MEMO TO FILE

To: 2-10205, 2-10206
From: Scott King 
Date: July 31, 2003

Subject: Transfer 69664

Transfer 69664 split a piece from the Bell Rapids right, originally 2-2268, then 2-10194, -10203, and now -10205 with 2-10206 being the portion most recently split off.

My review of Bell Rapids' right was conducted on 2-10203. Transfer 69664 was based on my recommendations in 2-10203, and split my recommendation into 2-10205 and 2-10206. The large POU shape for 2-10205 was adjusted by removing two 40-acre QQ tracts from the shape, including the 8S 12E Sec 01 NWNW & NENW, as it appears the transfer removed all irrigated acreage from these two QQs. Acres in three other QQs were reduced by the transfer, but only by a partial amount so that these tracts were not removed from the company boundary.

The POU for 2-10206 was created based on maps in the water right vault file (see 2-10203). Aerial imagery didn't clearly indicate how acreage should be partitioned in the 5 QQ tracts affected, so that all were nominal shapes except for 5S 9E Sec 27 NESE where Elmore taxlot data, the freeway, and the transfer map clearly indicate that the northern portion of this QQ should be included with the area to the south excluded. The POD was digitized based on the location indicated on the transfer map.
