAS ~~DISALLOWED~~ POND - WILL RECOMMEND
A51-12236(5101780348)	"	" - WAS DISALLOWED - POND - WILL RECOMMEND TO RON
A51-12237(5101780349)	"	" " " " " " " " " " " "
A51-12238(5101780350)	"	" - TO RON } WILL BE RECOMMENDED
A51-12239(5101780351)	"	" - TO RON } HAVE BEEN (AMENDED)
A51-12242(5101780354)	"	" - SNAKE RIVER - NEW # A02-1008
A51-12243(5101780355)	"	" - SNAKE RIVER - NEW # A02-1008
A51-12246(5101780358)	"	" SNAKE RIVER - 02-10091

The second type of wildlife claims are based off of Sikes Act Tracts dealing with irrigated lands. The specific case abstracts are currently being researched.

A51-12698(5101780804)	Sikes Act Tract - 1986 - OISALLOW
A51-12701(5101780807)	Sikes Act Tract I-25583 - 1986 - OISALLOW
A51-12702(5101780808)	Sikes Act Tract I-25583 - " "
A51-12703(5101780809)	Sikes Act Tract I-25583 - ROXANNE WITH DC
A51-12704(5101780810)	Sikes Act Tract I-25583 - ROXANNE WITH DC
A51-12705(5101780811)	Sikes Act Tract I-25583 - 1986 - OISALLOW
A51-12707(5101780813)	Sikes Act Tract I-25583 - ROXANNE WITH DC

Then there are two claims that looked like wildlife only but should have stockwater added to them because cattle have access to them. They are:

A51-12222(5101780335)	Stock added - SNAKE RIVER - NEW # 02-10076
A51-11943(5101780092)	" " - KAY HAS - WILL RECOMMEND STOCKWATER ONLY.

The other two weird claims I have out there will come later, along with the three copies of the PWR's that you need, I promise. I hope this settles these somewhat. If they don't make sense let me know. I put later dates on those Sikes Act Tracts because some of them were there due to runoff. Let me know if that is correct or not.

Thanks, Walt
