OFFICE OF THE
ATTORNEY GENERAL

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re the General Adjudication of Rights
to the Use of Water From the Snake River
Basin Water System.

Case No. 39576

STANDARD FORM 3

The State of Idaho, ex rel. R. Keith
Higginson in his official capacity as
Director of the Idaho Department
of Water Resources,

STANDARD FORM FOR NOTICE
OF CHANGE IN ADDRESS

OR

Petitioner,

CONSENT TO SUBSTITUTION OF
PARTY

vs.

The United States; the State of Idaho; and
all Claimants to the Use of Water From
the Snake River Basin Water System,

Respondents.

INSTRUCTIONS FOR USE

This form must be used to provide notice of change in address or to substitute a party whose water right recommendation is in a director's report which has been filed with the court. The filing of Standard Form 3 cannot result in a contested matter. A hearing will not be scheduled.

This form has been adopted by the court in *SRBA Administrative Order 1* (amended June 21, 1993), Section 4A, which may be consulted for further information.

Standard Form 3 shall not operate to excuse compliance with the statutory requirements of I.C. § 42-1409(7) where a water right recommendation is not before the court.

As used in this form, the term "prior claimant/seller" means any person who, pursuant to I.C. § 42-1409(2), (3) and (6), filed a notice of claim asserting the right to the use of water or on whose behalf the right to the use of water was asserted. "New claimant/purchaser" means any successor in interest of a "prior claimant/seller," whether the interest is acquired by purchase, gift, inheritance or other means.

A *Consent to Substitution of Party (Substitution)* must be signed by the prior claimant/seller and the new claimant/purchaser. The *Substitution* shall be filed by the new claimant/purchaser.

Check either the *Change in Address* or *Consent to Substitution of Party* box and fill in the requested information. A party may copy or reproduce the standard form. The text of the form must be on the front and back of each page, exactly as it appears here.

Follow the instructions on the form or the court will not accept it for filing. The Verification and the Certificate of Mailing must be completed.

The standard form may be obtained from the Idaho Department of Water Resources and the court. You must provide a copy of this form to each party, or to their legal counsel, in any subcase in which you are a party.

Exhibit A: FULL RESTRICTIONS

CONSERVATION EASEMENT RESERVATIONS IN THE UNITED STATES

By this instrument there is reserved in the UNITED STATES OF AMERICA, its successors and assigns, a perpetual conservation easement on the property conveyed by this deed.

This easement is under the authority and in furtherance of the provisions of federal law, including sections 331 and 335 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1981 and 1985) as amended. The restrictions and covenants contained in this easement constitute a perpetual servitude on and run with the property. The Grantee and all successors and assigns ("landowner") under this deed covenants with the United States to do or refrain from doing, severally and collectively, the various acts mentioned later in this easement. The United States is reserved the rights enumerated in this easement for itself and its successors, agents and assigns.

I. DESCRIPTION OF THE EASEMENT AREA.

The area subject to this Conservation Easement, referred to herein as the "easement area" is described as follows:

See Attached Legal Description of the Easement Area

This easement area being a part of that tract of land conveyed from William Toone to Farmers Home Administration by deed dated October 1, 1985, which deed is recorded in the land records of Butte County, State of Idaho.

II. COVENANTS BY THE LANDOWNER.

A. No dwellings, barns, outbuildings or other structures shall be built within the easement area.

B. The vegetation or hydrology of the described easement area will not be altered in any way or by any means or activity on the property conveyed by this deed, or property owned or under the control of the landowner, including: (1) cutting or mowing; (2) cultivation; [(3) grazing;] (4) harvesting wood products; (5) burning; (6) placing of refuse, wastes, sewage, or other debris; (7) draining, dredging, channeling, filling, discing, pumping, diking, impounding and related activities; or (8) diverting or affecting the natural flow of surface or underground waters into, within, or out of the easement area.

C. Notwithstanding the provisions of paragraph II-B above, the landowner shall be responsible for compliance with all federal, state and local laws for the control of noxious or other undesirable plants on the easement area. The responsibility for such plant control may

be assumed in writing by the easement manager either where the control or manipulation of such plants is deemed by the easement manager to affect easement management programs or policies.

D. Cattle or other stock shall not be permitted on the easement area, except that the easement manager shall permit access to and use of waters within the area necessary for stock watering under such terms and conditions as the easement manager deems necessary to protect and further the purpose of this easement, provided:

(1) the easement manager bears the costs of building and maintaining fencing or other facilities necessary to preclude stock from entering the easement area;

(2) the easement manager shall consult with the landowner to determining the need for and the scope of fencing; and

(3) access for stock watering need not be permitted where other waters are reasonably available from other sources outside the easement area.

III. RIGHTS RESERVED IN THE UNITED STATES.

The United States, on behalf of itself, its successors or assigns, reserves and retains the right, at its sole discretion, to manage the easement area including the following authorities:

A. The right of reasonable ingress and egress on and across the property conveyed by this deed as of the date of this instrument, whether or not adjacent or appurtenant to the easement area, for ~~access to the easement area in order to conduct wetlands management,~~ monitoring, and easement enforcement activities.

The easement manager may utilize vehicles and other reasonable models of transportation for access purposes overland or on any right of way described in paragraph I. In the event that the use of the described access right of way over the property conveyed by this deed is not practical for any reason, the easement manager may utilize any convenient route of access to the easement area over said property. With the concurrence of the easement manager, the landowner may provide a designated route for such access to and from the easement area so that damage to farm operations can be reasonably avoided.

B. The right to install, operate, and maintain structures for the purpose of reestablishing, protecting, and enhancing wetlands functional values including the taking of construction materials to and from said sites.

C. The right to establish or reestablish vegetation through seedings, plantings, or natural succession.

D. The right to manipulate vegetation, topography and hydrology on the easement areas through diking, pumping, water management, excavating, island construction, burning, cutting, pesticide application, fertilizing, and other appropriate practices. The easement manager shall consult with the landowner prior to any such manipulatory action occurring in order to determine the most appropriate method to avoid possible damage to the property(s) adjoining the easement area.

E. The right to conduct predator management activities.

F. The right to construct and maintain fences in order to prevent or regulate grazing or other types of encroachment on the easement area.

IV. EASEMENT MANAGEMENT AND ADMINISTRATION

A. All right, title and interests of the United States in this easement are assigned to the Secretary of the Interior for administration by the United States Fish and Wildlife Service as part of the National Wildlife Refuge System pursuant to the National Wildlife Refuge System Administration Act, 16 U.S.C. 668dd et seq. The U.S. Fish and Wildlife Service may enforce all the terms and conditions of this easement, along with exercising all rights and powers reserved in this easement through such general or specific regulations or orders as have been or may be, from time to time, promulgated under the authority of the Secretary of the Interior. Notwithstanding the above rights in paragraph III retained by the United States, the U.S. Fish and Wildlife Service may permit the landowner to pursue such activities on said sites as would be consistent with the preservation and enhancement of wetlands functional values.

B. As used in this easement, the term "easement manager" shall refer to the authorized official of the U.S. Fish and Wildlife Service.

V. GENERAL PROVISIONS.

A. The agreed upon purposes of this reservation are the preservation and restoration of the wetland areas existing as of the date of this conveyance as well as protection and enhancement of plant and animal habitat and populations. A "wetland" is defined and determined by the Soil Conservation Service in accordance with Title XII of the Food Security Act of 1985 (16 U. S. C. 3801 et seq.). Any ambiguities in this easement shall be construed in a manner which best effectuates wetland protection and restoration and fish and wildlife purposes.

B. Any subsequent amendment to or repeal of any federal law or order which authorizes this reservation shall not affect the rights reserved by the United States or subsequently held by its successors or assigns.

C. For purposes of this easement, wetland management rights reserved by the United States include, but are not limited to, inspection for compliance with the terms of this easement; research regarding water, wetlands, fish and wildlife and associated ecology; and any other activity consistent with the preservation and enhancement of wetland functional values.

D. The United States, its successors and assigns, including the easement manager, shall have the right to make surveys, take photographs and prepare such other documentation as may be necessary or desirable to administer the provisions of this easement. Any such map, plat or other suitable document may be recorded in the land records of the respective county in which the property is located.

E. The easement reservation does not authorize public entry upon or use of land. Unless the easement manager prohibits public entry, the landowner may permit it at the landowner's discretion.

F. The landowner and invitees may hunt and fish on the easement area in accordance with all federal, state, and local game and fishery regulations.

G. This easement shall be binding on the landowner, and the landowner's heirs, successors or assigns. The landowner covenants to warrant and defend unto the United States, its successors or assigns, the quiet and peaceable use and enjoyment of the land and interests in the land constituting this reservation against all claims and demands.

H. The easement manager shall be the agent of the United States or its successors and assigns. The manager shall have all discretionary powers of the United States under this easement. In the performance of any rights of the United States under this easement, the easement manager may permit, contract or otherwise provide for action by employees, agents, or assigns which may include the landowner.

I. Any subsequent amendment to or change in the timing and intensity of hay cutting or mowing and grazing on the easement area after the date of this conveyance shall require the approval of both the easement manager and the landowner.
