Dear Mr. Shaw,

We are most disappointed that you rejected our request for an extension. The proper commencement notice was not received by us until the middle of Oct due to no zip code.

After receiving the form ^{in mid December} we contacted relative in Idaho who made an appointment to discuss our warranty deed but that appointment wasn't even available until late in Jan in Idaho Falls - I'm sure after the filing date. Finally on Jan 17th during the morning hours our son-in-law Jeff Labadie telephoned Idaho Falls and talked with someone in the office mostly to confirm whether or not to keep the appt.

The person in the office said "If there is any excess in the drainage area - It has to be in use after 1987. If not an application has to be made for any excess not in use." So he thought we had no right and cancelled the appt.

Our deed reads "Together with all appurtenant ditch and water rights and together with an easement for uninterrupted access thereto and therefrom."

So we still don't know what our water rights are in addition to our well and have been unable to find out. In good faith we have attempted to find out what are right are and what we are to do.

This has been an expensive ordeal for us with telephone calls, notarization and a fine & all for what benefit to us? No one seems willing to tell us the truth or give us time for an appointment.

Dear Mrs. Warmack:

I am in receipt of your letter of March 16, 1990 which accompanied your claim for a domestic well in Custer County.

The Adjudication is a process by which rights to existing water uses are confirmed by a court. It is an important process since in Idaho there are many valid water rights that have never been recorded. Up until recently it was not a requirement to record water uses in Idaho which sometimes makes the ownership of a water right unclear and makes it difficult for the efficient management of water uses in the state. The Adjudication will provide a record of ownership for all existing water uses as well as a quantification and identification of those water uses for administrative purposes.

Your letter says your forms were not received until mid December and your notice was not received until mid-October, however, our records show the forms were not requested until after the 1st of December.

The language on your deed regarding water rights is language similar to that which appears on many deeds in Idaho. Unfortunately, the language does not confirm the existence of a water right only that if there is a water right you're entitled to use it. If you could describe for me in detail the existing water use on your property in addition to the domestic well, along with a legal description of your property I will investigate the existence of any recorded water rights for your property.

If you would like to have an appointment or send someone for an appointment with one of our offices you may do so and we will schedule you or your designee in the first available time. With the number of claimants that are being assisted by the department as deadlines for claim filings in various county's approach, time for appointments is rapidly used up and those individuals who wait until near a deadline to schedule an appointment sometimes are unable to do so.

So far as the expenses you have encountered, I assume your water rights do have value and sometimes it is necessary to expend money to protect those resources of value.

The extension request was not approved because of the length of time between receipt of the notice, requesting the initial forms, pursuing the completion of those forms, and having them returned to the department.

If you will provide me with the information requested above, I will research our records to determine if any existing rights have been recorded for your property and provide the information to you.
