phone call (X) walk-in (.)

McGowan returned my call from last Fri and we discussed the rental cabin property in B71. He was concerned that the claim be recorded properly. Our discussion was very long and convoluted as a number of other issues and questions came up.

He described the system and historical use. He also said that part of the property was sold recently and he didn't want to be shorted for what he kept. I described what he originally claimed on the various claims and what we recommended on -10142. He said we screwed up and he uses his '85 well for some uses not described - like two cabins and two rv spaces. I told what was on the original claim - one home and lawn. He agreed he used it for those uses but also had made changes in system and has supplied water to his shed used for side businesses, the original home/office, one rental cabin and the rv spaces.

The conversation revealed that the original "1930" well has not been used for the rental cabin property since about 1978 when a new well was drilled by Hiddleston. I could not determine whether the original well (near the home/office) is still used, though he said that he wants to keep it since he retained lots 6,7 Blk 4. I conclude that three wells are on site, and only two are claimed. McGowan has separated systems since claims taking, so the new owner can not divert water from the old well.

IDWR has not received the owner change info from the new owner of the rental cabins, Gunter. It is uncertain how he will represent his claim or how the split will be crafted.

I informed McGowan that he has 120 days to object to claim. He wondered whether uses existing on site fit claim. I told him that the present claim describes 1 home and yard; limited to 13,000 gpd.

I further indicated that he could probably do whatever up to 13,000 gpd. I told McGowan that he could attempt to amend claim to change the non-irr use or object to claim and pursue it through settlement.

We then talked about Challis area property. I listened to a protracted discourse of Feds-this and Feds-that, he did this and that. We were able to come up with a legal description. McGowan would like to tap Gerry Gulch to gravity pressure irrigate with, since he said he abandoned his river right due to Fed pressure related to salmon listing. I told him I'd mail him an application and related maps.

JUSTIN SEAMONS, ATTY

SUBJECT: A71-04047, -07027, 10142

phone call (X) walk-in (.)

Appt w/ Seamons about McGowan to Gunter ownership change requirements. Explained the file information, provided copies of a communication memo I had with McGowan, and a sketch map in the recommendation for -04047. Issues related to how much of the rental cabin property was conveyed (i.e. cabin 13 and the office residence), which well is for what use, where, and since when were discussed.

I showed Seamons where -04047 & -07027 described all the original property. I informed him that where only a portion of the land is conveyed but the intent was to convey all of the claims, then a quit claim is required. I told him that unless a real property transaction describes specifically how things are divvied that IDWR is required to proportionately split appurtenant rights.

I gave Seamons 2 ownership change forms and 2 address change forms for his future use. Seamons indicated that he'd talk to his client (Gunter) and also Fury (McGowan's atty). He'd be back to me with either questions or the ownership change form & supporting documentation.
