Place of use is within the area served by Bell Rapids Mutual Irrigation Company.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

This right is limited to the irrigation of 24,511.5 acres within the boundaries of the Bell Rapids Mutual Irrigation Company in a single irrigation season.

Place of use does not include federal public lands.

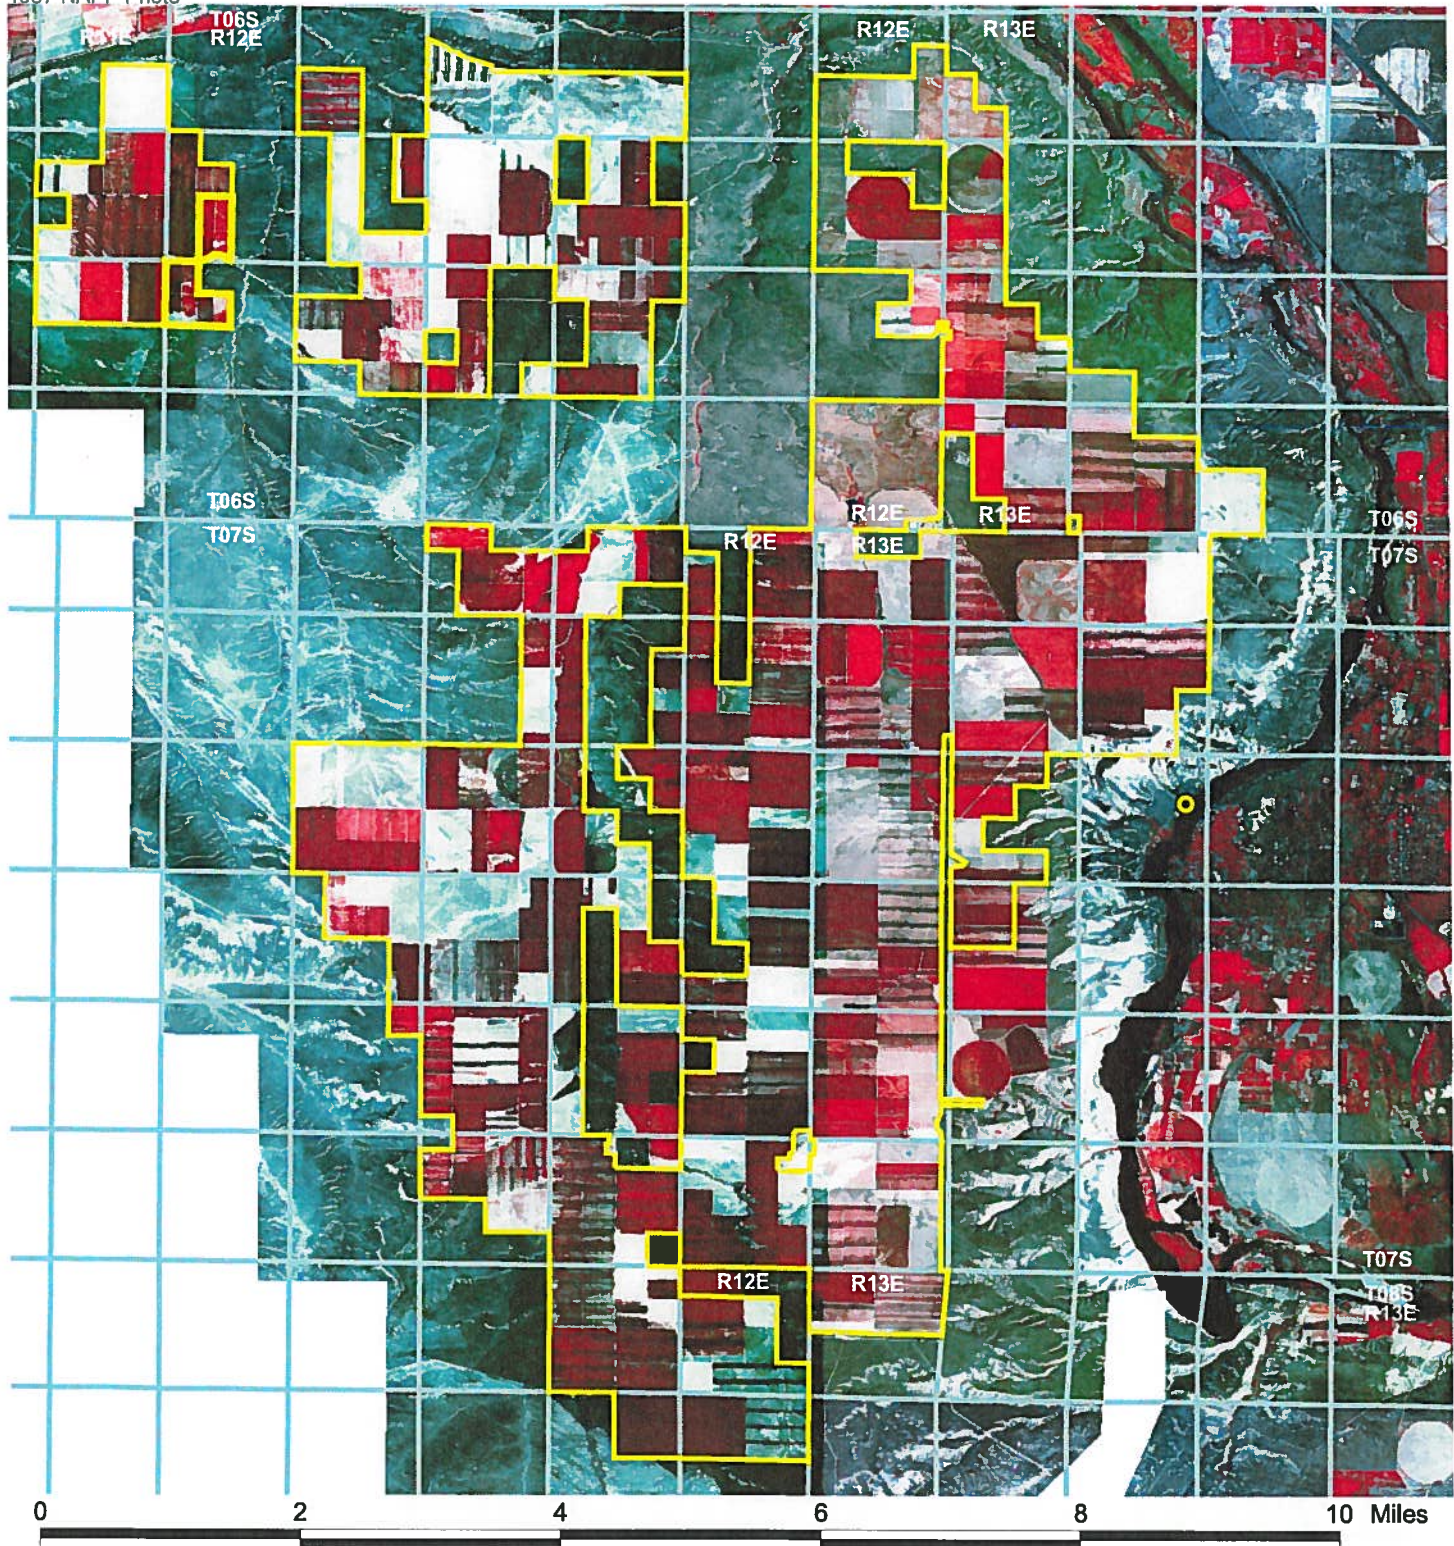

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Subject: Transfer 69664

Transfer 69664 split a piece from the Bell Rapids right, originally 2-2268, then 2-10194, -10203, and now -10205 with 2-10206 being the portion most recently split off.

My review of Bell Rapids' right was conducted on 2-10203. Transfer 69664 was based on my recommendations in 2-10203, and split my recommendation into 2-10205 and 2-10206. The large POU shape for 2-10205 was adjusted by removing two 40-acre QQ tracts from the shape, including the 8S 12E Sec 01 NWNW & NENW, as it appears the transfer removed all irrigated acreage from these two QQs. Acres in three other QQs were reduced by the transfer, but only by a partial amount so that these tracts were not removed from the company boundary.

The POU for 2-10206 was created based on maps in the water right vault file (see 2-10203). Aerial imagery didn't clearly indicate how acreage should be partitioned in the 5 QQ tracts affected, so that all were nominal shapes except for 5S 9E Sec 27 NESE where Elmore taxlot data, the freeway, and the transfer map clearly indicate that the northern portion of this QQ should be included with the area to the south excluded. The POD was digitized based on the location indicated on the transfer map.

Subject: Updated project boundary for SRBA recommendations

Dear Robert,

Based upon approved Transfer No. 69664 which split 121.6 acres from Bell Rapids to Martell & Richmond, I have made adjustments to my preliminary company boundary shape that will be used for recommending this right in the SRBA. Specifically, two 40-acre tracts were completely removed (8S 12E Section 1, NWNW & NENW). The transfer documents indicates that both of these tracts will be dried.

In addition, acreage reduction were specified in the same section for SWNW, SENW, and SWNE quarter-quarters. However, it doesn't appear from the transfer that the complete 40-acre tracts were intended to be dried for these latter three, so that I do not propose changing the company boundary for them.

Attached is a jpeg image s of Section 1 from 1987 and 2002 imagery for your review and comment. I will soon prepare larger format maps for review by both you and the federal agencies holding land within the Bell Rapids project (BLM & Nat'l Monument). Also, Mark Larson told me you may be getting ArcView. If you have it, I can email the project boundary shapefile and you can look at this on your computer.

Please let me know if you agree or disagree with my proposed adjustments to the company boundary.

Sincerely,
Scott
