has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated June 21, 1983; and
has submitted Proof of Beneficial Use on October 12, 1984. An examination indicates
that the works have a diversion capacity of 1.050 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. ~~This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.~~

Excess Flow Review and Basis for Diversion Rate
Recommendation for 71-02015, 71-04051 &
71-07092

The above referenced rights are utilized to irrigate a total of 221 acres. These acres are physically located on an upper bench (157 Acres, Soil LA4) and a lower bench (64 Acres, Soil TN1). Based on Mr. Hansen's indicated rotation and utilizing the wild flood analysis method the upper bench could justify 6.26 cfs and the lower bench could justify 7.64 cfs; however, the sources utilized do not appear to be adequate to provide this diversion rate to optimally irrigate these acres.

At the time of the field review in Aug 93 the majority of the water being diverted was coming from Cleveland CK (1.22 cfs). This diversion ditch intercepts Niece CK (It was impossible to measure Niece CK independent but total flow below in ditch was found to be 1.80 cfs) then flows on to Clements property. The 1.80 cfs measured in Aug 93 on to Clements property was all in one ditch. The other ditch on to the property (other FK) was dry. From the evidence and logically

MICROFILMED

OCT 28 1994

more water is capable of being diverted early in the spring when the water is available.

At the time of the F.E. it was estimated that 95% of Cleveland CK was being diverted (5% leakage) and 211 or 100% of Niece CK was being diverted. It is estimated that the FK of the inlet ditch measured could hold approx. 50% more and the ditch dry could hold a like amount if not more. It is est. that the total capacity of the inflow could be in the range of 5 cfs. early in the spring. Lic. 71-02015 was for 3.86 cfs on 193 acres ($1''/\text{acre}$). Claim 71-04051 is for 2.14 cfs on an additional 107 acres ($1''/\text{acre}$). I discussed the possibility of Mr. Hansen claiming more than $1''/\text{acre}$ at the time of the F.E. but he didn't want to since he indicated that he would be satisfied with $1''/\text{acre}$ and indicated it was only during flooding times more is used and generally he has less.

Based on my calculations & observations I recommend that 71-02015 be recommended as licensed for 3.86 cfs on 193 acres and 71-04051 recognized 28 additional acres at a rate of $1''/\text{acre}$ and both of these be combined in a permissible place of use of 221 acres. That 71-07092 be allowed to overlap with no limit as to combined diversion rate (Allow 1.05 on the 63 acres)

DIRECTIONS TO PROPERTY / REMARKS:

The claim filed by Mr. Hansen in 1985 was based on the permit which ~~was~~ it that time had not been licensed. In 1990 the license was issued which confirmed use of the water on lands not owned by Mr. Hansen. There lands in the NE 1/4 of Sec 1, T9N, R13E belong to the USFS and are being irrigated in the pass. Additionally with better maps, ect. my field review finds a slight change in the area being irrigated in Sec 6. I have discussed this matter with Jim Johnson in allocations and he is open to have the license amended to conform with this review.
