

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A71-02102A
Date Received: 12/04/1989
Receipt No: S010578
Received By:

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: JONATHAN H. MARVEL 208-788-2988
Address: BOX 1602
HAILEY, ID 83333

2. Date of Priority: APR 19, 1965

3. Source: JOB CREEK Trib. to: VALLEY CREEK
LITTLE JOB CREEK VALLEY CREEK

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
11N	12E	36	NW	NE			CUSTER
			SW	NE			CUSTER

5. Description of diverting works:
WOOD DIV ON JOB CR, DITCH, RESERVOIR ON LITTLE JOB CR, DITCH

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	05/15	09/15	0.240		

7. Total Quantity Appropriated is:
0.240 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 36.0 Acre Feet Per Annum.

9. Non-irrigation uses:

10. Place of Use:

Township	Range	Section	1/4 of	1/4	Lot	Use	Acres
11N	12E	36	SW	NE		IRR	12.0

RE: SNAKE RIVER BASIN ADJUDICATION BENEFICIAL USE CLAIM

Dear Mr Marvel

Enclosed is the claim form and instructions for filing on the pond that we discussed during our phone conversation. Assuming that you are claiming off stream storage, there will be a \$50.00 filing fee and a \$100.00 per cfs variable fee due for each use claimed. For example if you claimed 0.10 cfs for aesthetic and 0.10 cfs for recreation the fee due would be $\$50.00 + \$10.00 + \$10.00 = \70.00 . For claims filed after the first round notice without demonstrating 'good faith' in filing for all valid water uses a late fee of \$50.00 is also due. I will accept your claim without a late fee as you had filed on your portion of the licensed right, subject to your filing an Extension of Time to File Adjudication Claims which is basically a request to waive the late fee. The final decision as to the applicability of late fees lays with the administration in Boise and they may request the late fee at a later date.

ITEM 4 PAGE 1, ITEM 10 PAGE 2, AND PAGE 3 CONSIDERATIONS

I have enclosed two copies of a portion of the orthophotograph Basin Butte; one is for your use and the other is to return with your claim in place of the page 3 sketch. Item 4, the legal description for the P/D, needs to be identified down to the ten acre tract as listed on the identifying label. Item 10, the legal description for the place of use, needs to be flagged "J" for aesthetic use and/or "R" for recreational use in the appropriate tract.

ITEM 6 PAGE 2 CONSIDERATIONS

In general, you can claim a pond two ways, either as instream storage or as diversion to storage and storage. Instream storage is to be claimed only as (recreation used as an example not a requirement) 'recreational storage' of an acre foot volume whereas diversion to storage requires identifying

MICROFILMED
OCT 28 1994

MARVEL
PAGE 2
10-Feb-1994

the rate of 'diversion to recreational storage' and the 'recreational storage' of the acre foot volume. I do not know the circumstances of the stream channel prior to construction but, based upon current mapping and the physical layout, diversion to storage along with storage appears to describe your use. If you feel that it is instream storage only then claim it in that manner and provide a short narrative describing the circumstances. If you claim 'diversion to recreational storage' the diversion rate that the department recognizes as valid is the amount required to replenish the water lost through evaporation and seepage. The 'recreational storage' element is the volume of your pond.

The other items on the claim form should be self-explanatory but if you have any further questions please contact this office and I here can discuss them with you.

Sincerely

Kelly K. Christensen
Sr. Water Resource Agent

REMARKS:

(V-18)
Based upon old photo the original PO on Job Creek is actually just into the NW 1/4 rather than the NW 1/4. No physical change was made, rather a mapping. legal doc change is noted. Flag with 6833. The diverting will have been made for the diversion from Little Job Creek in that the water will flow through an existing pond. Then to the NW 1/4, the Diversion from the pond is at the pond surface level. There is no street water is available for irrigation. Ground South of the pond has not been irrigated for some time (on the photo V-18 1971 light pond) and is not recommended as a portion of the NW 1/4. Non use is greater than 5 years but exact length of time not known. USDA-F aerial photo (1977

REMARKS:

Recommended P/a is down hill from the main ditch from Job Creek to highway 21 starting at the point that the ditch crosses the property boundary on the NW 1/4 of the P/a. Ditch Job Creek enters the same ditch just south of the access road leading from highway 21 to the south east corner of the pond. Both sections can traverse the gravel sand of that road but Ditch Job Creek water cannot reach the gravel above (wall) of that road.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL / ROTATION (chart)	ACTUAL / ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE

CLAIM # A71-02102A
DATE PHOTOS TAKEN; 9-21-93
PICTURE SET # 1

POOR ORIGINAL

This picture set was taken west of the P/U and shows the northern portion of the P/U. On the extreme right a pond was found that discharges into the main supply ditch at a point just south of the entry road. The van is parked on that road. The main ditch runs from left to right along the base of the hillside in the foreground.

CLAIM # A71-02102A
DATE PHOTOS TAKEN; 9-21-93
PICTURE # 2

POOR ORIGINAL

This photo shows the P/D on Job Creek. This photo is looking east toward Highway 21.

PICTURE # 3

This picture shows the channel just north of the pond and a culvert going east from that channel. The pine trees on the left are along the southern boundary of the pond. This appears to be the historic P/D for Little Job Creek.

MICROFILMED
OCT 28 1994

POOR ORIGINAL

CLAIM # A71-02102A
DATE PHOTOS TAKEN; 9-21-93
PICTURE # 4

This photo is a repeat of picture # 2 just taken slightly further west. Gene Gibson is standing on culvert. This photo is looking east southeast.

PICTURE # 5

This photo shows the east end of the same culvert. I pulled grass and some dirt out of the culvert discharge in order for the discharge end to show up in the photo. The end was essentially completely sealed off had been that way for some time. No visible ditch exists below the culvert for a hundred feet or so.

CULVERT DISCHARGE

MICROFILMED
OCT 28 1994

POOR ORIGINAL

CLAIM # A71-02102A
DATE PHOTOS TAKEN; 9-21-93
PICTURE # 6

This photo shows the vegetation that is growing where the ditch used to run. The ditch was filled in from the culvert, past the fence to the far new pine tree. There was no indication of a ditch except increased grass height along the logical path from the ditch remnant at the little tree to the culvert.

PICTURE SET # 7

This picture set was taken from the culvert discharge and is looking east. Again no ditch is visible. The pond bank is just out of the picture to the left.
