**SPECIAL POWER OF ATTORNEY
(WATER RIGHTS)**

I, W. MICHAEL HUMPHREYS, individually and as trustee of THE HUMPHREYS TRUST, designate and appoint JAMES P. SPECK, of Blaine County, Idaho, as my attorney in fact and agent (subsequently called "Agent") to act in my name and for my benefit for the specific purposes stated herein only. I grant to my Agent full power and authority to do everything necessary in exercising any of the powers herein granted as fully as I might or could do if personally present and fully competent, hereby ratifying and confirming all that my Agent shall lawfully do or cause to be done by virtue of this Special Power of Attorney and the powers herein granted.

1. SPECIFIC GRANT OF POWER. My agent shall have power to exercise or perform any act, power, duty, right or obligation whatsoever that I now have or may hereafter acquire, RELATING ONLY TO the preparation and filing of applications for permits to or transfers of water rights, or claims to water rights, with the Idaho Department of Water Resources.

2. REVOCABILITY. This Special Power of Attorney is revocable, provided, that insofar as any governmental agency, bank, trust company, insurance company, transfer agent, or other person shall rely upon this power, this power may be revoked only by a notice in writing executed by me or my Agent and delivered to such person or institution.

3. INTERPRETATION. This instrument is to be construed and interpreted as a Special Power of Attorney and shall be limited in accordance herewith.

4. DISABILITY OF PRINCIPAL. This Special Power of Attorney shall not be affected by disability of the principal.

5. THIRD-PARTY RELIANCE. Third parties may rely upon the representations of the Agent as to all matters relating to any power granted to my Agent, and no person who may act in reliance upon the representations of the Agent or the authority granted to my Agent shall incur any liability to us or our estates as a result of permitting the Agent to exercise any power.

6. GOVERNING LAW. This Special Power of Attorney is executed and delivered in the State of Idaho and the laws of the State of Idaho shall govern all questions as to the validity of this power and as to the construction of its provisions.

7. COUNTERPARTS. This Special Power of Attorney may be executed in counterparts. Each executed counterpart of this Special Power of Attorney shall have the force and effect of this original.

IN WITNESS WHEREOF, I have executed this Special Power of Attorney this 26th day of April, 1999.

David R. Tuthill, Jr., being first duly sworn, deposes and states as follows:

1. My name is David R. Tuthill, Jr. I am the Adjudication Bureau Chief for the Idaho Department of Water Resources (IDWR).

2. My work address is Idaho Department of Water Resources (IDWR), 1301 North Orchard, Boise, Idaho 83706. I reside in Boise, Idaho.

3. My educational background includes a Bachelor of Science degree in agricultural engineering from Colorado State University at Fort Collins, Colorado, in 1974, and a Master of Science degree in civil engineering from the University of Colorado at Boulder, Colorado, in

1975. I have also attended and presented papers at numerous seminars on water rights investigation and administration.

4. I have been registered as a professional engineer in Idaho since 1979.

5. I have worked for IDWR for 22 years in the following positions respectively: Adjudication Section Supervisor; Payette Adjudication Supervisor; Water Allocation Section Supervisor; Regional Office Manager of IDWR's Western Regional Office; and currently as Adjudication Bureau Chief. In these positions I have investigated hundreds of water rights, including reviewing their descriptions in decrees, licenses and permits. I have supervised the distribution of water to water right holders and resolved disputes between competing water users. I have extensive first-hand knowledge of how water rights for a variety of uses interact with other water rights from the same source. I have extensive first-hand experience with the difficulty of resolving disputes between water right holders when the water use under a right is not adequately described.

6. I am familiar with the factual and legal basis for IDWR's policy regarding its recommendation of quantity, irrigated acreage, and remarks relating to specific elements of water rights.

7. I have either personal knowledge of the facts I testify to in this Affidavit, or they are available to me from IDWR records and personnel, and are the type of facts or data that are regularly and customarily considered by experts in the field of water use and water right investigation and administration to be a reasonable basis to form an opinion about such water use or water right.

8. I adopt as my testimony and incorporate in this Affidavit the Legal Principles and the Conclusions portions of the Supplemental Director's Report Regarding Claim to Water Right

Nos. 71-04006, 71-10080, and 71-10081 dated October 6, 1999, attached to this Affidavit as Exhibit 1.

9. Attachment C to Exhibit 1 is a printed color copy representing a shape file in IDWR's Geographical Information System database. This printed copy is the type of data regularly and customarily considered by experts in the field of water use and water right investigation and administration to be a reasonable basis to assist in forming an opinion about such water use or water right.

10. In Exhibit 1, I set forth my factual understanding of the law which underlies my opinion on behalf of IDWR regarding its description of specific elements of water right numbers 71-04006, 71-10080, and 71-10081. To the extent, if any, these statements are inaccurate as a matter of fact, the opinions expressed in my report may change.

In Re SRBA

Twin Falls County Civil Case No. 39576
Subcase Nos. 71-04006, 71-10080, and 71-10081

Report to the SRBA District Court

Prepared by the Idaho Department of Water Resources
Karl J. Dreher, Director
David R. Tuthill Jr., Adjudication Bureau Chief

October 6, 1998

The Director of the Idaho Department of Water Resources (IDWR) submits this Supplemental Director's Report Regarding Claims to Water Right Nos. 71-04006, 71-10080, and 71-10081 in accordance with Idaho Code § 42-1412(4) and Administrative Order 1. This supplemental director's report was prepared under the supervision of Karl J. Dreher, Director, and David R. Tuthill, Jr., Adjudication Bureau Chief for IDWR. The following persons assisted in the preparation of the following portions of this report:

Allen Merritt, Regional Manager, IDWR Southern Region, investigated claim numbers 71-04006, 71-10080, and 71-10081 and prepared the recommendations for these claims.

Doug Jones, Regional Supervisor, IDWR Southern Region helped to prepare this Supplemental Report.

LEGAL PRINCIPLES UNDERLYING RECOMMENDATION OF WATER RIGHT NUMBERS 71-04006, 71-10080, and 71-10081

IDWR's recommendations of the water rights are based upon its application of the following legal principles. These principles are not described for purposes of legal argument, but simply for the purpose of describing the basis of IDWR's recommendations for these water rights. If IDWR's understanding of these principles is erroneous or inaccurate, the conclusions reached in this report may change.

1. Beneficial use is the basis, measure and extent of any water right.
2. The description of the beneficial use is the description of the water right.
3. Because beneficial use is the basis, measure and extent of any water right, a water right holder is entitled to irrigate only those lands on which water has been historically put to beneficial use pursuant to that water right.
4. The determination of the extent of beneficial use in a water right license is binding on the Department of Water Resources.
5. A water right will be considered abandoned or forfeited to the extent that it has not been beneficially used for five or more years.

FACTUAL FINDINGS UNDERLYING RECOMMENDATION OF WATER RIGHT NUMBERS 71-04006, 71-10080, 71-10081

I. Basis of Claims

- A. Water right number 71-04006 is a beneficial use claim.
- B. Water right numbers 71-10080 and 71-10081 are based on the combination of two licenses. License numbers 71-02033 and 71-02034 were issued for a total of 6.84 cfs on 440 acres. Because of a delay in the filing of the proof of beneficial use in the licensing process, both

of these licenses were issued in two stages, so each license has an "A" and a "B" portion. Water right number 71-10080 is a combination of license number 71-02033A and license number 71-02034A (Attachment A), which were licensed for a total of 195 acres. Water right number 71-10081 is a combination of license number 71-02034B and license number 71-02033B (Attachment B), which were licensed for a total of 440 acres.

II. Investigation of Water Right Numbers 71-04006, 71-10080, and 71-10081

This report addresses those elements of water right numbers 71-04006, 71-10081, and 71-10080 that are in dispute. IDWR understands those elements to be Place of Use (irrigated acreage).

A. Place of Use

1. IDWR recommended a total of 370.2 irrigated acres for these three water rights. IDWR recommended this acreage based on the following:

a. On 7/1/1993 Allen Merritt, IDWR Regional Manager, conducted a field examination of the claimed place of use, accompanied by Gladys Laverty, the original owner of the property, and observed an irrigated parcel within the area claimed under water right numbers 71-04006, 71-10080, and 71-10081. During the field exam Mrs. Laverty confirmed the areas irrigated on a copy of an aerial photo obtained from the US Forest Service by Mr. Merritt (date of photo unknown). Mrs. Laverty confirmed the dark areas on the photo copy and those red areas on August 8, 1987, NAPP photograph number 437-22 photo which were associated with her land as those lands historically irrigated. This was supported by the observations of Mr. Merritt during the field exam.

b. Mr. Merritt also used GIS technology in analyzing the number of acres irrigated. Mr. Merritt created a GIS shape of the lands irrigated weighing the images on the orthophoto quadrangle V70 and W20 created from aerial photos dated 1984 and 1974 respectively, the NAPP photo and the photo copy representing Mrs. Laverty's confirmation mentioned above. It was determined that 370.2 acres are within the boundaries of the shape and represent the lands irrigated.

c. In recommending a 370.2 acre place of use, Mr. Merritt determined that 69.8 irrigated acres had been forfeited from 440 acres under the licensed places of use claimed under claim number 71-10081. This determination was made based on comparison of the 1984 aerial photo and the 1987 NAPP photo number 437-22, attached as Attachment D, and on Mr. Merritt's 1993 field exam and Mrs. Laverty's confirmation. Mr. Merritt determined that as of the date of his field examination in 1993, no water had been applied to the forfeited 69.8 acres since 1984. Despite the finding of partial forfeiture of the place of use, Mr. Merritt recommended the entire claimed rates of diversion based on his finding of the on-field headgate requirement using the Hubble analysis.

2. Attachment C, attached hereto, is a copy of a Geographic Information Systems Shape File delineating in yellow the place of use recommended by IDWR under water right number 71-04006, 71-10080, and 71-10081.

CONCLUSION

Based on the foregoing legal principles and factual findings, IDWR has determined that its recommendation for claims to water right numbers 71-04006, 71-10080, and 71-10081 as represented in Attachment E is accurate and should be so recommended by the Special Master.

Allen Merritt, being first duly sworn on oath, deposes and states as follows:

1. My name is Allen Merritt, and I am the Regional Manager of the Southern Region office of the Idaho Department of Water Resources (IDWR). I make the following statements based upon my personal knowledge of the facts related therein.

2. My work address is Idaho Department of Water Resources (IDWR), Southern Regional Office, 1241 Fillmore St, Suite 200, Twin Falls, ID 83301-3380. I reside in Twin Falls, Idaho.

3. I have previously been qualified by the Snake River Basin Adjudication Court as an expert in the field of water rights investigation, and so testified as such in numerous other trial

s and hearings in front of the Snake River Basin Adjudication Court, and participated in numerous settlement conferences and meetings with parties to the Snake River Basin Adjudication.

4. My educational background and relevant work experience is described in Exhibit 1 to this affidavit.

5. I conducted the investigation of claims to water right numbers 71-04006, 71-10080, and 71-10081. I also prepared the recommendation for these claims.

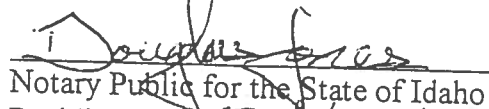

6. Based on my investigation and knowledge of these claims, I adopt as my testimony and incorporate in this Affidavit the Factual findings portions of the Supplemental Director's Report Regarding Claim to Water Right numbers 71-04006, 71-10080, and 71-10081 dated October 6, 1999, attached to the Affidavit of David R. Tuthill, Jr. as Exhibit 1.

ALLEN MERRITT
EDUCATION AND WORK EXPERIENCE

1. My educational background includes an A.A. degree in Mathematics from the College of Southern Idaho in 1971; a B.S. degree in Civil Engineering from the University of Idaho in 1973; and a M.S. in Civil Engineering from the University of Idaho in 1982.
2. I have been registered as a professional engineer in Idaho since 1982. My P.E. certificate is No.4454. To become registered, I spent over four years as an engineer-in-training and passed an eight hour exam.
3. During the winter of 1973 to the winter of 1974 I worked for "Accurate Systems" in Twin Falls, Idaho, a private engineering consultant firm. My duties included property surveying, drafting, and preliminary subdivision design.
4. From late winter of 1974 to the early summer of 1975 I worked for "G.T. Newcomb, Inc." in Twin Falls Idaho. My duties included supervising a construction crew installing pivot sprinkler systems.
5. In the early summer of 1975 I began my employment with IDWR. From 1975 to 1976 I worked in Southern Region as a water right agent. My duties included reviewing various types of applications processed within the region, conducting beneficial use field exams for licensing of water right permits, drafting recommendations for licensing of water right permits, and conducting other water related data collection.
6. From spring of 1976 to the summer of 1979, while working with IDWR, I was a "Water Right Analyst". My duties expanded to include dam safety inspections for dams within the region. In the fall of 1977 to the spring of 1978 I returned to the University of Idaho.
7. During the period at the University of Idaho from the fall of 1977 to the spring of 1978 I attended class for my M.S. degree. During that period I also worked as a graduate assistant for professor Calvin Warnick and my duties included collection of field data for various graduate studies involving irrigation systems and power use. I also drafted figures and reduced data for various other graduate projects assisting other students.
8. In the spring of 1978 I returned to Twin Falls and began again working for IDWR in Twin Falls. In the summer of 1979 I became a "Senior Water Resource Analyst" and worked in this capacity until the fall of 1984. My duties included those described above with more responsible charge. I conducted the more difficult field exams and reviewed the work of others. At times I managed the office while the region's supervisor was absent. During this period I conducted numerous construction inspections for the development of the Cyprus Mine's tailings and sediment retention dams near Challis Idaho.
9. From the fall of 1984 to the spring of 1988 I continued working for IDWR in Twin Falls as a "Water Resource Engineer". Once I obtained my P.E. license the position was eventually upgraded to a "Water Resource Engineer". My duties were much the same as the "Senior Water Resource Analyst" position listed above.
10. Shortly after the commencement of the SRBA, in the spring of 1988, I changed positions within IDWR at Twin Falls and became a "Water Rights Supervisor". My duties included but were not limited to supervising six staff in Twin Falls assigned to the SRBA project. I all coordinated with others in the SRBA Bureau within IDWR to formulate procedures for claims review. I personally assisted in taking thousands of claims and conducted hundreds of claim verifications and recommendations. I worked in this capacity until the fall of 1994.

11. From 1994 to the present I have worked for IDWR in Twin Falls as the "Regional Manager". My duties include overseeing all activities at the Southern Region Office. Among the matters I oversee are personnel, salary and budgetary matters, water right permitting and licensing, dam safety issues, stream channel alteration issues, well construction issues, and coordination and participation with the SRBA unit in Twin Falls.
12. My additional training since college has included, but is not limited to: short courses by the Idaho Personnel Commission including "Elements of Supervision" and "The How and When of Discipline"; various training sessions provided by IDWR including "Arcview computer program use", "Team building", "Sexual Harassment", "Violence in the Work Place" and "Internal Control and Planning". I have also participated in training classes provided by Polysonics/Flosonics for use of the Tyme-Flyte measuring equipment as well as another by BPA for conducting energy audits of irrigation systems. I have also attended workshops involving the topic of "groundwater" and "measurement of water". I have also attended the "Western States Conference of Engineers" where water related issues were discussed.
13. I have lived since childhood in the vicinity of Twin Falls, Idaho except for the time spent at the University of Idaho in Moscow, Idaho as described above.

DATED this 7th day of October, 1999.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
