Additional explanation or supporting documentation of the error:

Right 22-7008 (Spring & Lower N Leigh Creek Water Users) was recommended in the Director's Report for Irrigation and Other Water Rights in Basin 22, Part 2, filed with the court in December 2006. The recommendation contained a "4550 ACRES TOTAL" notation under the Place Of Use (POU) element. The right was unobjected to, and moved to partial decree in December 2008. IDWR staff has recently discovered the partial decree does not contain the "4550 ACRES TOTAL" language originally recommended. IDWR requests the correction of the POU element of the partial decree to include the "4550 ACRES TOTAL" notation.

The addition of the acres total number will have no impact on the digital boundary CDs or maps originally provided to the Court. Additional color copies of the digital boundary map are enclosed for the Court's convenience.

For more information about the error the Court and/or water right holder should contact the person identified below.
