RE: Digital Boundary Maps & CDs for Upper Wood River Water Users Assn. Inc.
Subcases 37-891A and 37-892

Dear Janet:

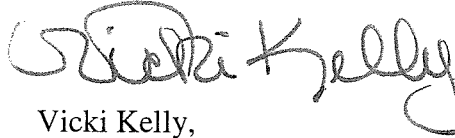

Enclosed are the digital boundary maps & CDs for the Upper Wood River Water Users Association Inc. (the Association) subcases 37-891A and 37-892. Standard Form 5s were filed in both subcases on March 13, 2013. At that time, the digital boundary of the Association was still being finalized.

The parties and other participants were notified via email on May 28, 2013, that there were minor additions needed to the place of use (POU) element of both rights. Attached to the email were the updated recommendations showing the additions, as well as a copy of the finalized digital boundary map. The parties were also informed that Special Master Bilyeu would consider making the POU additions through her Report and Recommendation, as long as the parties were in agreement. Parties were given until the close of business on Monday, June 3, to notify the department of any problems with the pou changes or the digital boundary map.

Attorney Scott Campbell (representing the Association) expressed concerns about whether he could review the changes with his client by the deadline, but notified the department on June 3 that his client had agreed to the changes. Attorney Al Barker (representing John and Kristy Molyneux) and attorney Evan Robertson (representing Eccles Window Rock Ranch) also responded, agreeing with the department's changes and map. No other parties notified the department of any further concerns.

Copies of the updated recommendations which were routed to the parties for their consideration are also enclosed for the Court's convenience. The POU additions are shown in bold and underlined. The department greatly appreciates the Court's patience and helpfulness in moving these subcases to final resolution.

Sincerely,

A handwritten signature in black ink, appearing to read "Vicki Kelly". The signature is fluid and cursive, with the first name "Vicki" and last name "Kelly" clearly distinguishable.
