Amend Claim A71-10104

Dear Brett:

After you left last friday I was writing up my recommendation for your rights and I discovered a miscalculation in my original workup. Fortunately for you it appears I can recommend slightly more than we discussed on friday. It appears I can recommend a total of 4.92 cfs for you but for me to do this I will need for you to again amend your claim. I'm sorry for this inconvenience. I have drafted the amendment enclosed for your review and signature before a notary. Please note that I increased the cfs to 3.0 just in case but all I really need for it to go from the present 2.4 to 2.62 which is what I plan to recommend. I will need for you to return it as soon as possible. If you have questions please call. Please note that either you or Daniel can sign the amendment.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Allen D. Merritt'.

Re: Permit No. 17035

RECEIVED

MAY 18 1952

Department of We
Southern Reg

MR. EDWARD H. FISHER
West 1713 Ninth Avenue
Spokane, Washington

Dear Sir:

Reference is had to the proof of completion of works and application of water to beneficial use recently offered upon your permit No. 17035, appropriating ten cubic feet per second of the waters of Salmon river, Chater county, Idaho.

The report of our field examiner is received and the following comments or suggestions relating to this permit are made.

In the first place, it appears that the irrigation canal which conveys water to the land in question was not located at all in conformity to the map filed with the application for permit. Apparently, the original plan was to take the ditch our considerably higher up and cover something over a section of land, which is all rather steep hillside and entirely above the present ditch. Thus, it will be necessary, in issuing license, to materially reduce the acreage from that applied for.

The total irrigated acreage, as found by the examiner, is 115 acres and of this 115 acres, 25 acres are upon lands not described in the original permit. These subdivisions are as follows:

N^W 1/4 Sec. 35, T. 11 N. R. 13 E. - 20 acres irrigated,

SW 1/4 Sec. 35, T. 11 N. R. 13 E. - 5 acres irrigated.

If you desire to have these two subdivisions included in the license which is to be issued, it will be necessary to amend the permit in that respect. Form prepared for that purpose is enclosed for your signature.

MICROFILMED

MAR 17 1993

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE

MR. EDWARD H. FISHER, #2,

September 16, 1929.

Upon receipt of this amendment and fee of \$14.00, which is at the rate of \$2.00 for each forty acre legal subdivision affected, license can issue.

The field examination also discloses that the actual point of diversion and headgate of the canal is not upon the legal subdivision described in the permit, but is located upon the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15, T. 10 N., R. 13 E., B. M. In order that the license may conform to actual conditions, the location of the point of diversion should be amended as prepared in the enclosed form for that purpose. Kindly execute the affidavit and return to this office, together with the executed application for amendment to permit.

I am informed by the field examiner that a controversy exists at the present time relative to ownership and use of your ditch and water. This is a matter over which this department has no authority. If the respective rights in the ditch were adjudicated the decree would definitely define and set out the owners of the ditch and water rights for your lands as well as any other land which may be receiving water from this ditch. The state, however, would not have authority to place a watermaster on the ditch, but could only designate an officer to divert water from the stream to the canal if the rights were decreed. It is my understanding that there is a surplus of water at this point, so, very likely, the matter of relative diversion from the stream is not a question of dispute. However, a judgment of the court, defining the respective rights of party claimants to the ditch would not be difficult of execution and a watermaster could be appointed by the court in the absence of agreement as to proportionate interest and use of the canal.

It will be observed that no mention is made of the other lands in your ownership which are reputed to be receiving water from the ditch in question. Obviously, as they are not described in your permit, they can not receive a license, and I assume you are not concerned with the status of their water rights.

Yours very truly,

(Signed) GEO. N. CARTER
Commissioner of Reclamation.

MAR 17 1993

Application for Amendment
To Permit to appropriate the Public Waters
of the State of Idaho, No. 17035

Comes now Edward H. Fisher, and represents to the Commissioner of Reclamation of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 17035, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 34, NE $\frac{1}{4}$ SW $\frac{1}{4}$ & S $\frac{1}{2}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 35,
Twp. 11 N., R. 13 E., NW $\frac{1}{4}$ & SW $\frac{1}{4}$ Sec. 2; NE $\frac{1}{4}$ & SE $\frac{1}{4}$ Sec. 3, NW $\frac{1}{4}$ Sec. 11 and
NE $\frac{1}{4}$ Sec. 10, T. 10 N., R. 13 E.

....., making a total of approx. 1000 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Spencer, this 22 day of October, 1929,

Edward H. Fisher

Date of receipt at Office of Department of Reclamation OCTOBER 26, 1929

APPROVAL OF COMMISSIONER OF RECLAMATION.

I, Geo. N. Carter, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 17035. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Geo. N. Carter

Commissioner of Reclamation.

Effective April 10, 1911

Department of Reclamation

REGULATIONS AS TO AMENDED APPLICATION AND PERMIT.

Section 3255 of the Revised Codes, provides for the amendment of a permit as to lands upon which the water is to be used. The permit holder, to avail himself of the provisions of this section, should fill out and file with the Commissioner of Reclamation the application blank found upon the reverse side of the sheet. If there is not sufficient room in such blank for the legal description of the amended list of lands, this may be submitted as an exhibit, proper reference thereto being made in the application.

Before amended permit will be granted applicant must file with the application two maps, showing the following details:

- (a) Name of applicant.
- (b) Section, town and range numbers, where public survey has been made.
- (c) Source or sources of supply.
- (d) Point or points of diversion.
- (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the lands to be irrigated.
- (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.

If original permit called for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by engineer in charge of survey, in the following form:

I hereby certify that this map was prepared from an actual survey made by me.....
19..... and correctly shows position of points indicated thereon.

Engineer.

State of Idaho
License and Certificate of Water Right

Water License No. 17035..... Priority..... 12-26-1928..... Amount..... 2.3 sec.ft.

THIS IS TO CERTIFY that Edward H. Fisher, of Spokane, Washington, made application for a permit to appropriate the public waters of the State of Idaho, dated December 26, 1928; that Permit No. 17035 was issued under said application: that Certificate of Completion of works, with a carrying capacity of 10 second feet, was issued thereunder on November 12, 19 29, showing that said works were completed on the 6th day of July, 19 29; and that on the 6th day of July, 19 29,

Edward H. Fisher,

of Spokane, State of Washington, made proof to the satisfaction of the Commissioner of Reclamation of Idaho, of a right to the use of the waters of Salmon River, a tributary of Snake River for the purpose of irrigation and domestic use, under Use Permit No. 17035 of the Commissioner of Reclamation, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 6 of Licenses, at page 3597, on the 12th day of November, 19 29;

The right hereby confirmed dates from December 26, 19 28;

The Point of Diversion is located

in the NE 1/4 SW 1/4 Sec. 15, Tp. 10 N, R. 13 E., B. M. Custer County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2.3 cubic feet per second.

Description and location of use:

Twp.	Range	Section	Forty-Acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by May 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Mr. Brett Woolley:

Per your phone call 5-12-92 in regards to when the water was used on the Woolley (Fisher) Ranch. It was being irrigated in 1934 when we bought property in Lower Stanley. My memory of talking to the old timers, Markles, Voughts, Laniers, and others. The first water was put on part of the ranch in the late 1880's.

All of the above persons are deceased for over 30 years. There is approximately 200 acres in pasture land and to my memory it was all irrigated in the early years.

Sincerely

Robert N. Savage

Subject: Re-evaluation of Woolley & Chivers rates.

Using modified Hubble it is calculated that Woolley justifies 6.85 cfs and Chivers justifies 6.38 cfs, however the rotte ditch whose capacity is 7.21 cfs. Allow each his proportionate justified amt.

$$\text{Woolley} = (6.85 / 13.23) \times 7.21 = 3.73 \text{ cfs}$$

$$\text{Chivers} = (6.38 / 13.23) \times 7.21 = 3.48 \text{ cfs}$$

Conveyance is provided by 71-10104 for Woolley & 71-04033 2) previously calculated.

$$\therefore \text{Woolley} = 2.30 + \underbrace{(1.43 + 1.17)}_{2.60} = 4.90$$

71-02111 71-10104

$$\therefore \text{Chivers} = (3.48 + 1.08) = 4.56$$

71-04033

REEVALUATION OF IRRIGATION RATES BASED UPON 1997 REVISED HUBBLE ANALYSIS PROCEDURES

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL / ROTATION (chart)	ACTUAL / ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE
W ₅₁	2.66	14	* 0.6	* 0.45	= 0.05 CFS

Evaluation for Recommendations
71-02111 & 71-10104 (Woolley)
71-04033 (Chivers)

All three of these claims share a P/D with two rights (71-10117 & 71-10631) belonging to Neider. The capacity of this P/D was measured on 6/28/93 and found to be 43.89 cfs. On 6/17/93 the lower portion of this ditch was measured below the spill on Neider's place and the ditch was found to be flowing 9.46 cfs above the spill & 5.11 cfs in the ditch beyond the spill, the ditch that continues on down to Woolley & Chivers. On 6/28/93 this same ditch was measured again with the ditch near max capacity. It was flowing 7.21 cfs at that time. Less was spilling.

It was explained by Daniel Woolley that they & Chivers rotate the full ditch on a weekly basis. Woolley's get the entire flow for 1 wk & then Chivers gets the use of the ditch for 1 wk. MICROFILMED
OCT 28 1994 Woolley's indicated they set for 24 hrs.

The major soil for these ranches is
WV1 with F_n for pasture of 3.24 inches.
From weather data the max use is
0.17 in/day $\therefore$ optimum rotation is

$$\frac{3.24 \text{ inches}}{0.17 \text{ inches/day}} \approx 19 \text{ days.}$$

Since this is more than the 19 day
rotation used then 19 days was used
in the Wild Flooding analysis.

Using the soil & 19 day rotation & 8 hr
sets Woolley justified 4.3 cfs for
119 ac. & Chivers justified 4.00 cfs
but this sum exceeds the 7.21 cfs
max at the ditch. The water in
the ditch was then allocated on
a proportionate basis.

$$\frac{\text{Chivers}}{\text{Woolley}} = \frac{110}{229} \times 7.21 = 3.46 \text{ cfs irrig. require}$$

$$\frac{\text{Woolley}}{\text{Chivers}} = \frac{119}{229} \times 7.21 = 3.75 \text{ cfs irrig. require}$$

To get this water down to where the
water is restricted where the ditch was
measured some seepage loss MICROFILMED
OCT 28 1994 This
loss is shared with Neiden.

The worstell method was used assuming a C value of 4.5 based on an average for the valley of calculated C values determined from actual measurements made during summer 1993.

The Lotus 123 program estimates Woolley & Chivers share of loss in the ditch is 2.25 cfs with Neider's share of 1.48 cfs. The 2.25 cfs was split proportionately based on acres.

Woolley $\rightarrow$ 1.17 cfs

Chivers $\rightarrow$ 1.08 cfs

Woolley's seepage loss is being placed in the ~~earliest or latest right~~, expansion claim

1.

71-04033

$$3.46 + 1.08 = 4.54 \text{ cfs on } 110 \text{ Ac.}$$

71-02111

2.30 cfs on 115 Ac in 119 PPC

* seepage in 71-10104

71-10104

$$(3.75 - 2.30) + 1.17 = 2.62 \text{ cfs on } 119 \text{ Ac in } 119 \text{ PPC}$$

DUE TO PRIORITY DATE DISCREPANCY? (Y/N)

DATABASE Y FIELD EXAMINER

ARE THERE OBVIOUS REASONS TO QUESTION THE PRIORITY DATE CLAIMED? Y() N(X)

REMARKS:

Attendant by Savage supports personal knowledge of use in 1934 but alleges uses back in the 1880's according to old timers. Review of licensing file for 71-02111 seems to support more water & other uses irrigated prior to 1929. Since 12/26/1928 is priority for license 71-02111 it that what is being claimed and the uses are so close 119 in the PDA is was licensed in 71-02111 and since the PDA appears in error because at the time they didn't have aerial photos it conclude to record the priority claimed is reasonable.
