STANDARD FORM 1

OBJECTION

94-06-0206

INSTRUCTIONS

This form must be used to file an objection to a water right recommended in the director's report. *Only one party/claimant may object to one water right per objection form.* To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you do, the text must be on the front and back of each page exactly as it appears here. The objection must be received by the court on or before the deadline specified in the Notice of Filing the Director's Report that IDWR mailed to you. Follow the Instructions for Mailing this objection (Page 6) or the court will not accept it for filing. This form has been adopted by the court in *SRBA Administrative Order I* (amended June 21, 1993), Section 4, which may be consulted for further information.

Any party filing 25 or more objections must make an appointment with the Clerk of the SRBA Court.

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay or needlessly increase the cost of litigation.

REASON FOR OBJECTIONS

OBJECTION NUMBER

3. This objecting party is informed and believes that the quantity of water allocated is more than reasonably necessary for the stated purpose and will adversely affect the downstream water rights of this objecting party.

4. This party is informed and believes that the stated priority date is incorrect. The claimants have failed to perfect priority waters to the land and water described and has failed to put the water to beneficial use for the period required by law.

7. This party is informed and believes that the purpose of use, is not a purpose to which the water has been or will be used by the claimant in the past, present, or in the future. This objecting party is further informed and believes that federal law as to limitations on purposes for which federal reserve rights may be used has yet to be developed. Further, that the claimant has failed to put the water to beneficial use. The proposed use will adversely affect the downstream water rights of this objecting party.

8. This party is informed and believes that the stated period of use is not reasonable nor necessary by reason of, but not limited to conditions of the area of use and that it is in excess of the period in use required and will adversely affect the objecting party's downstream water rights. This claimant is being permitted a longer period of use than has been recommended for the downstream water right holders.

9. This party is informed and believes that the place of use is in excess of that where the water is consumptively used and that the place of use is in excess of the claimed right, if any, previously established. This objecting party is informed and believes that federal law as to limitations on the place of use is yet to be developed. The proposed place of use, will adversely affect the downstream water rights of this objecting party.

10. This party is informed and believes that the proposed consumptive use of the claimant is in excess of that which is reasonable and necessary for the stated purpose. Further, proposed annual volume of consumptive use will adversely affect the downstream water rights of this objecting party.

11. The remarks contained within the Director's Report, fail to describe or indicate what effect, if any, the proposed recommendation would have upon the downstream water rights of this objecting party or others.

12. This objecting party is informed and believes that the proposed water right recommendation, seriously and adversely affect the downstream water rights of this objecting party and others. Further, the proposed water right recommendation, fails to consider or take into account the effect of the recommendation upon the downstream water right claimants.
