Dear Mr. Loper:

We are returning your two claims to a water right and the two checks for \$60. For the following reasons:

The claim for taking water out of is acceptable but filing fee for a domestic use is \$25.

The claim for the spring has a date of priority of August 8, 1992. On May 20, 1971, a permit was required before a new diversion of water could start. In 1997 the person who built the fish pond needed to get a permit to appropriate the public waters. To develop the water right the enclosed application needs to be completed and returned to our office.

Sincerely,

Kenneth Knoblock
Water Resources Supervisor
