RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

RE: Evidence of Priority ***** SECOND REQUEST *****
SRBA Claims A71-04027 and A71-04028

Dear Claimant:

Our records indicate that your claim(s) referenced above is based on either a "Statutory Claim" or "Beneficial Use" of the water. Before the Department can make a recommendation to the Court for claims of this type we are required to substantiate with supporting evidence the "Priority Date" which has been claimed. We have previously requested that you submit this supporting evidence in our letter dated March 2, 1992. To date we have not received the requested documentation.

Again we are enclosing a brochure outlining the types of evidence you may submit and a computer printout of your claim for reference. We request that you submit your evidence before April 1, 1993.

SPECIAL NOTE:

- *It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a notarized affidavit.
- *Please reference the above claim number(s) on your response.
- *If we do not receive the requested documentation your claim(s) will be recommended to the Court for disallowal due to lack of evidence supporting the priority date.

If you have questions or need other assistance please contact this office.

Sincerely,

Allen D. Merritt, P.E.
Water Rights Supervisor

RECEIVED

MAY 10 1993

Department of Water Resources
Southern Region Office

Dear Mr. Merritt:

This letter is in response to your request for supporting evidence regarding the priority date for SRBA Claims A71-04027 and A71-04028.

The Idaho Rocky Mountain Ranch was originally called the Idaho Rocky Mountain Club. The Ranch was purchased by Winston Paul, a Frigidair distributor from New York, in the early 1930s from David Williams, the original Homesteader. The IRMC was a "wilderness" retreat back when the dirt road over Galena Summit from Ketchum was a long haul. With the cheap labor in the early 30s and the native timber surrounding the property, the lodge cabins and the swimming pool were all constructed within a few short years. This property is truly a landmark in the Sawtooth Valley. It had the first hydroelectric generator in Sawtooth Valley.

I've enclosed some materials which will help verify that this property developed the hot water spring (A71-04028) in 1930 and the well for the commercial lodge/cabins operation since 1951 (A71-04027). Our brochure has a bit of history in it and tells about the operation, the copies of some older materials in our files show that the hot water pool was a very important part of the Idaho Rocky Mountain Club operation and a copy of the face of a Special Use Permit from the Forest Service shows that the permit for the spring was first issued in May, 22, 1951, plus a statement from Mattie Hansen, a long time resident of Sawtooth Valley, verifying that she personally knows that the hot water spring has been in existence and in operation for the pool since the 1930s.

In 1951, Edmund Bogert bought the property and it was at that time that the well was drilled. Ms. Hansen states that the well was developed in the 1930s. Actually, the literature we have found on the property indicates that the original water source was surface springs or from Club Canyon or Gold Creek. Our records show that the well was not drilled until 1951 by Rozalys Bogert Smith's dad, Edmund Bogert. The Forest Service permit for the spring was not issued until 1951 when the property exchanged ownership. It was not unusual for the Forest Service to have many such projects developed on National Forest lands in the early days without permits because the National Forest boundaries were not well established.

I hope this information will suffice to verify that these two water sources did in fact exist and were in beneficial use as claimed in our water adjudication filings. Please let us know if you need additional information. Unfortunately records are not extensive on the specific water sources.

Sincerely,

PAT L. AGUILAR
Secretary, Idaho Rocky Mountain Ranch, Inc.

MICROFILMED

RECEIVED

MAY 10 1993

Department of Water Resources
Southern Region Office

I Mattie Hansen, hereby attest that the Idaho Rocky Mountain Ranch hot water swimming pool has been in existence since about 1930 and has been in continued operation with the natural hot spring across the Salmon River from the pool as its source since about 1930. The Ranch was formerly known as the Idaho Rocky Mountain Club.

Furthermore, I hereby attest that the Idaho Rocky Mountain Ranch lodge and surrounding cabins were built at the same time, during the early 1930's, and to my knowledge has always utilized water from the ground water well drilled during the time of construction. This well has also been in continuous use since the time of construction, providing the only source of water for the Lodge and surrounding cabins.

I have lived in Sawtooth Valley since Summer of 1930 and have been familiar with the Idaho Rocky Mountain Ranch property since about 1930.

POOR ORIGINAL

SPECIAL USE PERMIT

Sawtooth National Forest.

Permission is hereby granted to Idaho Rocky Mountain Ranch - E.A. Bogart & J.L. McMaha
of Box 1551, Pocatello, Idaho

hereinafter called the permittee, to use, subject to the conditions set out below, the following-described lands or improvements:

Right-of-way for pipe line in the SW 1/4, Sec. 18, T. 9 N., R. 14 E.,
S.H.

(Through transfer from Josef Lanz)

This permit covers 0.1 acres and/or approx. 100 ft. water for the purpose of:

carrying hot water from natural spring to improvements of permittee
on adjacent private lands and maintaining a concrete intake box.

The exercise of any of the privileges granted in this permit constitutes acceptance of all the conditions of this permit.

1. In consideration for this use, the permittee shall deposit with the Regional Fiscal Agent, Forest Service, Ogden, Utah, a check, draft, or money order made payable to the Treasurer of the United States in the sum of Five and no/100 dollars (\$5.00) for the period from January 1, 1951, to December 31, 1951, and thereafter annually on or before May 1, Five and no/100

dollars (\$5.00). The charges for this use may be readjusted from time to time to place this permit on a basis consistent with the charge to other permittees for the privileges.

POOR ORIGINAL

2. Construction or occupancy under this permit shall begin _____ months, and construction, if any, shall be completed within _____ months, from the date of the permit. This use shall be actually exercised at least 15 days each year, unless otherwise authorized in writing.

3. Development plans; lay-out plans; construction, reconstruction, or alteration of improvements; or revision of lay-out or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Merchantable timber cut must be paid for by the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

4. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

5. This permit is subject to all valid claims.

6. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.

7. The permittee shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.

8. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the national forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.

9. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.

10. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.

11. Upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and restoration of the site.

12. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner above provided is qualified as a permittee, and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises may be authorized by permit to him if, in the opinion of the forest supervisor, issuance of a permit is desirable and in the public interest.

13. In case of change of address, the permittee shall immediately notify the forest supervisor.

14. The temporary use and occupancy of the premises and improvements herein described may not be sublet by the permittee to third parties without the prior written approval of the forest supervisor and the permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

15. This permit may be terminated upon breach of any of the conditions herein or at the discretion of the regional forester or the Chief, Forest Service.

16. In the event of any conflict between any of the preceding printed clauses or any provision thereof and any of the following clauses or any provision thereof, the preceding printed clauses will control.

17. This permit is subject to the conditions set forth above and to conditions 13

to 19 attached hereto and made a part of this permit.

Northwest of Shoshone, lies a far extended country so bewildering in sublime mountain beauty, so immense in its startling grandeur that to sense it one must live and breathe it, the Sawtooth Mountain region. Its glorious maze of marvelous scenery baffles description. In this vast region are over two hundred mountain peaks, many unnamed and unscaled. It is a land of adventure; of unequaled grandeur that towers to heaven; of mighty canyons with bottoms that seem lost in the earth! It embraces over three hundred forest and mountain-bound lakes.

H EALTHY normal boys have an instinctive urge to camp out. To learn to take care of one's self in the open satisfies an elemental desire. In our complicated civilization the simple life of the West has great attraction for the growing youth.

Man and boy alike — we long to pioneer as our forefathers did, to ride through primitive forests, to watch game in its natural habitat, to cook hearty meals over a blazing campfire.

Wouldn't you like to camp out this summer — exploring on horseback the gorgeous American Rockies of Idaho?

Robert C. North of the Milford Preparatory School Faculty is now arranging a summer vacation on horseback for a small selective group of boys aged 12 to 16 for the months of July and August.

Living next to nature in surroundings of exceptional beauty such as are found

MICROFILMED
OCT 28 1994

in the Sawtooth and White Cloud Ranges of the American Rockies, the snow-capped mountains, numerous beautiful lakes, set like jewels in the mountainside, and the mountain streams tumbling through the wooded foreground — furnish a background of beauty for a vacation of unforgettable attractiveness.

The country to be traveled is what is known as a Primitive Area under the control of the National Forest Service for the preservation of the area in its natural state, so there are unique opportunities for photographing wild life. It is a veritable paradise for nature lovers and amateur photographers.

The Idaho Rocky Mountain Club, located on the Salmon River fifty miles north of Sun Valley, Idaho, beautifully situated in a broad valley between the two mountain ranges, will be headquarters for the party, and the Club will furnish the equipment together with competent guides. The boys at all times will be under the personal supervision of Robert C. North.

The month of July will be spent in the Sawtooth Mountains. After a few days at the Club headquarters to refit and repack, the group will then proceed to the White Cloud Range for the month of August. Each boy will have the exclusive use of a horse selected to suit his riding experience and will be taught to saddle, bridle, and take care of his own animal.

Parents wishing to be near their boys can spend a pleasant and healthful vacation at the Club. The equipment is thoroughly modern with guest cottages, each equipped with fireplace and private bath. The lakes and streams of the district afford opportunities for fishing, swimming, and the nearby mountains afford all types of mountain climbing — graduated from easy to more difficult ascents.

The Club has long distance telephone connection, and will serve as headquarters for mail and communications for members of the party.

Leaving New York the group will be conducted by Mr. North to Shoshone, Idaho, on the main line of the Union Pacific — from which they will motor to the Club. The first two or three days will be spent in the selection of horse, saddle, equipment, and in riding instruction.

The rate, which includes horse, food, bed, blankets, and service of attendants is \$450 for the summer. A rate for July or August separately, will be quoted on application. As the party is limited, a deposit of \$50 is required, and reservations are non-cancellable after June 1st. Address all communications to

THE GRANDEUR OF AMERICA

BETWEEN the snowcapped mountains of the Scwtooth and the rugged peaks of the White Cloud ranges, lies a broad, peaceful valley at the headwaters of the famous Salmon River, which for many years was so inaccessible that it was called "The Land Nobody Knows." In this setting of exceptional beauty on a hill overlooking the valley was erected the attractive guest ranch named the Idaho Rocky Mountain Ranch. This location was selected not only because of its exceptional beauty, but also for the beneficial clear dry climate, with days that are warm and sunny and nights that are crisp and cold.

The Ranch covering an area of 1000 acres, is adjacent to what is known as a Primitive Area, officially so designated, and under the control of the National Forest Service for the preservation of its natural state. Within a few miles mountain streams tumble through wooded forests, and scores of lakes and canyons afford an exceptional opportunity for fishing, riding, mountain climbing and hunting. It is a veritable paradise for nature lovers and amateur photographers.

The buildings were erected exclusively for guest purposes and are not converted ranch buildings. The large Ranch house contains a commodious lounge and dining room with private tables. Grouped around the Club house are nine cottages, containing two double bedrooms, each room with private bath, open fireplace, dressing room and electric lights. It has its own hydro-electric plant which supplies electricity for lighting, heating and refrigeration. Water is supplied from a spring-fed mountain stream.

The Ranch is known for the excellence of its cuisine. Fresh milk, cream and butter is supplied from our own dairy herd. Plenty of fresh fruit and vegetables, obtained from the famous nearby irrigated tracts of Idaho, are always on the menu, and only the choicest cuts of meat and milk-fed fowls are served.

Here are combined the comfort and conveniences of a modern hotel with the benefit and pleasure of a simple healthy out-of-door life.

A dozen nearby lakes and streams are stocked with many varieties of trout, and in the fall there is excellent hunting of deer, elk, mountain goat and mountain sheep.

A concrete swimming pool 20 ft. by 40 ft. with dressing rooms, showers and sun bathing facilities, is supplied by natural hot mineral water which guests find to be most beneficial. An adjacent lake is used by those who prefer cold water bathing. There are also Paddle Tennis and Badminton Courts.

Long Distance telephone connection is through Hailey, Idaho. Mail and telegraph address from July to September — Idaho Rocky Mountain Ranch, Stanley Idaho. At other times for information, rates, and reservations, address: Joseph Sepp Lanz — 668 Fifth Avenue, New York 19, N. Y. — Tel. Plaza 6-3800.

June 24, 1947

Mr. Vernon A. Oliver
The Idaho Rocky Mt. Ranch
Stanley, Idaho

Dear Mr. Oliver:

Thank you for your letter of June 20th. I was certainly pleased to hear from you as I am very much interested in having the right man on my ranch. Fred Iselin has recommended you very highly and I do hope you shall do your very best to make the ranch a success. I am in agreement with you that the ranch at present is not in satisfactory condition and I would like you to know that I look forward to it being in really wonderful shape. It is my aim to make the ranch as self-sufficient as possible. Unfortunately, the ranch has such a short season and the long winters always ruin the best efforts made during the short summer.

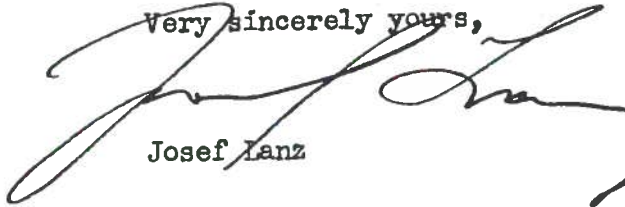

At the present time, I do not know when I will be able to come out to the ranch this year as I am planning to go to Europe. However, I hope to spend a whole summer out there next year and we shall have time enough to go over everything in detail.

In the meantime, take care of the necessities only and take it up with Fred Iselin. He is a friend of mine and, therefore, has my full trust to act in my behalf.

I am enclosing a check in the amount of \$75.00, which covers a period from June 15th to July 1st.

Hoping to hear from you again, I remain

Very sincerely yours,

Josef Lanz

The Idaho Rocky Mountain Ranch Stanley, Idaho

POOR ORIGINAL

In 1951 Edmund A. Bogert, an automobile dealer from Pocatello, Idaho, purchased Idaho Rocky Mountain Ranch from Josef Lanz, the Austrian manufacturer of womens clothing. The operation of the guest ranch had come to a standstill with the outbreak of World War II.

The 1000 acres that became the Idaho Rocky Mountain Club initially were part of the original homestead of Stanley Basin pioneer Dave Williams. This acreage was acquired by Winston Paul, a Frigidaire distributor from New York, who had the beautiful Lodge and Cabins constructed in 1930, and operated it as a private invitation only guest facility.

All of the logs were snaked off of the property up Williams Creek and Gold Creek north and east toward the Big Meadow. A construction crew of about 60 men, including a blacksmith and stonemason camped right here and started building in the fall of 1929. When the weather shut them down after three months they left and returned to complete the job in the spring of 1930. The job was completed in a total time of six months, and the first guests arrived June, 1930. What you see here now is exactly what was here that first day, from the buildings and furnishings to the trophies and pictures on the walls; even some of the original monogrammed china "I R M C" is still being used!

Because of his Frigidaire connections, Mr. Paul was able to engineer and have constructed his own hydro-electric power plant and generate power for lights and refrigeration. And, the "Dude Ranch", as it is still referred to by many old timers, was the only place in this Valley with such luxuries.

Ed Bogert's proprietorship introduced a new era. I R M C became I R M R and his interest was in cattle not "dudes". He began a program of leveling and fertilizing, which won him the 1958 Custer County Grassman of the Year Award. Also during this time he was building the Rokmor purebred Hereford herd which populated these pastures until Bogert's passing in 1975. Incidentally, the brand burned into the mantle in the dining room was changed by him from the original - D R (Bar Dude Ranch) to - L D R (Lazy L D R) the initials of his three children, Laurie, Dee and Rozalys.

The guest facilities were used by Ruth and Ed Bogert to entertain their friends and family. Many a congenial evening was spent on this front porch with it's spectacular view of the Sawtooths. The duplex style log cabins are unique in their coziness with separate dressing room, beautiful oakley stone shower, and individual fireplace -- with your own woodpile right outside your door.

The Salmon River flows through the Ranch property and there is our private fishing pond right in front of the Lodge, plus a natural hot water swimming pool at the lower ranch, available to our overnight guests.

In 1977, with the guidance of Marvin Webb our resident ranch manager, a program of refurbishing was undertaken so we could return to a guest ranch operation. This work included updating the 1930 electrical wiring, water lines, plumbing and improvements in the kitchen. With this accomplished the doors were opened to the public at this beautiful treasure from the 30's by your hosts The Smiths', who say WELCOME, glad to have you with us at I R M R.

The
IDAHO ROCKY MOUNTAIN CLUB

POOR ORIGINAL

The Idaho Rocky Mountain Club was established to provide, in one of the wildest and least-explored parts of America, the comfort and service of a residential club; to provide also, guides, horses, and pack-train equipment, and to organize and conduct parties for hunting, fishing and exploration. It is located in Salmon River Valley, 6,900 feet above sea level, between the Sawtooth and White Cloud Ranges, one hundred and eighteen miles northwestward from Shoshone, Idaho. . . .

Page Five

THIRTY MILES TO THE HORIZON

POOR ORIGINAL

"Northwest of Shoshone . . . lies a far extended country so bewildering in sublime mountain beauty, so immense in its startling grandeur that to sense it one must live and breathe it. It is the "Land Nobody Knows", the Sawtooth Mountain region. And it could well be called the land that no one understands, because its glorious maze of marvelous scenery surpasses understanding. In this vast region, much of which has never been penetrated by the white man, are over two hundred mountain peaks for the greater part unnamed and unscaled. It is a land of adventure; of unequalled grandeur that towers to heaven; of mighty canyons with bottoms that seem lost in the earth! It embraces over three hundred forest and mountain-bound lakes, many of which have never been explored."—Union Pacific Railroad News, Sept. 8, 1929.

POOR ORIGINAL

VERNON LAKE

The Idaho Rocky Mountain Club was located to include this "Land Nobody Knows" in its hunting, fishing and general recreational radius. Within a few miles of the Club are dozens of lakes, canyons and peaks, almost unknown, except to native guides and fur-trappers, offering extraordinary opportunities to those who love hunting, fishing, riding or mountain-climbing. Within a few days by pack-train lie even less known sections of the big game country. The Club Ranch is almost entirely surrounded

Page Seven

MICROFILMED

PART OF THE SAWTOOTH RANGE

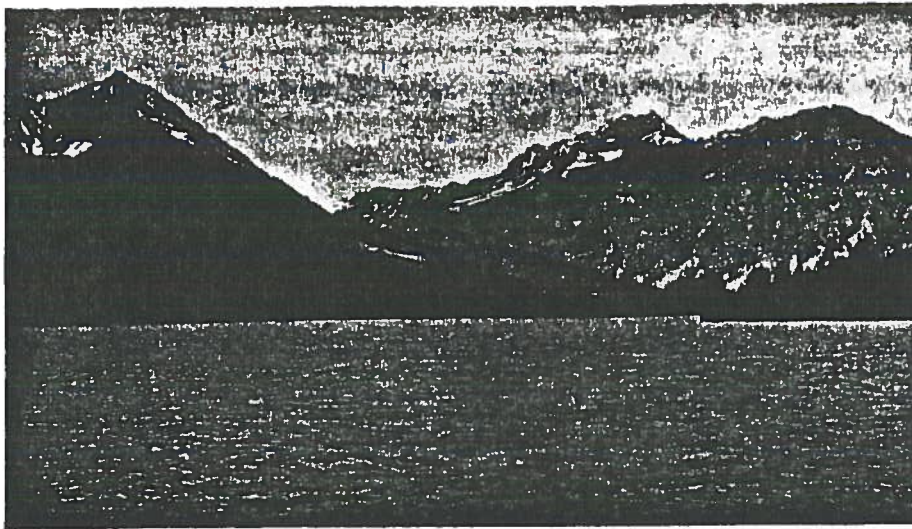

by the Sawtooth National Forest. . . . Practically everyone of the so-called Dude Ranches of the West are merely enlargements of regular ranches, and lack the sanitary and personal comforts to which persons of refinement are accustomed. Several ranches and properties were purchased for the Club, but none of the old ranch buildings were used or adapted for the use of guests. All the Club buildings were designed and built solely for club use. After a day of healthful out-of-door fishing, hunting or riding,

PETTIT LAKE

one enjoys the more a shower or tub with hot water in one's own room, then a dinner of well-cooked, wholesome food of the best quality and finally restful sleep in a really good bed. Many persons from other parts of the country have gone into the Rocky Mountains to benefit from their exceptional health-giving climate, and to enjoy the beauty of their lakes and the grandeur of the mountains, but have regretted the absence of the same standard of living comforts to which they are accustomed at home.
