This water right was licensed by IDWR on April 1, 1983 with a priority date of October 10, 1973 for the irrigation of 629 acres with 6.59 cfs of ground water. I've attached a copy of the water right license to this motion for late claim. I recognize that this water right was disallowed by the Court on February 13, 2013. I make this motion for late claim based on Idaho Rule of Civil Procedure 60(b), which allows for relief from judgment or order of the court. Subpart (1) of Rule 60(b) allows for relief within 6 months of an order of the court due to mistake, inadvertence, surprise, or excusable neglect.

I feel I meet this standard because the original owner of the property was murdered prior to the transfer of this water right. The buyer of the property has also since died, leaving an elderly widowed woman with no knowledge of the lack of water transfer. All written communication has been being sent to a wrong address.

Because the Court's order disallowing this water right was issued on February 13, 2013, the filing of this motion for late claim falls within the 6 month time frame established in IRCP 60(b).
