COMMENTS:

The rights listed in item 1 above are the adjudication claims that I have recommended as valid rights along with the priority date and the rate of diversion.

The rights listed in item 2 above are the licensed rights recognized as valid by the department which are not, nor are they required to be, part of the adjudication process.

The rights listed in item 3 above are the adjudication claims that have been recommended for disallowal. I have also included the warranty deed numbers that specify that the seller reserved the water rights.

The two rights held by Boyle (A71-07020 and A71-07023) are for two joining parcels and have been recommended as a permissible place of use.

The two rights held by Reynolds (A71-10651 and 71-07102) are for mutually exclusive parcels and are recommended as such.

A conveyance loss of 1.79 cfs for the common ditch was calculated. Reynolds claimed conveyance losses and I recognized the 1.79 cfs in right A71-10651. This rate includes the conveyance losses required for the other rights and is noted as such in the remarks section of those rights.

RE: SRBA Claim

Dear Claimant:

Please find enclosed your claim and your check # 5285 for \$ 125 which you submitted to our office. I am returning these pursuant to Rule 10,4 of the Department's Adjudications Rules and Regulations. In checking your claim it appears that the following items need clarification:

- [] Item #2 Priority
- [] Item #4 Point of Diversion Legal Description
- [] Item #6 Uses descriptions
- [] Item #9 Description of Non-irrigation Uses
- [] Item #10 Place of Use Legal Description - *need the qtr, qtr. that the irrig acres are in - specify with # of ac not X.*
- [] Item #16 Signature & Notorization
- [] Improper fee (THE CORRECT FEE IS \$ #133)
- [] Other or Remarks

domestic = \$25

irrigation = \$150 per claim + \$1 per acre covered

25 + 51 + 57 = \$133 due

If you wish to continue to press your claim please find enclosed instructions and another claim form to use. If you will make the necessary corrections and return your claim with the correct fee and a copy of this letter within 30 DAYS of the date of this letter, your filing will be considered timely and will not be assessed an additional late fee of \$ 50.00.

~~BEFORE RETURNING THE CLAIM PLEASE READ THE ENCLOSED DRAFT TEXT FOR D&S BROCHURE. Due to recent rulings by the court you may defer filing the claim if you so desire but it is recommended by the Department that you continue to press your claim. If you have any questions contact our office.~~

Sincerely,

REANALYSIS FOR BOYLE CLAIMS 71-07020 & 71-07023

The place of use for each claim is physically within one parcel and use a common delivery system. Therefore, I am recommending these rights within a permissible place of use (PPU).

71-07020 was licensed for 7 acres and 71-07023 was licensed for 1 acre. Using GIS I found 7.8 acres being irrigated. This includes the homesite and the road leading into the home. I am recognizing a permissible place of use for the 7.8 acres and each right will then be limited to its respective licensed acreage within that PPU.

As these rights were licensed and claimed for 1" per acre no hubble analysis was made, although the soil types were identified and have been included in 71-07020 as a part of the adjudication report.

One ditch supplies all of the following adjudication claims plus licensed rights that were filed and approved after commencement and are therefore not recognized in the Adj review of the system.

A71-02084A - Langerman	.26
A71-02084B Baird	.08
A71-07020 } Boyle	@ .14 CFS
A71-07023 }	@ .02 CFS
A71-10651 Reynolds.	.17 CFS

The original licensed right 71-2084 did not address conveyance losses, rather the right reflects 1" per acre at the P/U. Langerman & Baird did not claim conveyance losses in the adj. The two licensed rights for Boyle also did not address conveyance losses. As the priority date for those rights are after the 1971 mandatory permit statute there is currently no readily accessible process for Boyle to claim conveyance losses.

The Reynolds claim is recognized as valid and the three CFS claimed was intended to include conveyance losses. At this time, lacking further direction, I am identifying the system conveyance losses within A71-10651
