

[X] The parties failed to provide any explanation as to why the remarks section is necessary to define this water right, and fully describing why these matters do not fall within the nine elements listed. The statement required for element 10 should include a full explanation of the stipulated facts, documents, expert opinions and law which support including this as a separate element of this water right.

[] The legal description appears incomplete as to elements _____.

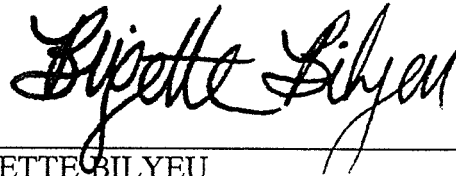

[X] Other:

1. This water right is missing a required statutory element. Specifically, no annual volume of consumptive use was listed. The parties have not explained whether or how this right can be recommended without a required element.
2. This right is listed in combination with other rights. The parties have not explained how or whether the court can recommend elements of this right in a manner which limits elements of other water rights with potentially different parties.

IT IS ORDERED that the parties to this subcase shall submit an *Amended Standard Form 5* which complies with all of the requirements of Standard Form 5 no later than **April 28, 1995**.

IT IS SO ORDERED.

DATED March 22, 1995.
