MEMO TO FILE

To: 02-10227 
From: Scott King
Date: July 29, 2003

Subject: Recommendations

Claimant included stockwater on claim for 2-2150A. However, stockwater was not a use included on this license, and therefore could not be included in the recommendation. I solicited a claim for stockwater from Uptmor, which they returned. It is recommended as claimed using the priority date of the license as it is evident in the water right file that the water was already being diverted and used as of the date of the application, if not before.

Dear Mr. King

All is well on the Snake - except for the excessive mass in the river and the 108th temps - but river flows continue to be normal.

Thanks again for your help on obtaining stock water for the ranch. Hope it all gets settled soon.

Sincerely

Bob Upton
