Site Plan

The outlined area is the subject site. This is a 1978 sketch. The access from the highway is the topmost road on the west end of the drawing with the highway just beyond the west edge. The two off site structures are the two boxes above northwest corner of the site. The boxes in the upper left hand corner of the box represent the approximate location of the Main Lodge and the older lodge structures. The small rectangle at the lower left center is the location of the watchtower apartment and upper end of the old ski lift. The line running to the northeast is the location of the ski lift. The logging plan is out of date and has no bearing on today's timber.
