RE: 93-7344

Dear Mr. Hopson:

We are returning your Notice of Claim. The date of priority is listed as September 2, 2004. When a new diversion of ground water is started after March 23, 1963, an appropriation permit had to be obtained first except for domestic use. Domestic use in part is the use of water for household use or stock water and the irrigation of no more than ½ acre. The date of priority is the date the water was first used regardless of who owned the property. You list the irrigation of 10 acres which does not qualify for the domestic exemption. If the priority date of your claim is incorrect then change the date and return the claim. If the water for irrigation was first used after March 23, 1963, then you need to file an application to secure water rights.

Sincerely,
